Move Residence.—Mr. and Mrs. F. D. Fletcher who have been residing at Myrtle Arms have moved to apartment No. 3 in the O'Connell Building.

At New Dock.—The launch Express will also land at the new dock in Marshfield, taking advantage of the better accommodations offered there.

W. C. T. U. Meeting.—The Marshfield W. C. T. U. will meet Saturday afternoon at the home of Mrs. M. R. Smith, Broadway and Commercial, to make plans for attending the county convention at North Bend.

Opens an Office.—A. G. Aaab, formerly superintendent of schools at North Bend, has opened an office in North Bend. He will have charge of a real estate and insurance business in which several North Bend men will be interested.

Was Witness.—Ben McMullen who is here from Myrtle Point has just returned from Portland where he has spent the past month as a witness in the case of the Dodge Lumber Company vs. F. A. Kribs and others, involving a controversy over an old timber deal.

Socialist Picnic.—Editor Eagan of Langlois arrived here yesterday for a short stay in this section. He is making a lecturing tour of Coos county in behalf of the Socialists. He will address a picnic to be held at the McCulloch place at Haynes Inlet Sunday.

Elks Dance.—At a meeting of the Marshfield Lodge of Elks last evening, plans were made for a social dance to be held at the Goodwill pavilion on South Coos River next Wednesday night. A special boat will be chartered to take the Elks and their families there.

W. C. T. U. Convention.—The Coos County W. C. T. U. convention will be held at the Presbyterian church in North Bend next Monday and it is expected that a large number will be present from the different towns in the county. It will be an all day session. Mrs. Kemp, state president, will address the gathering.

May Build Barn.—David Musson is negotiating with H. J. Kimball Jr. for the latter to erect a large barn for the Musson Dray and Transfer business under a long term lease. Mr. Kimball may build the structure under the garage building which he recently erected near Second and Elrod.

Williams Promoted.—Tom Williams, who has been in charge of the Diston saw exhibit at the San Francisco Exposition, has been given charge of the Portland branch of his firm and has had Coos Bay included in his new territory. He is expected in today or tomorrow on his initial trip in his new territory.

Work at Bandon.—Donald M. Charleson, Port engineer, came over yesterday from Bandon. He says that they are making good progress with the jetty work. Roy Rozelle is foreman of the quarry where they are taking out rock for the work. They are getting the dredge Seattle in readiness to bring her to the Bay.

Leave for Fair.—Mr. and Mrs. Max Timmerman and children left this afternoon on the steamer F. A. Kilburn for San Francisco to stay for two or three weeks and attend the exposition. While in California Mrs. Timmerman will purchase the stock for a millinery store which she will open on Front street early in September.

Looks Over Timber.—Geo. A. Loud, the Bay City, Michigan, lumberman who has been here looking over some timber, and daughter, Miss Esther, and Ralph Heald returned here last evening after a jaunt to the country. Mr. Heald is endeavoring to sell Mr. Loud several tracts of timber in different parts of the county. Mr. Heald's father served in congress from Michigan when Mr. Loud was a member of congress there.

He said that he was expecting to be transferred to an eastern territory and this might be his last trip in here. He promised to send H. J. McKeown and some other local friends some real maple sugar from his old home farm when he receives his annual consignment from there.

Ocean is Calm.—W. W. Langworthy and C. S. Hoffman who were up from the beach, where their families are camping, said that the ocean was the smoothest yesterday they ever saw it. There was scarcely a sign of a wave and the waters rolled in on the beach easily, like a small pond. The campers had great sport wading out and catching crabs. Mrs. Gordon Smith alone picked up twenty-five at Bastendorf Beach.

Have Great Device.—Frank Catterlin who returned today from Portland says that his brothers have just acquired a patent garbage incinerator or gas maker that is a wonder. The final patents were granted last week. Seventy-five cents worth of chemicals will consume a ton of garbage, and the by-products of the garbage will produce a considerable profit above the cost of operating the plant. The city of Portland is figuring on installing one.

Letters for Dead Man.—A letter was received at the Blanco Hotel today for J. S. Phinney who ended his life here last May. He feared that he would become an invalid, being afflicted with locomotor ataxia. The letter, according to a return address on the envelope, was from E. E.
