GOVERNMENT AIDS IN SAVING WASTE

Forestry Service Endeavors to Show How Waste Wood May be Put to Use

(Special to The Times.)

PORTLAND, Ore., May 21.—The latest business-aid service instituted by the government is a wood-waste exchange conducted by the Forest Service in Washington, D. C. It aims to assist lumbermen and manufacturers of wood to use each other's waste to mutual advantage, thus effecting a large saving not only in forest material but in money as well. More than 40 manufacturers of wooden articles have asked to be put on the exchange list.

Twice a month the exchange sends out a circular headed "Opportunities to Buy Waste," containing the names and addresses of factories having waste wood for sale, with exact information as to species, sizes, forms and quantities. Similarly, another circular headed "Opportunities to Sell Waste," gives the specific requirements of wood using plants which desire to buy waste material.

To illustrate: A furniture maker in Michigan wrote to the Forest Service asking how to dispose of sugar maple blocks and sticks which were cut off in the process of furniture making and which he had to sell merely as fuel. Samples were obtained from him and the Service then located a scrubbing brush manufacturer for brush backs. The result was that the furniture maker was enabled to sell his waste at a much higher price than it brought as fuel, while the brush maker was enabled to buy brush back material at a much lower figure than it had been costing him to buy maple lumber and cut it up.

Returns Lost Article.—

The efficiency of the Times want ads was again demonstrated today. Day before yesterday a sweater was advertised in the Times as lost on the Marshfield-Sunset Bay road. The article was picked up by a North Bend owner who reading the lost ad in the Times returned the sweater today to its rightful owner. Times ads bring results.

A. G. HAINES, brother of A. T. and P. A. Haines, accompanied by his wife, arrived today on the Breakwater to visit for a few days. They are on their way home to Iowa after taking in the Exposition.

C. G. ZEEK, of Bandon, came home today on the Breakwater and expects to leave tomorrow for his home.

Orrine for Drink Habit

Try It at Our Expense

We are in earnest when we ask you to give ORRINE a trial. You have nothing to risk and everything to gain, for your money will be returned if after a trial you fail to get results from ORRINE. This offer gives the wives and mothers of those who drink to excess an opportunity to try the ORRINE treatment. It is a very simple treatment, can be given in the home without publicity, or loss of time from business, and at a small price.

ORRINE is prepared in two forms: No. 1, secret treatment, a powder; ORRINE No. 2, in pill form, for those who desire to take voluntary treatment. Costs only \$1 a box. Come in and talk over the matter with us. Ask for booklet.

PEOPLE'S FORUM

The Coos Bay Times will be pleased to publish letters from its readers on all questions of public interest, giving his or her address, and so far as possible limited to 250 words. In publishing these letters The Times does not indorse the views expressed therein; it is simply affording a means for the voicing of different opinions on all questions affecting the public welfare.

TO THE TAXPAYERS

In Mr. T. J. Thrift's address to the Fellowship Club in The Coos Bay Times of April 7th, 1915, he states that there are 39 inmates at the County poor farm and also that the jail is full. It seems as though he considers this all of our county charges that we poor tax payers support. Indeed it is time that every one should howl about high taxes. Will Mr. Thrift please let the taxpayers know who supports the 105 other county charges. In this include all widows. I am of opinion if Mr. Thrift will investigate some of the needy widows' financial income per month he will find that some live and dress better and have a larger income per month than some of the poor taxpayers can furnish their families. In the month of March, according to the County court proceedings, there were \$649.10 spent for the support of those thirty inmates at the County farm, saying nothing about the 105 that we are keeping on the outside. A few years ago when all those that asked alms from the County were compelled to live at the County poor farm we had fewer paupers but at the present time it seems as though pride with a great many has taken a fall.

Yours truly,
A CITIZEN OF COOS COUNTY.

Inspects Engine.—

AN OBJECT LESSON

At the beginning of the war, when business looked blue, the automobile manufacturers decided they would go right ahead.

They did not curtail their newspaper advertising. If anything they increased it.

What was the result? The manufacturers almost without exception now report that their sales have increased right along, and in some instances are from 25 to 50 per cent ahead of the same months of 1913-14.

The big automobile shows held in New York, Philadelphia, Chicago and Boston, have been attended by the largest crowds ever known in the history of such exhibitions and the number of machines disposed of has been far in excess of those of other years.

THE SATISFIED CUSTOMER

Every storekeeper knows that the best advertisement he can have is a satisfied customer. For that reason the modern merchant frowns on the practice of substitution. When a customer sees an article advertised in The Times and calls for it by name, the alert storekeeper will be ready to provide it.

Indeed, the more up-to-date the minute retailers, co-operate directly with reputable manufacturers, and when the latter's advertising appears in The Times they show the goods in the window.

Be Sure How Your Meat is Kept

With the approach of the summer season, our Cold Storage plant becomes more than ever a factor that every meat consumer should consider. The Cold Storage plant in all seasons of the year permits the meat to be properly kept and ripened before being delivered to the consumer but in the summer season when the flies and sunshine threaten fresh meat, you should be sure about the kind of meat you are getting. In addition to our usual excellent meat supply, this week we have some very fine chickens, spring lambs and fresh pork.
