FARMERS FORTUNATE.

THE crop estimates just published by the Department of Agriculture should be gratifying to the farmers of Oregon. Every product listed is to bring the producer more money this year than last year...

WITH THE TOAST AND THE TEA. GOOD EVENING. For every had there might be a worse; and when one breaks his leg let him be thankful it was not his neck.

THE BETTER DAY. A better day is breaking. It will dawn when least we know. With a splendor in the sunlight. With a shimmer on the snow. We will rise to higher beauty.

A woman's dress can now be bought for a few cents, but there are a number of other things that once some Coos Bay men to remain in the bachelor's class.

Some Coos Bay men always recognize their duty in time to step it.

THE QUIET OBSERVER SAYS. "Possibly smacking the lips may be vulgar, but, of course, it depends on whose lips you smack."

THE DAY'S ADVICE. Do not get fat headed. Many a man has lost a good job because he got the idea into his head that no other man could fill his place.

THE WISE GUY SAYS. "You climb pretty high in the world, but you can never get so high that you are above suspicion."

NEWS OF NEARBY TOWNS

WILL BUILD HOTEL OLD PIONEER DIES

BROOKINGS TO HAVE FIRST CLASS MODERN HOUSE

Place is Lively Now and Lumber Company Will Make a Beautiful Seaport City

The new town of Brookings in Curry County is quite an active place right now. The town is on the north side of the Chetco River overlooking the ocean. A new bridge is to be built across the river this year which will connect Brookings with Harbor on the south side of the river and also give a closer connection with the road extending down the coast.

Must be Approved.

In regard to the work at Brookings the Gold Beach Globe says: "The town-site of Brookings is owned by the Brookings Land & Townsite company, which is a subsidiary company of the Brookings Timber & Lumber company, and the buildings that are to be erected within the limits of town or city are under certain restrictions. No cattle, sheep, pigs, chickens or dogs are permitted to roam at large within the limits of the city, neither will the site of any structure be permitted to be built, and no building will be constructed costing less than a certain amount, and all plans and specifications have to be approved by the Supervising Architect, so that the Civic Center which is a most beautiful park, and everything in connection with the city, its streets and places of amusement, dwellings, places of business and all are a harmonious whole, with water, electric light and a perfect sanitary system."

Thirty-Room House

"The Hotel will be of thirty rooms capacity, ten of which will be provided with both and all will be lighted by electricity from the company's mill plant.

"The appointments will be first-class in every respect and second to none in the hotel line between Puget Sound and San Francisco. The lot upon which the hotel and buildings are to be erected contains one acre, situated in one corner of the Civic center, with graded streets, shade trees and shrubbery arranged in the most artistic manner, with fountains and rest places in profusion for tired people."

Steamship Line. "The company has a first class steamship line to San Francisco, Los Angeles and San Diego, with excellent service for passengers. The company pays particular attention to the carrying of freight for Curry county. There are only thirty-six hours from San Francisco as a maximum and usually make the trip in less time."

WILLIAM DEWAR, OF GARDINER, SUCCEEDS TO PARALYSIS

40 Years Pioneer of Coast, Father of Mrs. Herman Smithgall and Algie Dewar, of Coos Bay

William Dewar, of Gardiner, aged 68 years, father of Mrs. Herman Smithgall, of Catching Inlet, and Algie Dewar, of North Bend, died late last night, according to a wire received here this morning. A Mrs. Smithgall and Mr. Dewar leave tomorrow morning for Gardiner where they will attend the funeral.

The deceased was born in Wisconsin and for 40 years has been a pioneer resident of Gardiner. For six years he has been in ill health, the past 12 months being an invalid with creeping paralysis.

He leaves a widow and five children. They are Mrs. Herman Smithgall, of Catching Inlet; Mrs. Jennie Chamberlin, of Florence; Algie Dewar, of North Bend, and Will Dewar and Mrs. Gertrude Lester, of Gardiner.

Mr. Dewar was the owner of the famous Bolan Island in the Umpqua River. It is located where Smith River runs into the Umpqua and consists of 140 acres of land. It is a beautiful place and for many years Mr. Dewar conducted it as a ranch. He made a specialty of raising horses. He bought the island about sixteen years ago. Lately since he had been in poor health, the place was rented.

