WANT BETTER ROAD

CHAMBER OF COMMERCE AD-DRESSES COUNTY COURT

Says Highway to Sunset in "Disgraceful" Condition and Money Needed—Band Makes Appeal

Claiming the road to Sunset Bay is in a "disgraceful, impassable and terrible condition" the Chamber of Commerce at its meeting last evening drafted a resolution to the County Court asking that sufficient funds be at once appropriated to put the highway in passable condition.

Resolution: Imperative That the members of the court may know the importance with which the matter is viewed by the local Chamber it was further resolved that a copy of these resolutions be addressed to each of the court.

Strong talks in regard to the present condition of the highway were made by J. Albert Matson, Tom T. Bennett, Henry Sengstacken and S. Kaufman. They said that Sunset Bay and Shore Acres are about the first place to which visitors to the bay are taken and that it is disgraceful that they should have exposed at first instance the condition of county roads.

Band Needs Money Once more the Coos Bay Concert Band is in trouble. Manager Martin declared to the Chamber that the band is now about \$600 in debt and has no means of support.

He asked that a committee be appointed to meet with the city councilmen and ask them to make a monthly appropriation for the band. The Chamber voiced the opinion that before any committee should be appointed first should be found out the condition of the city's finances and whether or not the city would be able to stand this added burden that several months ago was shifted from its shoulders.

President McLain said that he would appoint a committee later to take the matter up personally with the band members and see if some arrangements could be made without its disbanding. He said it might be possible for the band to in some way reduce its expenses. On this committee are Dr. Mingus, J. S. Lyons, Fred Chestnut and W. S. Chandler.

There are but few exhibits of good potatoes in the Oregon building at the Fair, reported Henry Sengstacken and Claude Thompson was given power to secure 10 boxes of potatoes and apples to send south.

LONGSHOREMEN NOT TO WORK ON MONDAY

Will Observe Labor Day—Union Men To Pay Little Attention Otherwise to September Sixth

The longshoremen of the bay are practically the only union men that will pay any attention to Labor Day, Monday, September 6, according to Andrew Landles, president of the central labor council.

As far as the other unions recognizing the day, he said that it would be impossible, declaring that they have had too many holidays already this year, due to the hard times that have put many of them out of work and aided greatly in reducing the membership of the various unions.

CARD OF THANKS

We wish to thank our many friends for their kindness and sympathy in the loss of our dear son and brother, and also for the many beautiful floral offerings.

ROAD PETITION IS IN

CHANGE IN ROUTE FROM SUMNER TO EASTSIDE ASKED

Would Give Water Level Route for Distance of Five Miles from Russell Place

A movement has been started to make a change in the road from Sumner to Eastside. Charles Doane who owns a farm on Catching Inlet returned yesterday from Coquille where he presented to the county commissioners a petition signed by property owners asking that the road be changed.

The plan is to have a new road from the Russell place to Eastside, a distance of five miles. The new location will give a water level road and avoid hills and has been so arranged that the greatest number of property owners can be benefited. The county court will appoint viewers to look over the proposed road and report back to the court.

Part of Main Highway It is held that this a part of the Coos Bay wagon road from Roseburg and that it will benefit all who travel over it.

It is held that this a part of the Coos Bay wagon road from Roseburg and that it will benefit all who travel over it. Also it is held out that with the new road many farmers in the Catching Inlet country can reach Marshfield more quickly and will be in much closer touch with a market.
