Largest House.—The picture "Hypericities" shown at the Noble last night drew wonderfully. There were two performances and they were the largest two houses ever in the theater in one evening. People waited in line for a long time outside to buy tickets and be admitted for the second show.

Tour California.—Mr. and Mrs. A. B. Campbell write friends that they are enjoying a visit with relatives at Riverside, Calif., after a pleasant auto trip from the Bay during which they stopped over at the San Francisco Exposition and at Los Angeles. They will motor back to San Francisco and return to Coos Bay by steamer in a week or so.

Predict Cold Winter.—The weather prophets are busy, not that they always aren't but now comes the prediction that this is to be an unusual winter, that the barometer has really been low for the past three months, that it is lower than it should have been, and therefore there is to be a cold winter with less rain than ordinarily.

On Big Steamship.—Arthur Peck, who on the 8th was married to Miss Frances Harkness, formerly a high school teacher here, has sent post cards to his friends showing a picture of the "City of Cleveland," the big lake steamship, on which they crossed from Detroit to Buffalo on the first lap of their honeymoon. He also sent a sample of eastern rice and the bride asked that a handful be left at The Bungalow.

LETTER CAME LATE

SENATOR I. S. SMITH APPOINTED LAND DELEGATE

County Court Notice of Appointment Not Received Until Too Late To Make Trip

Senator I. S. Smith was somewhat peeved today at what he termed the lack of business methods of the Coos County court. He received a letter this morning notifying him of his appointment by the Coos County Court as a Coos County delegate to the Oregon Land Grant conference to be held in Salem, Ore. Sept. 16 and stating that the county would pay the expenses of two delegates, himself and C. R. Barrows. The letter was dated, Coquille, Sept. 13 but was not mailed until Sept. 14 and did not reach Senator Smith until this morning, too late for him to possibly make the journey and reach Salem in time.

Senator Smith was desirous of attending the land grant conference and while perfectly willing to give his time did not feel able or justified in paying his own expenses. If the County Court's appointment had been made in time and notice given him Senator Smith would have been present at the conference. His familiarity with the conditions in this section and his ability to present the matter would have made him a good addition to the Coos County delegation at the conference.

It is to be regretted that the appointment notice was delayed until it was useless.

TO TALK OF ROADS

HARD SURFACE ENTHUSIASTS OF COUNTY MEET IN COQUILLE

Tomorrow Evening to See Big Booster Meeting—Will Talk Over \$350,000 Bond Issue

All roads lead to the Good Roads Convention in Coquille on Thursday evening, according to Frank G. Horton, chairman of a local committee, interested in boosting the \$370,000 road bond issue. Delegates and road enthusiasts from all parts of Coos are expected to be in attendance tomorrow evening, summoned by President Morrison who has announced the appointment at that time of an entirely new committee.

Nothing less than a special election this fall to vote on the bond issue, is the slogan of the meeting. It is expected that many autos will go over from Coos Bay.

Petitions have been circulated in the county for several weeks. They have been freely signed, according to word from Coquille. The names of some 800 qualified voters were necessary before a special election could be called. It is said that there will be more than 1,200 names on the list when it is finally filed in the office of the county clerk.

According to the petitions \$70,000 of the fund would be used in the improvement of the road between Bandon and the Curry county line. The remainder would be divided through the county for hard surface roads as the people should designate.

Inasmuch as this sum would not cover the hard surfacing of all the roads of the county the amount, according to the present plan, would be spent on as much roadway as possible between Myrtle Point, Coquille and Coos Bay and would be the forerunner of further hard surfacing until all roads had been permanently paved.

BUILDING SHIPS

SWEDEN PREPARES FOR IMMENSE MERCHANT MARINE

Has Large Number of Vessels Under Construction and More Projected

WASHINGTON, D. C., Sept. 15.—U. S. Consul General E. H. Harris, Stockholm, writes as follows:

"There is a large increase in Swedish shipbuilding at the present time. Over 100,000 tons are being constructed at present in the various shipbuilding yards of the country. The big shipbuilding yards in Sweden are situated at Goteberg, Malmo, Oskarshamn and Stockholm. The foremost shipbuilding concern is the Gota Werken, at Goteberg, which has under construction eight ships, with a total tonnage of 49,800. The Lindholme Werken, of the same city, has under construction seven smaller ships, with a tonnage of 19,300. At Oskarshamn something like 300 tonnage are under construction. This refers only to merchant vessels. Swedish shipbuilding yards are also able to construct battleships not larger than

PERSONAL MENTION

MRS. A. T. STEINER of Salem is visiting at the F. K. Gettins home.

H. A. WELLS has returned from a few weeks hunting in Curry Co.

F. G. LESLIE was over from Coquille again today calling on the trade.

W. C. MORGAN was an over night visitor here from his home on Coos River.

BENNETT SWANTON went over to the county seat on legal business this morning.

W. S. TURPEN left for Powers this morning to view the progress on the new school house.

THOMAS VIGARS, who has extensive interests on the Bay, is here from Portland for a short stay.

DEPUTY SHERIFF W. C. LARK returned to Coquille this morning after serving papers here last evening.

A. S. HAMMOND and J. G. MULLEN returned last evening from Coquille where they have been attending court.

MRS. L. J. SIMPSON and daughter, Miss Stearns and Mrs. Keating came up today from Shore Acres for a short stay.

SUPERINTENDENT ASHBY, of the Warren Construction company, was a visitor here this morning from North Bend.

ATTORNEY TOM BENNETT and A. J. Mendel left for Portland on business, going out by way of the beach and Eugene route.

JOHN MOTLEY went over to Coquille this morning. He is now taking his annual two weeks vacation from the Chamber of Commerce.

MRS. J. E. DRILLETTE will leave Friday for Salem to join her husband who has been appointed school supervisor for that county.

JOHN A. JEFFREY of Portland, who spoke here last evening on the disposition of the O. and C. lands, left this morning for the Valley where he will lecture.

A. T. MERRELL, of Portland, secretary of the U. S. Inspectors of Hulls and Boilers, Captains Edwards and Fuller, came in last evening and this morning went to Coquille where a hearing is being held.

CAPTAIN E. S. EDWARDS and G. F. Fuller, U. S. inspectors of hulls and boilers, came over at noon from Coquille, where they investigated the boat conditions. They leave in the morning for Gardiner and Portland.

MRS. MIKE BURKE has gone to Myrtle Point to visit her parents. Mr. and Mrs. Billings, for a few days. She says that her sister, Miss Mable Billings, was in the auto wreck near Sacramento a few weeks ago in which Joe Schilling damaged his machine badly. She says that she was quite painfully bruised.

2000 tons and some are now ready to be launched.

The greatly increased activity in the Swedish shipbuilding yards is due especially to the fact that it is practically impossible to get any shipbuilding done in England at the present time. It is also impossible for the Swedish yards to contract for all the tonnage that the country demands at the present juncture, as is shown by the fact that one big shipping firm at Goflle has placed an order with a Norwegian shipbuilding firm for five cargo steamers.

The trend of opinion among shipbuilders and others interested in shipping is that Sweden will be in an excellent position to go forward at a rapid pace with its merchant marine as soon as the war closes.

instead of barreled, growers' associations handle a large percentage of the output and in securing uniformity in the pack and advantageous distribution of the crop are much more successful than individual producers in other sections. Where individuals act independently there is little uniformity in grading and much poor fruit is shipped which, in seasons of large production of 1914, cannot be disposed of profitably.
