

Ho! Ho! Duke Gets Off the Earth!

World Color Printing Co., St. Louis, Mo.

Andy and Wendy went back to school today -

- and I went with them -

The teacher let me ring the bell -

There was a nice big ball in the geography class -

I got on it -

and did an old circus stunt -

-but the principal -

told me to get off the earth so I let him have it!

ANNA BELLE'S New School Clothes

Dear Friend:—I hope you will like my new school clothes as I'm always trying to do things to please you—Have you started to school? Our school begins this week and in most ways I'm glad for I feel so well prepared for hard study after spending most of the summer out in the country. My new school teacher asked me if I supposed that you would like to see her. I almost knew you would, so if nothing happens she will be on the page next week. She is so sweet and good to all of us and of course, everyone loves her. I hope you are doing well in school, as a good start sometimes means a very good finish. Uncle Ezra is going to offer a medal for the best average this term, and of course, I'm going to try my best to win it. Everyone of my friends report SEWING SOCIETY work doing just fine, and we ought to be very happy indeed to know that we're doing so much good in the world. Hope each of you will enjoy the good fall days that are now almost here. Lovingly,
Anna Belle
