STATE'S RIGHTS QUESTION IS UP

Develops at Western Water Power Conference in Session at Portland

TWO SIDES FORMED

War in Sharper Contrast in Any Time Since Previous to Civil War

Governor GIVES VIEWS

That Federal Government is Too Sympathetic and Not Familiar With Conditions in the West as it Might Be

(By Associated Press to Coos Bay Times.)

PORTLAND, Ore., Sept. 21.—Disputed interpretations of the rights of the states and control of the Federal government at the opening of the Western states water power conference today was brought to issue in a sharper contrast than at any time since the subject was argued from another angle previous to the Civil War.

Two Sides Formed

The conference of thirteen Western states, which was called to open the Ferris water power leasing camps, quickly divided itself into two camps, one favoring absolute control by separate states while the other advocated continued Federal control of the public domain.

Governor Speaks

Welcoming the delegates, Governor Whitcomb said: "The Western states are held in leash grasped by the Federal government, which is not sympathetic with the meaning of the phrase 'states rights' and certainly none too favorable in some phases of bureaucratic paternalism, with the facts they exist in the West today."

FIVE AUTOS BURNED

GARAGE AND CONTENTS AT SLEWSLAW ARE DESTROYED

Message Received by V. C. Gorst, One of the Owners, Today—Trouble on Beach

(By Associated Press to Coos Bay Times.)

A garage and five automobiles, together with auto supplies, were all destroyed in a fire last night at the mouth of the Siuslaw river, V. C. Gorst received a wire today from Capt. N. J. Cornwall, telling of the fire.

The garage is one which was used for the autos which run from the Umpqua to the Siuslaw river. It was located just south of the Siuslaw jetty and the boys who run the machines have their quarters there. The cause of the fire was not given, but it is thought possible that the driver heated up too hot a fire in the stove and thus caused the blaze.

Loss Over \$3000

Mr. Gorst says that the garage was not worth more than \$200, but the five Ford machines burned were worth about \$550 each, and in addition, there was \$350 worth of tires burned. The telegram stated that everything was totally destroyed. It is usual to take sixty days' supply of gasoline to the garage and keep it on hand, but Mr. Gorst says that the gasoline is in drums and is always kept outside the building and he believes that this was not destroyed.

No Insurance

There was no insurance on the property, and the loss will total over \$3000. The line was known as the Umpqua-Siuslaw line and one-quarter is owned by V. C. Gorst of North Bend and three quarters by Capt. Cornwall and his associates in the Drain stage line.

Mr. Gorst left today for Umpqua and Siuslaw rivers to look over the fire damage and to see to other auto troubles. Machines will be taken across Winchester Bay to replace those on the Siuslaw run which were burned.

Surf Makes Trouble

High surf breaking north and south of the Umpqua yesterday stalled the machines on both legs of the journey in here from Florence. Passengers from the north arrived here this morning 24 hours late, having been delayed all night in Gardiner.

The auto stages went up from Jarvis Landing yesterday morning early and were to meet the machines from Florence at the Umpqua and bring the passengers back. Caught in Water

Above Ten Mile Creek the surf came booming in far up the shore. The machines were caught in the water and the engines stalled. It was only after much difficulty that they reached Winchester Bay.

No autos from the north were seen there, and the rise of the tide brought the drivers back south again and they spent the night at Ten Mile creek. Meanwhile the machines bound south from Florence were undergoing similar experiences and the passengers stopped all night at Gardiner, coming through this morning.

They have the rails laid through one tunnel and will soon have them to the big Schofield tunnel and through it. The track laying crews are making fine progress under the direction of Engineer Hindmarsh.

Mr. McKeown said that it would probably be two months before the big bridge across Coos Bay is ready for train service. The approach from the south is completed and meet of it from the north, so that the steel work only remains to be completed.

Dr. Taggart had several lots on Broadway and another at Fourth and Ingersoll, the real estate being worth probably between \$10,000 and \$15,000 under normal conditions. The only special wish expressed by him was that his gun should be given to his namesake and nephew at Greenwood, S. C.

