DORSEY KREITZER AND WIFE RETURN ON BREAKWATER

Prominent Banker is Still in Poor Health—Long Trip Hard on Him and Rest Needed

Mr. and Mrs. Dorsey Kreitzer returned this morning on the Breakwater from a trip of several months to the home of Mr. Kreitzer in Dayton, Ohio where they went, hoping the change would prove an aid to Mr. Kreitzer's poor health. The long trip across the continent had severely taxed the strength of Mr. Kreitzer and it was necessary to help him make his way from the boat to a waiting machine.

Many old friends gathered to welcome home Mr. and Mrs. Kreitzer. They believe that a few days of quiet will do much to restore his strength though it may be some time before he can again be at the cashier's desk of the First National Bank.

Despite the fact that he was in poor health most of the time both Mr. and Mrs. Kreitzer enjoyed the visit in his old home at Dayton, where they met many friends and relatives.

William Grimes went to Portland to meet the returning travelers and accompany them home. Just previous to coming west Mr. Kreitzer was under the care of a heart specialist in Chicago.

28 COQUILLE PROPERTY OWNERS TO SUE THEIR CITY

Claim Paving Was Unsound, That They Were Over Charged and That Councilmen Acted Illegally

Seeking to determine the relative rights between 28 property owners of Coquille and their city council a complaint 42 pages in length was filed in the circuit court this morning by attorneys Graves and McInturff. This brings to the surface a paving fight that has waged for two years in Coquille and which involves the improvement of First street there and a large contract with the Ellingson and Bergen company of contractors.

The entire proceedings of the council are void on the grounds that the city fathers never secured proper jurisdiction over the street is alleged in the complaint.

Further it is declared that there were two bids submitted by the successful contractors, one for the lump sum of \$8,975 and the second for the work to be completed at so much a yard. The plaintiffs claim that the council accepted the lump sum bid but that their contract with the Ellingson and Bergen company does not state which one has been accepted and further, that warrants to the extent of \$12,000 were drawn on the improvement. It is shown, so that claimant states, that all warrants in excess of \$8,975 have been declared void by the council but are being asserted against the property owner.

Say Paving Unsound

It is also alleged that the bithultric paving was not good and that the street, about 12 blocks of which have been improved, a year later was condemned for heavy traffic.

Now the council is taking steps, it is said, to sell the property for the entire amount of the warrants outstanding.

It was in 1912 there was the first talk of improving First street. In 1913 the council started proceedings to make the improvements and since there has been a struggle between the city fathers and the property owners.

P. M. Hall-Lewis was city engineer when the proceedings were first started but is said to have resigned because of the trouble, his place being taken by F. E. Hobson. The complaint alleges that Hobson followed the plans for the wrong contract, the one charging for the work by the yard, and that it was this fact that brought the warrants up to more than \$12,000.

Those Bringing Suit

The plaintiffs in the suit are Z. C. Strang, Mrs. Ella Strang, Albert W. H. Folsom, Suzie T. Folsom, Tene Paulson, Ernest A. Folsome, Mary G. Schroeder, J. E. Quick, S. L. Curry, Nick Johnson, D. D. Pierce, Sarah A. Walker, H. O. Anderson, A. Von Pegert, K. Von Pegert, W. H. Mansell, C. A. Furhman, Charles Levine, Mrs. Charles Levine, A. F. Kirscham, S. E. Robinson, Paul L. Sterling, H. H. Griandols, J. E. Wright, William Cadin, Frances Urquhart, C. E. Broadbent, M. J. Hartson, N. C. Medley, C. C. Avaland, C. Moon, Geo. Mehl. Both Ed Ellingson and A. Bergen are mentioned as defendants along with the city of Coquille.

UNIVERSITY JOURNALISTS KNOW PRINTERS INKS

Prof. Mitchell Tells of New Work—Dramatic Studies at Eugene Have Thriving

Budding journalists at the university of Oregon hereafter will be taught the printing end of the game as well as the newspaper advertising according to Prof. Mitchell who is a visitor here today. Only in this true but students of the speaking and dramatic departments are to have a "rare" theatre in which to try their wits.

In the first place Prof. Ed Allen, head of the Department of Journalism, believes that practical knowledge must go hand in hand with the theoretical. It is for this reason that he has finally secured \$2,000 appropriation for a press and type.

Next fall \$800 of this equipment is expected to be on hand. Students of the newspaper game will understand, first hand, what is meant by a font of type, a galley and, furthermore, they will know how to use them.

As more money becomes available a press large enough to print Emerald, the four page college paper, is to be installed.

Have Own Theatre

In the new \$50,000 Administration Building, which July 1 will be under way to the University, is a but well equipped theatre. Prof. Reddick, who is known by name in Marshfield, has realized his ambition in a raised class room that seat about 200 people. There is a small stage, dressing room and place for the orchestra.

In such a room his students dramatics and in public opinion next fall will congregate for class work.

Many new instructors are added to the university this year. Prof. Mitchell, from Campbell has just recently returned from the east where, from the big eastern institutions, he chose men for newly created departments at the state university.

Bowery dance Saturday night at 7:30.
