

OFFERS FREE SITE

CHARLES POWERS WILL GIVE FOUR ACRES FOR WIRELESS

Ground is Situated on County Road and Lies Between Catching and Isthmus Inlets

Charles Powers has offered four acres of land, situated between Isthmus and Catching inlets and on the county road for a United States wireless station.

Enthusiastically the individual members today endorsed the move of Powers. "Its just the thing and shows some mighty good spirit," declared Frank Horton this morning in discussing the subject.

On County Road

The land is on the county road that leads out toward Summer. It is situated partially on the ridge and partially on the low ground, exactly what the government wishes it is said.

Should the site be taken it would be necessary to string the power and telephone wires for approximately one mile, said Mr. Powers today. However this cost it is said would be considerably less than the amount it was expected to pay for a site on Isthmus Inlet.

One Offer to Sell

The proposition offered to the committee was the purchase of five acres on Isthmus Inlet from Henry Sengstacken for \$100 an acre. This was considered a reasonable offer but it is believed the free offer of a site by Mr. Powers is by far the best that has been received.

"The station would mean a good thing to Marshfield and we ought to have it here," said Mr. Powers and therefore he made the offer.

The present station at Cape Blanco may be removed here and the indications are said to be very favorable providing the site is furnished the government.

SAYS MOON DID IT

BARKER AND CROUCH TELL OF SALOON COMPLAINT

Claim That Coquille Man Filed and That They Were Stopped Called in as Witnesses in the Matter

Clint Crouch and Doc Barker of Coquille came over yesterday and entered a vigorous protest to the report given out here that they had made a complaint to the county authorities about the Marshfield saloons being open after 12 o'clock Monday night.

They said that they supposed that Moon had lodged the complaint because he did not know that a permit had been given the saloons to remain open until 1 o'clock Monday night and that further that Moon expected to get a portion of the fine that might be imposed.

So far, no action has been taken by the city officials on the complaint because they believe that Mayor Allen's permit warranted the saloons in staying open.

If the saloons had remained open after 12 o'clock Saturday night then it would have been a state case to prosecute.

Pay Day Special Bargains In Shoes

We are closing out a broken line of men's tan oxfords in odd sizes that sell regularly from \$4.00 to \$6.00 per pair, at only per pair, 95c

This is a great bargain if you can get your size.

For every day wear or outings, nothing excels our new line of bike shoes. They come in the tan with Elk soles, priced as follows:

- Youth's sizes, 12 to 2, per pair \$2.25
Boy's sizes, 2 1-2 to 5 1-2, per pair \$2.50
Men's sizes, 6 to 10, per pair \$2.75

It will pay you to look these over.

BASEBALL SCORES

RAIN MAN STOPS GAMES ALL OVER THE COUNTRY

Eastern League is Swamped and Only Two Games Played in Coast League Yesterday

PERCENTAGES OF COAST LEAGUE

Table with columns for team names (San Francisco, Salt Lake, Portland, Los Angeles, Venice, Oakland) and statistics (W, L, P.C., etc.)

PORTLAND, July 9.—Rain checks were very much in vogue in the Coast League and also the eastern leagues yesterday. Two games were played on the coast and only one in each of the big leagues in the east, the Rain Man reigning supreme.

The scores of yesterday follow:

Table showing scores for Coast League (Los Angeles, Portland, wet grounds, At Venice, Salt Lake, Venice, San Francisco) and American League (Oakland, San Francisco, Detroit, Cleveland, rain, National League, At Philadelphia, Pittsburg, Philadelphia, Cincinnati, New York, wet grounds, Chicago, Brooklyn, rain, St. Louis, Boston, rain).

SOLD LARGE TRACTS

RAILROAD DISPOSED OF \$20,000 ACRES OF GRANT

O. & C. Land Brought a Total of Nearly Five Million Dollars to the Company.

A large part of the land in the Oregon & California railroad land grant, which was disposed of by the railroad company, was sold in tracts exceeding 2,000 acres, according to the Portland Journal.

The entire acreage in the grant was approximately 3,193,000 acres. The amount sold approximated \$20,000, leaving a balance of 2,373,000 acres, which are to be disposed of as congress may direct, if the suggestions offered by the United States Supreme Court in its recent decision are carried out.

Shows Land Sold

In one of the exhibits made a part of the brief prepared by R. D. Townsend for the government in the government's suit to have the lands forfeited, a recapitulation of the grant lands sold is given. This table shows the following:

There were 4,530 sales in quantities not exceeding 160 acres, making a total of 295,727.62 acres, sold for amounts totaling \$1,234,538.51.

In quantities exceeding 160 acres, but not exceeding 640 acres, 280 sales were made, aggregating 91,434.64 acres, amounting to \$402,725.29.

In quantities exceeding 640 acres but not exceeding 2,000 acres, 56 sales were made, aggregating 69,366.29 acres, amounting to \$410,759.13.

