

PLAN FOR FUNERAL

GEORGE AND HELEN LECOQC TO BE BURIED THURSDAY

Rev. Father McDevitt Will Conduct Services at Home in South Marshfield for Drowning Victims

The funerals of George and Helen Lecoqc will be held Thursday afternoon at 2 o'clock from the home of the parents, Mr. and Mrs. Henry Lecoqc, on South Fourth street. Rev. Father H. J. McDevitt will conduct the services.

One service will be held for the brother and sister who were the victims of the tragic drowning accident in Coal Bank inlet Sunday afternoon.

Mrs. Lecoqc, the mother, was reported considerably improved today.

Mr. Pompanit, husband of one of the daughters of Mr. and Mrs. Lecoqc, was some time ago reported to have been wounded in the fighting with the French army and was in a hospital.

TO FIGURE IN WAR

GORST & KING AIRSHIP WILL GO TO MEXICO

Message Received to Send the Machine at Once to Aviator at Nogales, Arizona

The Gorst and King airship which was used on Coos Bay by Aviator Ed Steel and which was the first airship ever regularly owned in his locality is to figure in the Mexican war operations, it is believed.

Gorst and King have received a telegram from the Christofferson Air Craft Manufacturing Company of San Francisco asking them to ship at once the air machine to Aviator Ernest King at Nogales, Arizona, on the Mexican border. It is understood that the machine is wanted by one of the factions in the Mexican troubles to be used for war purposes.

SUSPECT FOUL PLAY

BODY OF JOHN MACEY WILL BE EXHUMED

Belief of the Officers is That the Young Man Found Dead Was Killed

Foul play in connection with the death of John Macey at Gardiner is suspected by the officers who have been looking into the case and the body of the young man, who at first was thought to have been accidentally drowned at Gardiner, will be disinterred for the purpose of making a further examination. Referring to the visit of Sheriff Quinn and Coroner Jewett to Gardiner, a Roseburg paper says:

"Several suspicious circumstances point to foul murder. At the time the body was found it was thought that it was a case of accidental drowning, and the body was buried accordingly without inquest. But since then certain circumstances have come to light which have caused suspicion that murder may have been committed.

"The body will be exhumed and a careful examination made by the coroner, to find out, if possible, from its condition if the suspicions that now exist have any grounds which can be determined by the body. In the meantime the sheriff will give the whole matter a thorough investigation.

ELKS PLAN A PICNIC

EXPECT BIG CROWD TO PARTICIPATE IN EXCURSION

The Marshfield lodge of Elks has completed arrangements for the big picnic and moonlight excursion to the Goodwill place on South Coos River tomorrow night. Only the members, their wives, families and sweethearts are to participate.

The Rainbow will leave Marshfield at 4 o'clock with the excursion party, reaching Goodwill at 6 o'clock. Supper will be served there following bathing and later dancing will be enjoyed in the pavilion. The party will leave for home at 11 o'clock. E. V. Catterlin, who is arranging the affair expects that over 100 will participate.

PLANS MOOSE DAY

BANDON PEOPLE ARRANGE FOR BIG EVENT

August 14, 15 and 16 are Dates for Celebration to be Held by Order.

(Special to The Times.)

BANDON, Ore., Aug. 10.—Local Moose committees are busy making final preparations for the big celebration that is to be held in Bandon August 14, 15, and 16. Those in charge of membership are rounding up all prospective members to be voted on tonight and those accepted will be initiated next Thursday night, which will be the last opportunity to get into the local organization under the special dispensation.

Look for Big Crowd
The advertising committee for the celebration has billed the county with large posters and it is anticipated that a record breaking crowd will witness the numerous events to take place on Monday, which is Moose day proper.

Two Ball Games.
Two ball games have been scheduled, Sunday and Monday, and on the latter day a big parade, headed by the Coos Bay band will be held. The feature events include a free wrestling match on First street in which Jim Wilson, the 18-year old wonder will offer \$100 to anyone staying 20 minutes. It is said some good men will be on deck and the local champion will be given a race for the money.

Wrestling Match.
The biggest athletic feature is a wrestling match to be held at the Athletic club rooms Saturday evening, August 14, when Jim Wilson will meet Tony Ajax for a \$1000 side bet. There will be no time limit and the affair promises to attract people from all parts of the county.

Among other attractions will be water sports, racing, tug-of-war, surf board riding, dancing, etc. Complete programs will be out soon and much effort is being put forth to make the coming affair one of the greatest in the history of the city.

England Figures on Various Ways of Taking Care of Great Conflict

(By Associated Press to Coos Bay Times.)

LONDON, Aug. 10.—While the American problem is being apparently ignored by the British Government which is content to let gold slip away in small quantities without making an effort to meet its indebtedness to the United States, much advice is being given by economists, through the medium of the press, as to the most efficacious method of dealing with this problem, which with an adverse trade balance of several hundred millions sterling grows more pressing every week.

Plans Presented
One writer advocates compulsory economy to reduce imports and argues that if the American Exchange continues against Great Britain the prices of foodstuffs and other necessities will continue to rise. It may develop that there will soon be no Exchange at all as in the case of Petrograd where there exists only a nominal exchange of 20 per cent against her and gold exportation prohibited by law. Russia however is in the position of being self-contained as far as foodstuffs are concerned.

The same writer advocates bread tickets as the only method of making the bulk of the British population economize, remarking that "appeals useless in Germany, a nation trained in docility, will be equally ineffectual here."

Everybody Save
Another, in strongly urging the great wage earning British public to save a portion of the weekly wage, in order that the government may borrow it later at interest says the fact must not be overlooked that while trade is supposedly good we are not trading under ordinary circumstances, and practically all engineering firms, shipbuilders and many manufacturers while paying out wages and piling up profits, are really trading with the government and not adding to the wealth of the nation. A million pounds spent on cotton produces wealth distributed in many channels and also assists exports whereas the same sum spent on munitions is trading with the government only.

