RESORT TO OPEN IN FOREST RESERVE

Tract Near Mineral Springs in Lane County is Secured from Forestry Bureau

PORTLAND, Ore., July 13.—The first lease under the Act of February 28, 1899, for the use of the land adjacent to mineral springs, has just been signed by the secretary of agriculture in agreement with James O. Hardin, of Portland, Oregon, for the development of a recreation resort at Salt Creek Mineral Springs on the Cascade National forest in Lane County, Ore., about ten miles from Oakridge.

The location of these springs is easily accessible from the upper Willamette Valley, and is on a proposed line of the Southern Pacific railroad. The terms of the lease call for the building of a hotel, bath houses, swimming pool, and some small cottages for those who wish to live by themselves. With the exception of thirty square feet around the several mineral springs, and a right-of-way belonging to the Oregon & Eastern Railway, the resort will cover approximately forty-one acres. According to the lease which is for a period of twenty-five years, a public camping ground is reserved near the springs, roads and trails open to the public will be developed, and to avoid excessive or monopolistic charges, the schedule of rates at the hotel will be approved by the government.

The Salt Creek Mineral Springs are located in one of the most beautiful sections of the Cascade mountains, and the completion of arrangements for the use and development of the locality surrounding them is but a part of the intent and desire of the Forest service to put the national forests to their highest use for the benefit of the people. Indications are that, when completed, the Salt Creek resort may be one of the most magnificent health resorts of the State of Oregon.

UNIVERSITY BULLETINS ARE SENT TO HOLLAND

Dutch Farmers Get Word of Result of Oregon Study of Potato Industries—Send for Copies

EUGENE, Ore., July 13.—The Potato Bulletin, recently issued by the Department of Industrial and Commercial Survey of the University School of Commerce, and widely distributed among potato dealers and shippers in Oregon, is now meeting with a large and insistent demand from outside the state.

The bulletin deals principally with Oregon problems, but in order to handle these with a proper basis of comparison, Prof. H. B. Miller, who compiled it, made a thorough study of world-wide conditions in the potato industry, and it is this that is causing a world-wide demand.

The latest foreign request for copies met by the University comes from Holland, through the American Vice-Consul at Rotterdam. Bulletins are asked for by the following societies which represent more than 165,000 members: Nederlandsche Landbouw Comitet, Nederlandsche Tuinbouwraad, and Nederlandsche Mattschappij voor Tuinbouw en Plantkunde.

EUGENE—Clyde and Jesse Davis and James Wallace were arrested by the sheriff on a charge of raiding a widow's home.

Precipitation since Sept. 1, 1914 68.62
Precipitation same period last year 66.46
Wind: Northwest, clear.

ALL ADVERTISE, SAYS JOURNALIST

Church, Educational Causes and Corporations Should be Brought Before the Public Notice

SAN FRANCISCO, July 13.—Churches should advertise so should educational causes of various sorts and corporations. Talcott Williams, director of the school of journalism on the Pulitzer Foundation in Columbia university delegates to the International Press Congress in an address here today.

"As the state remits taxation on church and school," he said "So the newspaper should give free publicity to these and like objects, but only as the state remits taxes, where there is no financial return. As the state does not support or aid the aggressive growth of these agencies, so these agencies causes and corporations should openly fight their battles in the advertisement, a freer, a more efficient, more many and more honest method than begging publicity, getting it by inference or maintaining a lobby.

Great improvement was shown in the class of advertising handled by newspapers since those poverty stricken days when leading newspapers freely accepted advertisements which the worst would not print today and Horace Greeley publicly wrangled over official advertisement which carried with it political subservience.

The moral advance began, he said with efforts of three quarters of a century ago to exclude lottery notices."

AN ADVERTISING EXAMPLE

No business shows more phenomenal increases than that of the New York Telephone company.
Each quarter the "phone book" grows in size.
In this connection it is interesting to note that this company is a large newspaper advertiser.
It not only advertises to get more subscribers but it advertises to make present subscribers use their telephone more.
It even advertises to teach the public the value of courtesy with the shrewd idea that the "Voice with the smile" will make telephoning more agreeable.
It is a striking example of how newspaper advertising will build up a business that has a real service to perform.

GERMANS ASSUME CONTROL OF CITY

At Lodz Which They Captured, Have Taken Charge as Though Permanently Located

(By Associated Press to Coos Bay Times.)
PETROGRAD, July 13.—A refugee from Lodz who managed to pass the German lines has given to the Ostro Rossel of Moscow an interesting account of Lodz under German rule.

"The enemy's organization," he says, "is amazing. They behave as if they had come to stay. They have introduced there already their favorite system of police law and order and the typical German system of hygiene.

"The outward order in the city is perfect. The streets are kept clean. Cuspids are placed at every street corner, and the German policemen all wear white gloves.

"But the cost of living is appalling. Meat has reached \$1.25 a pound; German butter so-called, (half margarine), is 90 cents a pound; eggs \$3 a dozen. Only the German potato-war-bread is sold, and that at 12 cents a small loaf. The rate of exchange for a mark is fixed at 75 kopecks instead of the normal 46 kopecks. The larger part of the population is really suffering from lack of food."

FEW ENGLISH WANT TO LEARN GERMAN

Only Eighteen in London Show Desire to Take Up Study of That Language

(By Associated Press to Coos Bay Times.)
LONDON, July 13.—The whole of Greater London, with its population of over seven million, has produced only 18 students who wish to study German at the special summer sessions of the free schools, which opened last month.

The educational authorities were prepared to open classes in German in 33 districts of the city, but one class will suffice for all the applicants.

For the study of French there were application from 1100 students. One hundred students are to take the study of Russian.

LITTLE INTEREST TAKEN IN KING OF SPAIN

Alphonso XIII Said to Favor Allies While Rest of His Court is Pro-German

(By Associated Press to Coos Bay Times.)
PARIS, July 13.—The King of Spain, who formerly furnished a great deal of copy for French newspapers, has had very little attention since the war. Paris began to cool toward Alfonso XIII in 1913; now he seems to be almost entirely outside the zone of interest. Reports from Madrid and Saint Sebastian present him as following every development of the war with great interest and with sympathetic leaning to the Allies, while the rest of the court is said to be pro-German.

The Bayonne correspondent of the Petit Journal writes that King Alfonso recently acted as intermediary between the German government and the wife of a French soldier who had received no news from her husband since he was wounded at Charleroi, August 28. The king sent an autograph letter to the young woman informing her that her husband was a prisoner of war in Germany, deprived of the privilege of communicating with France, and that he was continuing his efforts to obtain permission for him to write to his family.
