## ASSETS ARE MANY JUSTICE NOW BUSY

### GERMANS CLAIM TO BE IN GOOD SHAPE NOW

Country Has Not Been Damaged And No Money Borrowed From Foreigners

**BERLIN, Aug. 3.**—Germany gives a list of assets at the end of the year of the war as follows:

The country free of the enemy except a small strip in Alsace; has powerful and active submarines and Zeppelin fleet; the armies capable of making an offensive fight in any of the seats of war; finances unimpaired and claims to be only country which has not borrowed in foreign lands; large number of able leaders to direct the campaigns on land and many sea fighters; has a million citizens in foreign lands ready to come home and fight; territory practically undamaged by the war. It is also stated that the country has spent \$2,500,000,000 and that 250,000 men have been killed.

### PAYS TEN CENTS FOR A LAND DEED

Probably Smallest Government Entry Ever Proved Up—8-100ths of an Acre

**WASHINGTON, D. C., Aug. 3.**—Miss Serena Helen Blue dropped into the United States Land Office at Cass Lake, Minn., a few days ago and paid the Government 10 cents for a deed to her homestead on Turtle Lake in that State. Miss Blue's homestead consists of a triangular point of land jutting into the lake, 189 feet long in its longest part, and 38 feet wide in its widest part. The entire area of the homestead is 8-100 of an acre and the land office authorities say it is probably the smallest entry ever proved up.

The young woman who made the entry is 27 years old. To comply with the homestead law and obtain patent to her lakeside land, she built a log house, 16 x 10 feet, and lived in it for seventeen months. The 10 cents paid into the land office was the price fixed by the Government for commuting the entry to cash. In consideration of the 10 cents, she will not be required to complete the three years of residence on the land that would otherwise have been required.

Of the 3,484 square feet in Miss Blue's homestead, the law required her to cultivate 218 square feet. Instead, she cultivated and grew crops on nearly half the area of the lot. Her crops included tomatoes, cabbage and clover.

### MARRIAGE LICENSES

The following are recent marriage licenses issued at the county clerk's office:  
Don J. Scott and Leona Evens Burbridge.  
James Robert Culbertson and Ethel F. Martin.  
Harry S. Cordell and Lydia Bell Roder.  
Mathias Lux and Bessie May Jensen.

### WILL GET MONEY

The Coquille Sentinel says: "Word has been received here that the Denver brokers who purchased the city's \$30,000 issue of refunding bonds has received the certificates attesting the formal signature of the bonds; and the remittance to cover the contract price of the bonds is expected here the first of next week.

### NOTICE TO CONTRACTORS

Sealed bids will be received until noon, Monday, August 9th, 1915, for the construction of a school building at Powers, Oregon, for School District No. 31.

General work, plumbing and heating to be let in separate contracts. Plans and specifications for the work may be seen at the office of Wm. S. Turpen, Architect, Marshfield, Oregon.

A certified check for five per cent of the amount of bid must accompany bid.  
The right is reserved by the school board to accept any, or reject all bids received and no bid will be considered accepted until after contract is signed.

### WILL DEVELOP THE SIXES RIVER MINE

Group of California Men Have Control of Property and Will Build Flume

It is stated that a group of California men have taken over the Divalbiss mine on Sixes River and intend to develop it on a more extensive scale than has ever before been attempted in the locality. Recently a band of Greek laborers came through this city and went to Curry County to work on the property. Speaking of the 25 Greeks who are employed, the Bandon Western World says:  
"They will be placed at work immediately by Superintendent Thompson on rushing construction work on the five miles of flume and ditch that is being built to carry the water to the hydraulic mining apparatus. The flume is being made of cedar boards split from logs in the woods. It will carry one of the largest heads of water ever used in mining operations in this section of the state and will permit an extensive development of the mines. It will be rushed to completion as quickly as possible in order to be in operation before the winter rains set in.

"The mines are what are locally known as the old Patison and the Divalbiss mining claims of Sixes. They were opened by Mr. Iman about two years ago and have produced a number of big clean-ups; one of which made only a short time ago was about \$15,000.  
"The country traversed by the flume and ditch is very rough and construction work requires engineering skill.

### CALLED TO JAIL

Mrs. Fannie O'Donnell Wanted Again at Coquille

Continued efforts to keep out of jail on the part of Mrs. Fannie O'Donnell who was tried for selling liquor at the Arago Hotel in Empire, which some time ago she conducted, appear to have failed, from the following appearing in the Coquille Sentinel:

"In the case of the Marshfield bootlegger, Fannie O'Donnell, convicted of disposing of intoxicating liquor on Sunday, who has kept out of jail for a year or more by an appeal to the Supreme Court, District Attorney Liljeqvist has just received notice from the clerk that the application for a re-hearing has been denied. She is expected over here now in a few days to board at the Landreth House."

### WILL DEMONSTRATE

Practical Lessons in Clearing Land To Be Given

Lessons in the clearing of logged-off land, an important problem in this locality, are to be given in Coos County, according to the following from the Coquille Sentinel:  
Messrs. Bordie and Strait, two men sent out by the U. S. Department of Agriculture will be in this county about the middle of August to give demonstrations in the clearing of logged off lands. It is expected that these men will be in this county about three days and that one of their demonstrations will be given in the logged off land on the hill southeast of this city. They will give talks on the improvement of logged off lands and demonstrations of stump pulling, blasting and seeding on such lands. They will probably be at Coquille about August 15.