Meat Shortage Is Felt in Sweden
Large Exports to Germany Have Caused the People of Stockholm to Suffer Inconvenience

(By Associated Press to Coos Bay Times.)

STOCKHOLM, Aug. 10.—The shortage of meat in Sweden, caused by the large exports of the past twelve months to Germany, is beginning to be seriously felt here, and retail meat dealers have petitioned the government to forbid further exports.

During the first three months of 1915 the country's exportations of cattle were three times as heavy as a year ago, and there was a similar increase in the exports of dressed meat.

Liners Driven from Seas
Terms of La Follette Law Would Force Company to Operate at a Loss

SAN FRANCISCO, Aug. 7.—Definite announcement that the trans-Pacific service of the Pacific Mail Steamship Company would cease November 2, next, thus withdrawing from foreign trade the largest American fleet engaged in such commerce, was made today by A. J. Frey, assistant to the general manager.

It is the first time a date has been definitely set for the termination of the trans-Pacific service, although the company has been refusing to accept orders for business beyond that date, and Vice-President R. P. Schwerin, who is also general manager, has forecast such action would be taken.

The terms of the La Follette seamen's law, which goes into effect November 31, would force the company to operate at a loss, according to both assertions by Schwerin and Frey. The clause compelling the company to hire crews, 75 per cent of whom in each department can understand any order given in the native tongue of the officers, would eliminate the Chinese crews, and so increase the operating expenses that the company could not meet competition of the Japanese, they declared.

to south, and 1,100 yards wide in a line drawn across Ari Burnu. The site is rather bare. There is a small spring on it, and most of the water needed by the British troops has to be brought from the adjacent islands.

The Turkish trenches are in one case only two yards from the British trench. At another point the trenches of the opposing forces are only ten yards apart. Constant sniping by the Turks in three places. One of the former had failed to explode and was the subject of study of some Turkish officers. The bomb consisted of a cast-steel outer shell, 2 1/2 inches in diameter and about 6 inches long. The shell contained an inner tube filled with a explosive.

The Gallipoli campaign plan of the allies, according to officers of the Ottoman army, was to take the forts guarding the entrance and lower reaches of the Dardanelles. For this purpose landings were made at Kum Kale, Sid-el-Bahr, Ari Burnu and Kaba Tepe. Essad Pacha is of the opinion that of these only Kaba Tepe was a feint, insisting at the same time the assertion of the allies that the Kum Kale landing had also been a sham manoeuvre is due to the fact that the allied troops could not keep the ground they had taken there.

The landing at Ari Burnu was intended as a flank attack upon the Ottoman forces opposing the allied troops set ashore at Sid-el-Bahr. By occupying the narrow part of the peninsula between Ari Burnu and Malbos, the Australians and New Zealanders now hemmed in Ari Burnu were also to cut off the land line of communications of the Turkish troops at Sid-el-Bahr. Meanwhile the troops landed at Sid-el-Pahl were to advance north and in so doing take the Turkish forts on the European shore of the Dardanelles from the landside.

With these forts taken the water route to Constantinople would have been open as far as Nagara. Prompt action by the Turkish army ruined the plan, bringing about what General d'Amade, commander of the French contingent, is said to have feared.

British Boats Will Go to Africa
England Will Send Vessels to Conquer Territory Where They Were Before Denied Privilege

(By Associated Press to Coos Bay Times.)

LONDON, Aug. 10.—Two line of English steamships are preparing to have their vessels call at the ports of the conquered German territory in German Southwest Africa.

Heretofore the British steamship liner have not been allowed to call at the ports of Swakopmund and Luderitz Bay, although German ships were allowed free access to the British ports on the African coast.

It is expected that direct railway communication between the port of Swakopmund and Rhodesia will be established shortly.

Picnic Dance
Steamer Rainbow will leave Marshfield at 4 o'clock Wednesday, August 11, for Goodwill pavilion, where Elks picnic and dance will be held. Party will reach Goodwill's at 6 o'clock; everybody goes swimming at 6:30; fine dinner will be served at 7:30; and dancing begins at 8:30. Rainbow will leave on return trip at 11 o'clock.

All Elks, their wives, daughters and sweethearts are urged to participate. COMMITTEE.

Allowed Inspection
Later in the day the correspondent was given a letter by Liman Pacha in which all commanders at the front were requested to permit an inspection of their sectors of the holder. On the following day, June 12th, the positions at Ari Burnu were visited.

But in the Aegean sea two British cruisers were maneuvering when the ride to Ari Burnu began. Since 5:30 a. m. they had kept up a rather severe bombardment of certain parts of the peninsula. Passing through the section under fire it was obvious that indirect fire, without observers, is a waste of ammunition. The fire of the cruisers was purely "chance" work. No aeroplane of captive balloon was up and the heavy shells exploded in the open and on the wheat fields. Ninety were counted and the result achieved is represented by zero.

British in Trenches.
The center of the British position is Ari Burnu, or Cape Ari. Here a long outer trench has been dug behind this outer trench the British have established a second line of defense, consisting of two short sectors. Back of the southernmost of these sectors lies another trench, serving, evidently, as a support to an artillery redoubt located on the summit of Cape Ari itself.

This may be called the center of the British position, though the left flank of the British consists of a single short trench on a hill about 400 yards north of the extreme point of the northern sector.

The British right flank, or southern series of entrenchment, is located on the southeast of the Kor-Kor-Dereh creek and follows the course of an advanced trench and two supporting sectors.

Water is Scarce.
With Ari Burnu as pivot, the British position is crescent shaped, about 2,800 yards long from north
