

EXAMINE TESTERS

THREE EXAMINATIONS WILL BE HELD IN COUNTY

Purpose is to Make All Users Babcock Tester Accurate in Figures On Which Checks Are Based

Under the new law which requires that all buyers of milk, cream and butterfat for the purpose of manufacture, and all operators of the Babcock test for determining butterfat, secure a license. Three examinations are to be given within the next two weeks in this county...

The first will be held on Monday, May 31, beginning at 10 a. m., at the Coquille Valley Creamery. The second to be Wednesday, June 2, at the Bandon Creamery...

Mr. Smith explains that under the old plan anyone could become a tester. Many learned the art in a haphazard manner with the result that in the year's time the customer was very apt to find himself far behind the game...

All applicants for this examination who wish to secure copies of the new law as passed by the last legislature should address J. L. Smith, county agriculturalist, at Coquille.

THE SATISFIED CUSTOMER Every storekeeper knows that the best advertisement he can have is a satisfied customer.

For that reason the modern merchant frowns on the practice of substitution. When a customer sees an article advertised in The Times and calls for it by name, the alert storekeeper will be ready to provide it.

Indeed, the more up-to-the-minute retailers co-operate directly with reputable manufacturers, and when the latter's advertising appears in The Times they show the goods in the window.

LOCAL OVERFLOW

MRS. HANSON of Sumner is a Marshfield shopper.

MRS. ROBERT CHRISTENSON of Haynes Inlet is a Marshfield shopper.

MILTON GLASS came back from San Francisco today, tooting his own particular "brass band" whistle, and appeared quite glad. He is with a wholesale cigar house and will be here several days.

TO THE COUNTRY LAD (By Henry Huggins) O, my little man, thou art so free, To roam the land at large And this is the time of the year When the fish they bite so free.

As I sit here at my little desk, O, this is what I see: The waving trees, the river so blue And you so happy and free.

You carry your little home-made pole With a hook and line and bait, You sit on the bank, you bait your hook And you sit and wait and wait.

When all at once you start and jump, What in the world can it be? You pull in your line, so quick and true And the fish that is hooked thereon.

O, country lad, stray not from thine home, Thy life is so happy and free, But now I must stop, the boss is here, And finish this on another day.

To prevent a cow switching her tail against a person milking her there has been patented a clamp attached to a steel spring to be twined around one leg.

For ironing laces and dainty fabrics an iron has been brought out in England in the form of a polished steel roller, fitted with electric heating units.

ALL BIRTHS MUST NOW BE REPORTED

New State Law Which Has Gone Into Effect Specifies the Condition Enacted

The manner of reporting births has been changed on account of a new law which went into effect last Saturday. The law was passed by the last legislature. Extracts from the law read as follows:

Section 11.—That all births that occur in the state shall be immediately registered in the districts in which they occur, as hereinafter provided.

Section 12.—That it shall be the duty of the attending physician or midwife to file a certificate of the birth, properly and completely filled out, giving all the particulars required by this act, with the local health officer of the district in which the birth occurred, within ten days after the date of the birth. And if there be no attending physician or midwife, then it shall be the duty of the father or mother of the child, householder or owner of the premises, manager or superintendent of public or private institution in which the birth occurred, to notify the local health officer, within ten days after the birth, of the fact of such a birth having occurred. It shall then in such case, be the duty of the local health officer to secure the necessary information and signature to make the proper certificate of birth.

Section two of the same law requires that all towns and cities, with a population exceeding 2,000, must have its own health officer and own registration system.
