

SCHOOL WILL OPEN

THE YOUNG IDEA GETS READY FOR SCHOOL BELL MONDAY

Stage All Set For First Classes—Teachers Arrive From Vacations and Prepare for Work

Johnny's little pet bunny and Mary's tame canary will look in vain on Monday for their playmates of the summer. As regular as the sunrise and the coming of the Grim Reaper himself, the school bell will toll, ring out anew and another year of learning will have started.

Practically all of the teachers are already on hand, busy moving into their new quarters and getting straightened about before the opening on Monday.

A conference of the teachers was held this afternoon at the high school to put the finishing touches to the schedule of next week. It is expected that on Monday there will be an enrollment in this district of close to 1,000 pupils, the mark of 985 having been reached last year, according to the school census.

There have been several new additions to the faculty of the public school as well as the High School, and the entire list of teachers for Marshfield now number 27.

Pupils will find that during their absence many changes have been made in the two school buildings. Both have received new coats outside and inside there has been considerable varnishing and refinishing of desks and wood work.

Good weather is a factor to be taken into consideration at the opening of the school year. It is possible that many families, because of this are not returning as early to the city as in former years.

Miss May Evans, of the sixth grade, will be detained at her home in Springfield, Ohio, for a couple of weeks and her place will be taken during this time by Miss Helen Landrith.

THE UNCHANGEABLE GOD

Times change, and men change with them,
For still the New allures,
Their purpose falters ever,
No plan of their endures;
Strange gods demand their worship,
Strange creeds that come and go;
Men's thoughts and men's opinions
Are tides that ebb and flow.
On ever-shifting currents
Their minds drift to and fro,
Their wav'ring wills are shaken
By all the winds that blow.
But steadfast as the mountains
And surer than the sea
And fixed as are the heavens,
God is and God shall be.
—Annie Johnson Flint.

Marshfield, 300 Coke Building.

SMALL WATER PIPES

PRACTICALLY all complaints of poor water pressure are due to small and poorly placed water pipe in the house or building. Do you know that the flow of water through 3/4-inch pipe is more than 2 1/2 times that flowing through 1/2-inch pipe and that the cost for the larger pipe is only about 20 per cent more? If you have poor pressure at one faucet and good pressure at another, you may be sure the house piping is at fault.

Insist on your plumber using 3/4-inch galvanized standard weight pipe, or larger, in your next plumbing work. See that all water pipe ends and fittings are reamed free from all burrs and that all shut-off cocks are full roundway. Have a roundway stop and waste cock at some convenient point so that you can shut off the entire water supply at any time.