In quantities exceeding 2,000 acres 40 sales were made, aggregating 372,399.46 acres, amounting to \$2,922,250.67.

The total sales of land number 5,306, comprise 819,927.94 acres, and the total purchase price was \$4,879,273.59.

BAR IS DEEPENED

CHANNEL 200 FEET WIDE HAS 25 FEET AT LOW WATER

Second Soundings of Coos Bay Bar by Captain Polhemus Show Gratifying Results

Coos Bay has a 200-foot channel out over the bar with 25 feet and more depth of water at low tide. The figures are shown conclusively on a chart just completed by Captain Polhemus, assistant U. S. engineer, following the soundings made July 2 in the Tramp. A month ago there were two shoals across the channel line, both of which have now been removed.

Work of the bar dredge Michie during the past month has been better than she has ever done before. With increased power and with fair weather prevailing the vessel in 30 days moved 210,000 cubic yards of sand. The last three days of the month were foggy and the dredge did not work or this record would have been greatly beaten.

Engineer Polhemus is pleased with the new results as shown in the bar survey of July 2. He is now working the dredge opposite the black buoy, widening the channel there. He intends to keep at the work there until the channel is widened, both on the north and the south sides, out to the end of the bar and entering into deep water, a width all the way through of about 600 feet.

In the survey of May 31 it was shown that the large shoal extending from the black buoy out for about 400 feet had in some places only 19 and 20 feet of water at low tide. This entire strip now has at least 25 and it runs up as high as 35 feet in spots. The same change is noted at the outer shoal at the very entrance of the shore water.

Captain Polhemus said that the soundings of a few days ago showed there is 15 to 17 feet of water now over the outer end of the sunken jetty.

Colonel Morrow Coming

Colonel Morrow is expected on Coos Bay some time this month as on August 1 he is scheduled to leave for the Canal Zone where he has a position as the engineer of maintenance. It is said he intends before leaving to make a complete survey of all projects that have been under his supervision.

NOW BREAK ROCK

AUSTRIAN FORGERS COMMENDED BY WARDEN AT PEN

Long's Bonds Cut to \$500—Claims That Drafts Were Issued in Good Faith and Are Safe.

"Your Austrian forgers are the best workers we have in the whole penitentiary," is what the warden of the state institution told Deputy Sheriff W. C. Laird a few days ago. He seemed pleased to have acquired such good workers.

Joe Davis, fat and bald headed, the supposed leader of the gang during its manoeuvres in North Bend, the warden declared could break a surprising amount of rock. "All day long he drills and drills and never a word from him either."

The deputy sheriff came over from Coquille yesterday on official business, having just returned from Salem, by way of Portland with R. J. Long who is now in jail, having failed to raise bonds.

BIG BULL BOSSES COOSTON ROADWAY

Takes Stand on Highway, Refuses to Budge, and Children are Said to Be Endangered

That a bull, a husky two year old Holstein, has been self elected to the position of boss of the road, takes his stand in the middle of the highway and force pedestrians to walk about him, meanwhile glaring ferociously, is the complaint of Cooston citizens that has been received at the office of Judge Pennock.

No names in any connection were mentioned, the statement being that to do so would probably lead to bad feelings. The man entering the complaint today said that several times children have had narrow escapes and it is feared that some one may be gored when the animal is in a sullen mood.

Judge Pennock took the name of the party owning the animal and will write a letter stating that the bull must be tied outside in the pasture and that it is unlawful to such animals run at large.

Times' Want Ads Bring Results

WIRES LONG MONEY

FATHER OF ACCUSED MAN HAS SENT FUNDS TO SETTLE

However He Will Have to Give a Bond or Remain in Jail on a Criminal Charge

R. J. Long, who is in jail at Coquille on the charge of cashing worthless sight drafts here and obtaining money under false pretences, yesterday got another remittance from his father at Los Angeles to settle up part of the claim. He received \$107 by wire the other day to settle the \$100 claim which H. J. McKeown had against him and yesterday he received \$52 by wire to settle the \$25 one which Cell Ireland cashed after Deputy Sheriff Davis had guaranteed it.

Must Give Bond However, the making good of the drafts does not settle the case and Long will either have to give a \$1,000 bond or remain in jail until the grand jury meets in September. Col. Rosa, of Bandon, his uncle, refused to furnish the bond the other day but yesterday Long was trying to get him again.

Long is the only son of Col Rosa's sister. His father has a big orange orchard near Los Angeles.

Instead of being a regular deputy sheriff at Los Angeles, he only served occasionally in that capacity, being called in once in awhile for special work.

Was With Laird

Deputy Sheriff Laird who arrested him was in a rather embarrassing position in locating him. Several weeks ago when Laird was in Portland, Long, who was there then, spent considerable time with him and accompanied Laird on several trips to the Portland police station. So when Laird sent to the Portland officers to arrest Long, he had to include in the description the fact that Long had been with him on recent visits to the station. Even then, the Portland police were unable to locate Long but Mr. Laird had no difficulty in finding him after he got to Portland.

