BORN

KARDELL—To Mr. and Mrs. A. E. Kardell, of Coos River, on June 1, a daughter. Mr. Kardell is a well-known Coos River rancher.

Still in Hawaii.—Arno Meehan has received a letter from C. A. Smith who, with his family, went to Hawaii on a vacation trip. Mr. Smith writes that he is enjoying his visit and is visiting the points of interest on the islands.

Niece Graduates.—Henry Huggins yesterday received announcements of the graduation of his favorite niece, Miss Katherine H. Huggins from Linden Hall Seminary at Litzitz, Pa., on June 9th. This is the 16th commencement of the seminary.

Fine Fish.—Dr. Vaughan, H. J. Vaughan, Tom James and Ferd Painter who returned yesterday brought in about eighty trout from Ten Mile which they had on exhibition in the Gunnery window. The fishing there lately has been the best in years.

In Washington.—G. J. Lemanski, who was formerly engaged in the moving picture business here and at North Bend and who recently disposed of his show houses to Robert Marsden, Jr., and Denny Hall, writes that he has located at Renton, Washington.

Hearing Postponed.—The hearing of Alfred Bayne on a charge of having elk horns in his possession unlawfully has been postponed in the justice court until tomorrow afternoon at two o'clock when it is expected that District Attorney Liljeqvist will be here.

Indoor Picnic.—The Marshfield Women's Baptist Missionary Circle

and their friends will hold an indoor picnic Wednesday afternoon at the home of Rev. and Mrs. A. F. Bassford. Each guest will bring a basket luncheon and a pleasant afternoon is being anticipated.

Too Much Fire-water.—Jack Murphy found a place in the jail last evening for imbibing too freely of fire water. He was released this morning.

Hatchery Wins.—There was a ball game Sunday on Coos River between the boys at the Hatchery and the Coos River nine. The result is said to have been a landslide in favor of the Hatchery team.

Change Meeting Place.—The A. N. W. Club will meet Thursday afternoon at the home of Mrs. Frances Hazard, instead of with Mrs. C. F. McKnight as previously announced. Mrs. McKnight left on Tuesday morning for a visit with her sister, Mrs. L. L. Porter, of Oregon City.

Left Fortune to Charity.—Henry Huggins is in receipt of an announcement of the will of his aunt, Lady Huggins of Chester, England. She was the widow of Sir William Huggins, a noted English astronomer. Most of her property went to charities and educational institutions. The estate was appraised at about \$75,000.

Millington Game.—Sunday the Bunker Hill boys team defeated the Millington team at Millington by a score of 13 to 4. The Bunker Hill team is composed of young boys, headed by the Johnsons, while the Millington team was a grownup aggregation. In consequence, the Bunker Hill boys are feeling highly elated.

Goes East on Visit.—A. E. Gagnon left today on the steamer F. A. Kilburn for Portland and from there will go to Minneapolis for a visit of about a month. Mr. Gagnon resided in Minneapolis for 25 years until he came to Coos Bay with the C. A. Smith Company and he is going East again to visit with his old friends there.

For Waterworks.—S. B. Cathcart City Engineer of Eastside, went to Coquille today to gather some data regarding the municipal water system at the county seat. He is making a very comprehensive report on the proposed water system for Eastside and Cooston and wishes to take advantage of any experience that Coquille may have gained.

Petition Sent.—A petition containing the names of 120 Coos River people was sent this morning by Postmaster Hugh McLain to Washington asking for Coos Bay's first rural free delivery. It must be in Washington on June 7. It has been stated the petition will be favorably acted upon.

Postpone Concert.—The Executive Board of the Chalmers Club has decided to not give the Concert in Myrtle Point at this time. At the meeting of the Club last Friday, it was decided to go next Friday, and since then it has been learned that the County Track Meet is to be held on that day. Rather than conflict with this event, the Concert has been postponed indefinitely.

Relatives Indifferent.—Relatives of Frank Gilbert, suicide of a few days ago when his wife refused to return to him, are indifferent and indicate that he can be buried in a potter's field. John Gilbert, a brother in Idaho has sent word to Fred Wilson to bury the brother here. Efforts are being made to locate a cousin, a Dr. Gilbert somewhere in California.

