E. Syverson Meets Death This Morning When Explosion Blows up His Cabin

PARTS OF HIS BODY

Are Scattered About and Only Victim's Legs Are Found Intact in the Ruins

NEIGHBORS HEAR NOISE
 Anticipate Serious Accident and on Investigating Discover That Horrifying Tragedy Has Taken Place

(Special to The Times.)
 COQUILLE, Or., April 30.—Fragments and mangled remains of the body of E. Syverson were found in the ruins of his cabin when neighbors investigated this morning after hearing a heavy explosion.

It is supposed that the explosion was an accident. Syverson had been employed in blowing stumps on the farm of S. P. Warren, about three miles from Coquille near Cedar Point. Syverson was a married man about 50 years old, but his wife resides in Portland and he was living alone in a little cabin. He had been using high explosives in blowing out the stumps and it is supposed that some act of carelessness perhaps caused the explosion this morning. It was about 7 o'clock when neighbors heard the terrific noise and anticipating that something serious had happened they investigated. They found Mr. Syverson's cabin a wreck. In the wreckage were found the man's leg, but the rest of his body had been blown into small fragments which in a horrifying manner were scattered all about the site of the cabin. Nothing further is known of the accident. Coroner Wilson was notified, but being engaged with a funeral here instructed a Justice of the Peace to look after the case.

TARHEEL CAMP

STARTS TODAY

Force is Made up of Thirty Loggers, Most of Whom Worked There Before

PIERCE IS FOREMAN

Belief is That Simpson Lumber Company Intends Starting Operation of Mill Soon

CAMP IS FULLY EQUIPPED

Has Not Been Closed Long and Everything is There in Readiness for Work—Little Preparatory Work to Do.

Tarheel Point logging camp of the Simpson Lumber Company on the bay below Empire started operations again today. Emmett Pierce, who in the past was foreman of the camp, is again in charge. He was in the city today and announced that he would have a crew of thirty men in the camp and that the force would be made up of about the same workmen who were with him before.

Fully Equipped.

Tarheel camp is fully equipped for work. It continued operations long after the McDonald & Vaughan camp stopped and it has not been long since the camp closed. Therefore there will be little to do in the way of preparations as everything in the way of equipment is ready to start off work. The logs as before, will be taken out on the railroad to the bay and rafted to the Simpson mill at North Bend. Fir, spruce and cedar will be cut.

Is Good News.

The fact that the camp opens again was good news to loggers who have been out of work, and is highly encouraging to North Bend, as it is taken to indicate that the Simpson Company intends to soon start operations at the Porter Mill. Especially is this the belief from the fact that there is already a large amount of logs in the booms at the North Bend mills and if more logs are to be taken out, it is evident that the company intends to cut lumber soon.

Some of the loggers who worked at the camp before have been living there since it closed and are right at hand ready to go to work again.

ANNUAL ELECTION

MILICOMA ASSOCIATION INSTALLS NEW OFFICERS

Secretary's Report Shows Good Financial Condition With Active Membership of 80.

Election of new officers, the appointment of committees for the year and plans for a membership campaign marked the annual meeting of the Millicoma Association in the club rooms last evening. Practically all the members were present and following the business session, a "hot dog feed" was staged and the men watched with interest the antics of Fred Hall, trick pool and billiard player.

By a close vote D. Y. Stafford was elected president of the association. A. T. Haines is the new vice-president and H. A. Buserud continues as secretary-treasurer. The house committee is composed of Claud C. Thompson, W. J. Conrad and Al Meyers and the library committee, Tom T. Bennett, C. E. Nicholson and Hugh Barclay, and the board of governors, Hugh McLain and J. S. Lyons.

Much credit is given J. Albert Matson, retiring president of the Association for the energetic manner in which he has handled the organization. The annual report read last evening by Mr. Buserud showed the Association to be in very good financial standing and with better prospects for the new year. Thanks were also extended to the retiring house committee, Frank G. Horton and Claude Nasberg.

A. J. Mendel and Henry Huggins were two new members initiated into the club.

Within the next month it is expected the membership campaign will be placed on foot, as soon as the new committee is able to get together and make their plans. A proposal is now before the association to reduce the monthly dues to \$1.50 and this is to be voted on by the members.

In his report Mr. Buserud showed that there are now more than 80 local active members of the Association, the largest record since the organization of this body.

(By Associated Press to Coos Bay Times.)
 PARIS, April 30.—The official statement today said the German fleet was at large off the Belgian coast and that the German artillery had bombarded Dunkirk. The presence of the German army so near Dunkirk was unexplained. The German fleet cruising in the North Sea was reported several times recently. Berlin reports fighting yesterday between Steenstrat and Hetssan. Zouaves and Turcos attempted to charge against the German right wing, but were repulsed. The Belgian statement says that the Germans attempted to attack from Steenstrat, but were repulsed.

Berlin says the Germans captured the French trench in Argennes, and say the French lost 4000 men on Meuse Heights April 24 to 26. Desultory fighting continues in the region of the Suez Canal where the Turks are preparing another advance. In the East, fighting is going on north of Suwalki in Russian Poland.

On the Other Hand Turks Claim Allies Have Been Driven Off of Their Territory

(By Associated Press to Coos Bay Times.)
 PARIS, April 30.—A dispatch from Athens to the Havas Agency alleges that the city of Gallipoli, on the Eastern side of the Dardanelles, near the entrance to the sea of Marmora, has been captured by the Allies. It is also said that the Turkish fort at Nagara on the Asiatic side of the straits, was bombarded heavily.

THE OTHER SIDE.

OFFICIAL BERLIN STATEMENT SAYS THEY WERE BRAVE

Fought Allies With Bayonets and Succeeded in Capturing Rifles and Ammunition.

(By Associated Press to Coos Bay Times.)
 BERLIN, April 30.—The official statement today says: "Reports from the Dardanelles pay tribute to the bravery and enthusiasm of the Turkish troops. In the first battle of Kum Kale the Turks did not fire a shot, but repulsed the enemy with the bayonet. Forty warships bombarded Seddul Bahr. While this battle was in progress the Turks captured a large quantity of rifles and ammunition. At Gallipoli the Turks fought unintermittently for two days against the constant attack of the enemy without showing fatigue."

On the Eastern and Western fronts the situation generally is unchanged. In Russian Poland and the Carpathians we have been having lively artillery duels in which our fire was very effective. In the Opor Valley, the enemy after many hours of artillery fire, vainly attempted a night advance against the heights held by our infantry."

CURTAIN PRODUCTION

Austrian Cotton Mills Warned Not to Increase Output

(By Associated Press to Coos Bay Times.)
 VIENNA, April 30.—Learning that certain Austrian cotton mills planned to increase the number of looms, the Association of Austrian Cotton-Weavers has issued an emphatic warning against any such step. It pointed out that while a large number of looms are occupied with army contracts, the general trade situation is far from satisfactory, and the present is no time for increasing machinery plants.

The Association's circular goes on to say that the future is no more favorable either. Exports will certainly not be made easier by the war, but it will be more difficult. In the last three or four years selling prices, through over production, have been from five to ten per cent below cost of manufacture. It is absolutely senseless therefore, it is contended, to think of increasing investments in the cotton business in Austria under present conditions.

NOTHING IN STORY

There was a story afloat at North Bend today to the effect that the Speedwell had met with some difficulties at Bandon. Such was not the case, and there was no foundation for the story. The Speedwell arrived safely at Bandon with the equipment of the dredge Seattle and today is loading ties and will be in Coos Bay in time to sail on schedule for San Francisco.
