Coos Bayites in California

A NEWSY LETTER TELLING OF FORMER RESIDENTS OF THIS SECTION AND THEIR PRESENT LOCATIONS AND OCCUPATIONS.

(Special to The Times.)

SAN FRANCISCO, April 15.—Coos Bayites in San Francisco and in the Bay cities are getting along nicely. It is surprising how many of them there are here, including visitors and former Coos County residents who are now permanently located here.

J. H. Milner, formerly in the hardware business in Marshfield, and family are still located at Petaluma. Although in the egg metropolis, Mr. Milner has steered clear of the poultry business. He says that the stories of the wealth in the poultry business are merely products of a vivid imagination and that at Petaluma the people who are on easy street are those engaged in the dairy business instead of the poultry game. The family has been suffering from more or less sickness but they have all recovered.

Ed Wieder and his brother, Henry, have good positions with the Crowley Company which operates a big line of launches and tow boats in San Francisco Bay and also is engaged in the contracting business. Henry has been supervising a big contract which the firm has from the Key Route System, filling the Oakland waterfront and rip-rapping it. Ed is engaged in the office, being superintendent of the launches. Their mother who has been here with them most of the winter has practically recovered from her long illness and is expected to return to Lakeside this month. Their sister, Miss Edna Wieder, has been engaged in hospital work here.

Mr. and Mrs. J. T. McCormac plan to leave about June for Marshfield where they will spend two or three months. Mr. and Mrs. A. L. Barker, former Marshfield residents, will occupy the McCormac home in Berkeley while Dr. and Mrs. McCormac are on the Bay. Mr. Barker, who was formerly principal of the Marshfield high school, has been teaching in California the past year and will take a summer course at the University of California.

Fred McCormac, who is attending the University of California has decided to take up dairying and will enter Oregon Agricultural College at Corvallis next fall. He had planned to spend the summer at the ranch of his sister, Mrs. French, near McMinnville but has been offered a good position with the Heath dairy in Oakland and may take it. The Heath dairy has several herds in the vicinity of Oakland and Pleasanton, forty miles from Oakland, having in all about 1200 Holstein cows.

Mrs. A. E. Seaman of Marshfield, is now at the Seventh Day Adventist Sanitarium in the Napa Valley, a few hours ride from Oakland. Her physician writes that she is improving and with the improvement in her physical condition, her ultimate recovery is now hoped for. The sanitarium is one of the best in the state and is most rigid in enforcing the Adventist regulations. No meats, coffee, etc., are served, even to visitors, at any time.

Capt. Edgar Simpson who is now in charge of the Simpson Lumber company's office in San Francisco, has purchased a new Buick and has been devoting considerable time to the new machine. L. J. Simpson has been at Los Angeles the past few weeks with R. A. Wernick looking after some business there. Nothing has been given out concerning their plans for future activity at North Bend.

Mrs. Bush will entertain the club the second Wednesday in May.

EASTSIDE LADIES' AID

Mrs. H. Roger Brinkley was hostess at her home last Tuesday afternoon to the Eastside Ladies' Aid when sewing followed by a dainty luncheon was enjoyed by the following ladies: Mrs. W. F. Byerly, Mrs. W. Steckel, Mrs. I. Hadlock, Mrs. Fred Moore, Mrs. J. W. Bielman, Mrs. Brinkley, and Miss Marie Galbraith. In two weeks, the club will meet again with Mrs. Irwin Hadlock.

A. W. Myers and wife, who formerly conducted the Myers stores in North Bend and Marshfield, are residing in San Francisco where Mr. Myers is now practicing law. He has offices in the Russ building and is doing nicely. He is now trying a big case, involving the ownership of the corner on which is located the Newman Maguin store, one of the big stores in San Francisco, and, if he wins, will receive a large fee. Despite the handicap that he suffered in the loss of his left hand in a hunting accident in Washington soon after they left Coos Bay, he is doing well and looking fine as is Mrs. Myers. She has just returned from Washington where she was called by the death of her father. The latter was engaged in reclaiming a large tract of land which he owned near Pasco.

Paul Dimmick of the North Bend Mill and Lumber company who is now located in San Francisco says that there has been no appreciable change in the lumber market although he is still hopeful of an improvement. He is figuring on moving his office here and may arrange to handle, in his sales department, the output of one of the Redwood mills at Humboldt Bay in addition to the Spruce and fir from the North Bend mill.

Miss Violet Henderson has just returned from Fort Worth, Texas, where she was called by the serious illness of her mother, who is now recuperating. Miss Henderson, who was formerly secretary of the Marshfield Chamber of Commerce, has an excellent position in Oakland, being secretary of an Oakland Builders' Supply Exchange and her duties are somewhat similar to those of her old position in Marshfield. She and her uncle, Hugh Brown, have a fine apartment overlooking Lake Merritt in Oakland. Mr. Brown has a good position with the Western Pacific Railroad. Miss Henderson is talking of returning to Fort Worth to live and in this connection there are rumors of Cupid luring her from the West but she blushing denies the latter.

August Eickworth is in charge of the nightshift of linotypes at The Bulletin office where he has been employed for several years. He lives in San Francisco and says that his seven-months old son is a real winner. The Bulletin, although on evening paper gets out about six editions a day. The first edition is issued at 7:50 o'clock in the morning and the next about 9:30. The mail edition, which goes to Coos Bay and elsewhere is issued about 11 o'clock and the regular city edition about 1 o'clock. Another is issued about 2 o'clock and the last about 5 o'clock. In consequence of the very early edition in the morning, the night shift of The Bulletin is about as important as the day shift, all of the ads being set at night, the advertisers being compelled to get in their copy a day ahead of time.

Tom Golden, who for years was connected with the gasoline schooners operating out of Coos Bay, is engineer on one of the Crowley tow boats, drawing \$110 per month.

The weather in Northern California for the past month has been decidedly "offish," cold, cloudy, rainy, foggy and windy. There have been a few nice days but on the whole it has been anything but the "glorious sunshine," and in consequence most of the natives have been busy explaining to visitors at the Exposition that conditions have been most unusual. If you just arrived, they will tell you "how nice it was last week," but if it happens that you were here "last week," you don't see much of a change. Judging by the past few weeks, this section hasn't much on Coos Bay when it comes to climate. About the only perceptible difference is that there aren't as heavy rains. However, the rainfall during February was greater in Berkeley than it was on Coos Bay during the same month.

Mrs. E. E. Kelley entertained the High School teachers informally at dinner last Wednesday evening, her guests including the Misses: Frances Harkness, Ethel Rees, Esther Silverman Elizabeth Moore, and Marie Maloney.