RUSSIAN ARMY ESCAPES TRAP

Great Encircling Movement of Von Hindenburg's German Army Proves a Failure

IMPEDED BY THE MARSHES

Troops Are Scattered and Impossible to Bring them Together—Russia Greatly Relieved that Detachments Were Not Captured

(By Associated Press to Coos Bay Times.)

LONDON, Sept. 21.—Latest reports from the Vilna fighting zone indicate that the Russian army there escaped the coils which Von Hindenburg threw about it. By cavalry raids, as brilliant as the famous coups of Stewart and Sheridan in the American civil war, a screen of German horsemen swarmed about both flanks of the retreating Russians and stood astride of their main lines of communication.

Escape the Trap

It now appears probable, however, that these encircling forces are too weak to impede General Ruzinsky's veterans.

Simultaneous movements by Prince Leopold and Von Mackensen have not resulted in the expected advance, especially by the latter, who has been unable to link the scattered troops after the march through the Pripet marshes.

Relief to Russia

It is true that the defenders of Vilna have escaped, Russia has cause to draw a deep breath of relief, for it is apparent that the cautious strategy of Grand Duke Nicholas was abandoned for the moment and Ruzinsky's troops remained in Vilna so long that Von Hindenburg's plans for a junction of his wings seemed for a time a certain success.

Domestic Situation

The domestic situation in Russia, owing to a strict censorship, is still a matter of mystery. When the Duma was prorogued numerous strikes were declared. In many cases men are still out. Others returned to work, and as the stoppage was in the nature of a protest, no long continued trouble is expected. The Zembivo conference at Moscow this week will express an agreement in the national crisis with the Duma majority.

WILL IMPOSE A TAX

ENGLAND HAS PLAN FOR RAISING MORE FUNDS

Cost of War Runs Into Billions and Must Be Met in Some Way

(By Associated Press to Coos Bay Times.)

LONDON, Sept. 21.—Chancellor of the exchequer McKenna in budget speech today estimated the government's revenue for current year at \$1,359,000,000, expenditure at \$7,950,000,000 and that the estimated deadweight at the close of the year would be \$11,000,000,000.

To Tax Incomes

McKenna proposed an addition of 40 per cent to the existing income tax and taxation of all incomes of \$650 or more. A heavy tax on the profits of manufacturers of war supplies is also proposed.

Must Divide Profits

Fifty per cent of all war profits above the amount assessed for the income tax last year will be subjected to a special tax, which works out at 50 per cent of the profits. McKenna estimated the revenue from this source in a full year at \$150,000,000.

SWEDEN MAY JOIN

KAISER DOING ALL HE CAN TO GAIN ANOTHER ALLY

Losing of Finland is Point Which Germans Bring Into Prominence As Reason for Sweden Entering

(By Associated Press to Coos Bay Times.)

LONDON, Sept. 21.—What Sweden will do is the burning question here today. Popular opinion, based on more or less reliable information, is that Sweden will shortly throw her lot in with Germany. Germany is doing her best to bring the Scandinavians into the conflict. The financial interests of Sweden favor the war. This war party is trying to create a popular sentiment against Russia, reminding Swedes that Russia took Finland from Sweden. Militarists of Sweden are of the German school and are sympathizers with the Teutons. However the progressive party, which out voted the reactionaries in past elections, is anti-German and anti-war.

FIRING ON TWO CITIES

Belgrade and Semendria on the Danube as Both Under Attack Today—Old Route of Crusaders Will be Followed by Invader

(By Associated Press to Coos Bay Times.)

BERLIN, Sept. 21.—Official reports from Austrian and German headquarters and dispatches from the Balkan capitals show that the long expected Teutonic campaign against Serbia has now begun. The Austrian and German artillery began bombarding the Serbian positions south of the river frontier along a hundred mile front between the mouths of the Drina and Morava rivers.

Covers Other Move

This action was undoubtedly intended as a cover to the throwing of forces across the river and the seizure of some bridgehead, whence a new "steam roller" can be started. Just where the crossing will be attempted is unknown. Conditions favor the old route of the crusaders through the Morava Valley, through which runs the roads and railway line to Bulgaria and Turkey. This railroad reaches the Danube at two points, Belgrade and Semendria, both of which are under bombardment today.
