Winkler Pharmacy, 58 Central Avtenue.

When is a cigarette Sensible?

A cigarette is not sensible for you if it leaves your taste and your smoke-hunger a little bit unsatisfied.

-nor if it bothers your throat or tongue —nor if it makes you "feel

mean" after smoking your usual number. None of these things will

happen to you if you find (and stick to) the right cigarette. But the cigarette that is

right for one man may not be right for another. For instance. Fatimas may not just suit your taste-in spite of the fact that they are the best-selling cigarette costing over 5c.

Fatimas ARE cool and friendly to the throat and tongue-and they will NOT make you "feel mean" after smoking all you want.

So they surely are sensible for you-except post sibly for the taste.

And when it comes to that. it will be mighty strange if you don't like Fatima's taste -they couldn't sell so fast if the taste weren't extra good, could they?

Why not get Fatimas this very day and find out for yourself how sensible a cigarette can really be?

FATIMA was the Only Cigarette Awarded the Grand Prize at the Panama-Pacine International Exposition.