Chapel is Ready.—The new chapel of the Methodist church in Bay Park is now ready for services and will be opened for the first time next Sunday. The building cost approximately \$1,500 and was put up by Ralph Garst. It is not altogether finished inside and there are large windows to be added at a later date. The lot has been donated by the Marshfield Land company.

NOBLE THEATER TONIGHT

Entire Change of Program

Council Meets Tonight.—The city fathers are scheduled to meet this evening to talk over the affairs of the city. The meeting was not held last night for the reason that yesterday was a legal holiday.

Married at Spokane.—Miss Clara Hahn, of Langlois, Curry County, was married to D. F. Keefe, of Idaho, at the Church of the Holy Name at Spokane on May 19. The groom is employed by a mining company at Wallace, Idaho, and the couple will make their home at that place.

Summer Schedule Starts.—Today June 1, opened up the summer mail schedule but Postmaster McLain states it will have no effect on the time the mail reaches or leaves Coos Bay. It will mean that the mail hereafter may leave Myrtle Point in the morning instead of the evening before. It is said the roads are so bad on the Myrtle Point road that six horses toll through mire almost impassable in handling the mails.

Canneryman Expected.—B. A. Seaborg, who is starting a new cannery on the Rogue River, is expected in from Portland within the next two days. His chartered gasoline schooner Gjoa, of Seattle, Captain Olson, is still here waiting for a pilot, they say, to take them over the bars. It is now reported the owners are afraid that the vessel will be of too deep draft to make the Rogue River when loaded.

Road is Bad.—J. H. Paulsen, the Coquille timberman, was here last evening. He has just returned from a trip to the eastern part of the county. He came in on the Myrtle Point mail stage the night before last and says the road is in awful condition. They are using six horses on the stage through the canyon and he says that mud is a couple of feet deep. He says it is remarkable that the mail is brought through at all.

Logging Camp Opens.—Jack McDonald stated this morning that the McDonald and Vaughan Camp on Daniels Creek will open tomorrow morning with a crew of 65 men. He says that many of the old loggers, the Blue Ridge Tigers, have returned to their old "stamping ground" and also that word has been received that "Bill" McKay will come back. He is now at Powers. The camp has been closed down since about last December at Christmas time.

In Bankruptcy.—J. Goldsmith arrived here from Portland today to take charge of the Hendrickson shoe stock on North Front street, representing R. L. Sabin of Portland who has been appointed temporary receiver by the U. S. Federal court. Hendrickson has gone into bankruptcy. Hendrickson tried to recall his petition of voluntary bankruptcy when he first filed it, finding that his home and other belongings would not be exempt. As soon as Mr. Goldsmith completes the inventory of the stock, bulk bids will be asked on the stock.

Firemen Not Called.—Members of the fire department have asked an explanation of the reason the big engine was not taken to the blaze at the Smith mill on Saturday afternoon. Gordon Smith states that no alarm was turned in for them. He then called up the mill and was told there was no need of the engine, because the building was already doomed and the force at the mill was plenty able to keep it from spreading. Many of the firemen from here went over on their own responsibility and aided the mill men in fighting the flames.

Nothing on Coos County.—A clipping from a Wisconsin paper boasts of a cow-testing association in that state and goes on to say that perhaps it is one of the best in the world. The association consists of 26 farmers. Coos County has five such associations and practically everyone of them has 26 dairymen enlisted, each association boasting of upwards of 500 to 600 dairy cattle. County Agriculturist J. L. Smith has done this work in a year's time and right now is preparing to open a sixth association that he may take in practically every section of the county, believing the best work can be done in dairying only when the cows are tested.

No Wood; No Steam.—It was a legal holiday yesterday and R. Bugge, cashier of the Scandinavian-American Bank, with Mrs. Bugge, went down to Bandon for a visit. They were accompanied from Coquille by Miss Aasen and Mr. and Mrs. Johnston. Mr. Bugge claims that he spent ten minutes in the surf. The party went down to catch the boat for Coquille, but found the engineer had no wood on hand, hence no steam. Via the gasoline boat of J. L. Kronenberg the party arrived in Coquille after the train had left. Mr. and Mrs. Bugge came part way to Marshfield in an auto, but struck bad roads and remained overnight at a farm house, coming down Isthmus Inlet to Marshfield this morning on a boat.