HAS GOOD PAYROLL

MANY WORKING ON NORTH BEND IMPROVEMENTS

Bridge Building, Track Laying and Street Combine to Hold Labor Situation

The payroll at North Bend now is quite large on account of various improvements which are in progress. The big bridge is being built across the bay and has furnished employment to many. The track laying on the other side of the bay opposite North Bend is in progress and about 140 men are working there. These men are living in camps in the sand hills but the steel workers on the bridge are living in North Bend. Sherman avenue paving work is now in progress and this is a \$20,000 job. The new sewer system is being put in at a cost of \$16,500 and the grading of Virginia and McPherson, which work is also now being done, will cost \$10,000.

The Simpson Lumber Company has announced that it will run continuously for six months and the North Bend Lumber mill is running right along so North Bend is in better shape in the way of pay roll than for some time past.

NORTH INLET NEWS

Mrs. Thomas Chapman, who has been serving as librarian of the North Bend public library since it opened, has resigned her position and expects to leave the city and her place will be taken by Miss Myrtle Holm.

Miss Ethel Metzler, who formerly resided in North Bend and who has been residing at Corvallis for the past three years, is expected in the city the first of the week to visit friends.

David Adams and Mrs. Anna Hohn were married this week at the home of the groom, Rev. A. S. Hisey officiating.

Mrs. F. S. Shimian is expected home this week from San Francisco where she has been visiting the exposition.

Warren Painter, the city wharfinger, made his quarterly report to the city recorder showing that his total collections amounted to \$256.45.

PRaises EXHIBIT

OREGON MAN SAYS STATE IS WELL REPRESENTED

Speaks of Coos Bay Showing and Says Myrtle Wood Novelties Attract People

Much praise for the Oregon exhibit at the San Francisco exposition is given in an interview with Commissioner C. L. Hawley of McCoy Ore., contained in a press telegram from San Francisco. Referring to various parts of the Oregon building, Mr. Hawley is quoted as saying: "Coos Bay has a splendid showing of game and birds. To the casual visitor, the greatest attractions in the Oregon building are the specimens of myrtle wood furniture from the Coos Bay region. The myrtle is classed as hardwood, has a beautiful grain, takes a marvelous polish and in table, desk, chair, lodge room arch and small wares, as well as in panels, it constitutes the most beautiful wood attraction on the grounds and gives Representative J. A. Ward opportunity to do all the talking he wants to. A myrtle wood booth disposes of immense quantities of souvenirs at rather "stiff prices," for the visitors cannot resist their beauty.

HAVE WORD BATTLE

MEN MEET IN JUSTICE COURT TO SETTLE DIFFERENCES

Richardson Promises to Keep His Hands to Himself and Green to Keep His Mouth Shut

Sparring with words and contradicting each other's stories, W. A. Richardson and F. C. Green met late yesterday afternoon in the office of Judge Pennock. Richardson had been arrested by Green on a charge of assault and battery.

"He hit me twice," declared Green to the Judge.

"It ought to have been 40 times instead," rejoined Richardson and the word battle was on.

"I can get 500 men on this waterfront, Judge, that 'ud give \$10 apiece to punch his face."

"Bill, you couldn't get 20. I'll give you a dollar apiece for every one. I didn't insult your wife and I don't want to fight any more," broke in Green for the second time.

At the end of the 13th round of talk District Attorney Liljeqvist called time. "There's got to be a point and an end to this thing." The men again told the story of their troubles.

Green said he had rented Richardson a house and a boat and that he had had rent coming and the latter refused to pay, whereupon the latter rejoined that he didn't owe any such amount and that he had built a cabin on the boat in lieu of the rent.

Richardson admitted that he had hit Green in a front street blacksmith shop. On the advice of the judge the former promised to keep his hands off Green who promised to "keep his mouth shut," and the charge was dismissed.

Nearly Every Auto Stage Line Uses FISK TIRES

The men who operate autos for a livelihood have discovered that they save money, time and trouble by using Fisk tires on their cars. There is no sentiment in it—it is purely business with them.

If the Fisk tires save them time and money, then, Mr. Private Car Owner, you should profit by their experience.

Don't waste your money by trying other tires, but start right because you will eventually use Fisk Tires.

FISK TIRE SERVICE is Free Service and is Free to All

It is extended to all car owners regardless of the make of car or tires used. We are glad to accommodate you with any work that may be needed in connection with your tires. Aside from repairs, any attention we can give is given gladly and without charge.

FIREMEN LEARN LESSON

Robert Marsden, Jr. Host to Firefighters at Noble Theatre They See "Locked Doors"

Twenty five firemen of the Marshfield Fire Department last evening, following their regular drill, were the guests of Manager Robert Marsden, Jr., at the Noble Theatre where they witnessed the picture "Locked Doors"

A keen interest in the film was evidenced by the firemen who saw clearly and graphically illustrated the results of poor exits from burning buildings. They expressed their thanks to the manager for his liberality.
