Why Ford Succeeded

Largely because of one idea—one chassis—one car for the man who wanted his money's worth.

The same is true of Clothcraft Clothes for men, in regard to specialized manufacture—well equipped factory, most advanced methods, materials purchased in large quantities, and one idea in mind always—the best materials and tailoring that can be sold for \$10 to \$20.

CLOTHCRAFT All Wool Clothes \$10 to \$20 Ready to Wear

—TWO STORES— MARSHFIELD NORTH BEND

LOCALS BREVITIES

WEATHER FORECAST

(By Associated Press to Coos Bay Times.) OREGON—Fair, heavy frost South and East, westerly winds.

LOCAL TEMPERATURE RECORD

For the 24 hours ending at 4:43 a. m., April 30, by Benj. Ostlund, special government meteorologist: Maximum 53 Minimum 37 At 4:43 a. m. 37 Precipitation since Sept. 1, 1914 59.86 Precipitation same period last year 62.40 Wind: Northwest, cloudy.

Plan Contest.—A Demorest medal contest will be held at North Bend the first Friday in May.

Confirmation Lecture.—There will be a lecture on the subject of Confirmation at the Episcopal church this evening at 7:30.

Will Return Soon.—Dr. A. L. Houseworth writes friends that he will return May 5 from a visit at his old home in Oklahoma.

Go to Egypt.—Cal Wright has received word from his son, Reece, that he has signed as engineer on a Standard Oil Tank line vessel and will sail for Alexandria, Egypt, early in May.

Story Hours Saturday.—Tomorrow afternoon at three o'clock the little folks will attend the story hour at the public library. The librarian devotes this time once a week to meeting with the children to talk over the stories so interesting to them.

Sunday Service.—At St. Mary's Episcopal church, North Bend, Sunday morning at 8 o'clock, there will be a service consisting of Holy Communion. The Holy Communion service at Marshfield Episcopal church will be at 11 a. m., when the Rector will preach on the subject: "The Shepherd and the Sheep."

Open Restaurant.—Mr. and Mrs. G. W. Craig left this morning for Powers where they will conduct a hotel. While the hotel is not completed, the restaurant is and they will open it up at once so as to be

able to furnish meals to the excursionists who will visit Powers Sunday. This will be a decided convenience to the public.

Is Improving.—Wm. Grimes yesterday received a letter from his son-in-law, Dorsey Kreitzer, who is at the home of his parents in Dayton, Ohio, saying that he is recuperating rapidly. For a time after reaching his old home, specialists compelled him to remain in bed but he is now able to be up and around. This will be most gratifying news to his many friends on the Bay.

Move Nashburg Grocery.—Harry Nashburg will move his grocery store from Second and Commercial, in what was formerly the Saechi building, into the Russell building at Second and Central, occupying the store-room just vacated by the Central Avenue pharmacy. The new location is an excellent one. Herbert Lockhart said that the former location would be for rent.

Juice Comes in Bunches.—Shortly after six o'clock last evening the electric lights over the city dimmed for a few minutes but nothing was thought of the occurrence. An increase in the power at the plant in the Smith mill was made, but done so rapidly that the high voltage "surged" back from the wires into the plant again, making a noise that sounded like the explosion of Krupp guns and filled the entire station with a heavy smoke. The occurrence was exciting but not dangerous say those who were in charge of the plant.

Interior Decoration Completed.—The painters have been working for the past few days completing the interior decorating of the walls of the Episcopal church, which, on account of weather conditions, was left unfinished at the building of the edifice. The color forms a striking harmony with other parts of the inside of the building, and is both unique and most pleasing to the eyes. It is a carrying out of the ideas of the architect, Mr. Benjamin Ostlund, who voluntarily without charge, donated his services to the Ladies' Guild which has undertaken to do this work.

Great Pasture Grass.—W. G. Simpson, brother in law of William Bowron, with his wife has just returned from a week's visit at the Bowron ranch at Templeton. He tells of a wonderful combination of orchard grass and timothy that has been planted on a 60 acre side hill field that has grown to between 18 and 24 inches in height. This is its first year and right now the land is pasturing about 50 head of stock together with 200 head of sheep and goats. Mr. Simpson believes that the combination of the two grasses

is a happy one and that it will pave the way for other successful pastures in the county.

Gets Chester White Brood.—Fourteen little grunting Chester White pigs of first blood have just been purchased by Burt A. Doremus for his place on Shinglehouse Slough where he already has a small "herd" of grunters. The shipment of little fellows was purchased on North Inlet and were brought down today on the North Star.

Rain Makes Bad Roads.—Yesterday afternoon the auto stages to Coquille were forced to cease operations because of the heavy storm of the last two days, though in the morning the light machines were able to make the journey through. This morning all but one machine was off the run and the owners say that there will be no traffic until the weather clears off considerably.

No Burglar in House.—Mrs. Earl Savage, South 10th Street, received a phone message last night. "There's a burglar in your basement," she was told and immediately there was a scurry for the police force. Hurrying down town in the machine with Mr. Savage, Officers Shoup and Richardson, together with R. J. Long were picked up and a speedy run was made back to the home. Investigation showed that one of the little boys who lives in the house was prowling about down stairs.

May Retard Strawberries.—Those who have been shielding and working over their beds of strawberries this spring in hopes of an early short cake may possibly be disappointed by at least a week. It is said that the cold weather accompanying the storm, while it has not damaged the berries, it has nevertheless served to hold back their growth for about seven days. There are many patches on Coos Bay whose owners were rushing them to the limit to be the first on the market. It is believed that none of the vegetables have been harmed by the hail or the cold weather.

Track Men Delayed.—Track athletes at the Marshfield High School are anxiously watching for the cloud with a silver lining for with a muddy track their spring training has been temporarily delayed in the open. Most of the men are practicing hard in the gymnasium. For two weeks now they have been out on the race track limbering up and getting into form for the spring events that are scheduled for next month. There is to be a track meet here of the track teams from the five county high schools. Marshfield won the pennant last year but the boys say the bad weather has delayed them considerable this spring.
