**BORAX CHIPS**

20-Mule Team Borax Chips are a combination of the purest soap with a very large percentage of 20-Mule Team Borax. They are made up always according to the same formula, and are not, as many Soap Chips, a by-product of the manufacture of any bar soap. They contain more borax than can be put in a bar of soap without its breaking up in hot water. They are therefore more economical and efficient than a bar soap for it is the Borax with the soap that does the work.

20-Mule Team Soap Chips are in the most convenient form for dissolving quickly, and on account of the large amount of Borax they contain, work equally well in hard or soft water, and are perfectly safe to use on the most delicate work.

Some of the articles which can be washed safely with Borax Chips are babies' clothes, woolen blankets, table linens, lace curtains, delicate colored goods, etc.

The chips are economical to use. A 25c package weighs two pounds, and will do the work of six or seven bars of soap and do it better.

For a washing machine the chips are invaluable; dissolving easily, they give a rich, creamy lather which quickly removes the most obstinate spots.

Do not accept substitutes for 20-Mule Team Borax Soap Chips. There are cheaper chips on the market, but the 20-Mule Team Chips stand alone in quality and satisfaction.

Sold only in packages; never in bulk.