BRIEFS OF BANDON

Doings of People at City-by-the-Sea Told in Western World.

Mrs. J. Clausen, of Bandon, is spending a few weeks at the home of Mr. and Mrs. A. Adolphsen at Denmark.

J. A. Hamilton and A. E. Dartwell, of Portland were here last week. They went south to cruise a tract of timber about six miles south of Langlois.

Mr. and Mrs. Ed Croft and son, of Tacoma, arrived in Bandon recently and have gone to their ranch on Croft Lake in the southern part of the county, for several weeks' outing.

Mrs. H. Lewellen and daughter, Edna, are visiting relatives at Eugene, where they expect to remain several weeks. They went via the Willamette Pacific from Mapleton.

Dr. L. P. Sorenson has returned from Curry County where he had spent two weeks. He took occasion to study Curry County roads while there and declares they are in much better condition, by way of improvements, than those near Bandon.

Miss Blanche Landrith has gone to Los Angeles, having been called there by the illness of her brother, Phillip, who had been operated on for appendicitis. Miss Kate Rosa has assumed the duties of Miss Landrith in the East Bandon school during the latter's absence.

SPOILS HATCHING.

Engineer C. R. Wright, of the government jetty work at Bandon is the target for all the unhatched eggs in the Tupper rock section of the city. Industrious housewives who have been busy setting hens find that their labors are all in vain, for the frequent blasting at the Tupper quarry has kept that neighborhood so "shaken up" that the chicks haven't had a chance to form in the shell, thus spoiling the eggs. One lady set 50 eggs and did not get a chick. Mr. Wright pleads "not guilty," basing his defense on the claim that it isn't the blasting at all, but a case of race suicide in the featherly tribe.—Bandon Western World.

IS WITHOUT MEANS

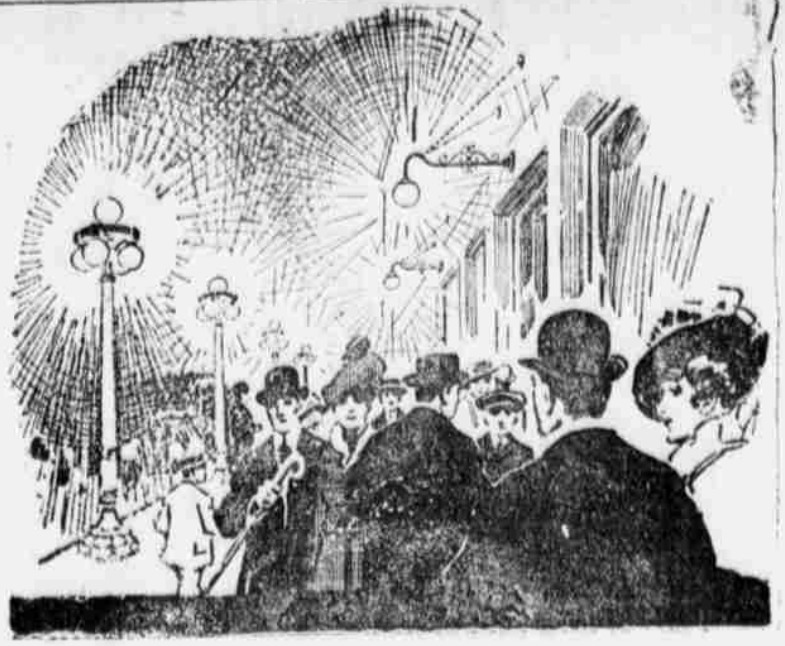

Wife of Man Killed Writes to Justice of Peace. The wife of E. Syverson, the man blown to pieces near Coquille last week, who wrote to him so hopefully about their troubles being about over when she was expecting to come to him, sent word to Justice Stanley that she was without any means except the remittances she had received from him, and had nothing with which to pay his funeral expenses. She is, too, paralyzed on one side, so that it seems a wonder that she could have written so cheery a letter as the one that must have gladdened her husband's heart on the eve of the accident that cost him his life.—Coquille Sentinel.
