—and now for the short cake

—and now for the short cake

The old-fashioned strawberry short cake which mother makes in the modern gas range is about the most delicious delicacy which was ever baked. In the old days when grandmother made the short cake it was a day-long task. The fire in the coal range had to be just right. She had to wait for the oven to come to the correct temperature. Now it is a question of minutes to get the oven right. The modern cabinet gas range makes baking a real pleasure. It has removed all of the guess work, all of the drudgery; there is no longer an over-heated kitchen and a tired mother at the dinner table.
