

# Most men like Fatimas— but maybe you won't

Fatimas please so many men that they outsell any other cigarette costing over 5c.

But it may happen that your taste won't fit Fatimas. That's nothing against you. Nor against Fatimas.

But if your taste does fit Fatimas, you can feel

doubly grateful. For of this you can be sure—Fatimas are cool and friendly to the throat and tongue. And they will never leave you "feeling mean" as long as you smoke within the bounds of reason. These tests show you how to prove this.

Because Fatimas are cool and because they can be smoked freely and often—they have rightly earned the title, "The Sensible Cigarette."

It simply remains for you to see if their taste suits you as well as it is suiting thousands and thousands of other men. Test Fatimas today.

You may find that their taste is exactly what you've been looking for in a cigarette.

## TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to the point that you are going to stick to the cigarette. Here are a couple of tests that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light any cigarette, draw in a puff and hold it for a few seconds. Hold it in "stair" around against your tongue. Now blow out the smoke. If the cigarette contains a high grade of tobacco, it will always feel cool and smooth both to your throat and to your tongue. If the proportions are not right and if the cigarette contains inferior grades of tobacco or hidden snipping sting at the tip of your tongue or that "sandpaper" tickle in your throat, after smoking all day?

If the tobacco in the cigarette includes a correct proportion of mild grades—and is not mellowed by age—and if they have been so blended as to bring out the best qualities in each of the different types of tobacco, you will be able to smoke practically whenever you feel like it through the day without feeling any effect from it.

But with another cigarette in which the blend is less skillful, even though the tobacco is of the highest grade, you will find along toward the end of the day that you are likely to have that feeling of having "smoked too much."

Clip out these tests and try them on Fatima

## CAPT. JOHNSON HAS SIGNED UP HIS CREW

Is Enthusiastic Over New Organization of Coast Guard Which He Thinks is Better

Regarding the new Coast Guard organization at the Bandon station the Western World says:

"Enthusiastic over the new Coast Guard as compared with the old Life Saving Service, Capt. Robert Johnson, of the local station, has just finished signing up the required eight men crew of the new service. Hereafter, instead of having half or less of the members of the crew regularly enlisted men and the rest substitutes, the full number will be "regulars," except in the case of sickness in the crew.

"The increased salary provided for in the new service is some inducement for good, capable men to join the Coast Guard and the numerous changes in the regulations give Capt. Johnson reason to think that the future will bring increased efficiency in the department.

"Improvement of the wireless equipment, installed here by members of the crew two years ago, is slated to begin immediately. Due probably to the location, the low power apparatus now in use has been exceptionally successful and messages are constantly coming in from Bremerton navy yard and other stations along the coast, as well as flashes bearing the date line of Honolulu and Arlington, Va. Heretofore, the local station has been confined in its exchange of messages to the Government stations and ships at sea, but it is expected that the Government will soon make arrangements with the Marconi Company whereby they will receive the messages sent out by the Coast Guard stations.

### WILL GIVE MAPS

Each School to be Supplied With Valuable Equipment

SALEM, Ore., Sept. 21—State Forester F. A. Elliott has prepared a valuable map of Oregon and has furnished State Superintendent J. A. Churchill with enough copies to supply each school district in Oregon with one. The map is four feet by six feet, giving the sectional lines and showing all the physical features of Oregon and the location of all cities and towns. The map is brought particularly up to date, even showing Jefferson county. In addition it is colored so as to show the following areas in Oregon: Merchantable timber, cut over areas, re-stocking cut over areas, re-stocking, burned areas, re-stocking and brush. These maps may be obtained from the county school superintendents.

## CHEESE FACTORY HAS MADE FINE SHOWING

Dew Valley Plant Produced Fifty Thousand Pounds of Cheese Which Sold Well

Splendid progress made by one of the dairy plants is told as follows in the Bandon Western World.

Fifty thousand pounds of cheese at an average price of over 13 1-4 cents per pound is the record of the Farmers' Manufacturing & Supply company's plant at Dew Valley for a season run of five months, ending on August 31st.

This is the second summer the establishment has been in operation and the showing made this summer is gratifying to the people of that section. On April first of this year L. M. Strong of Arago, an expert butter and cheese man, was secured as manager. Mr. Strong has kept the product of the factory up to a high standard and the patronage has been liberal. During the cheese making period just closed, an average of about 200 cows were milked and the milk hauled to the factory.

### Make Butter This Winter

A short while ago it was decided to install butter making equipment in connection with the cheese factory in order to be able to handle the product as either cheese or butter, depending upon market conditions. A modern Simplex churn of from 600 to 700 pounds of butter to the churning capacity, was installed together with a gasoline engine and a number of smaller appliances. This equipment is now in running order and the plant will make butter during the winter months. When summer arrives and roads are again good so that milk can be handled economically, cheese will again be made in quantities.

The equipment will be added to from time to time as the patronage warrants and it is said the number of cows milked will probably be increased in the spring.

## GREATER BUSINESS

### TELEPHONE FIGURES IN OREGON REACH LARGE PROPORTION

Report Made Shows American Telephone & Telegraph Controls Many of the Lines

SALEM, Ore., Sept. 21.—The telephone business transactions in Oregon run into big figures. The Pacific Telephone & Telegraph Company increased its operating revenue in Oregon considerably over the previous year, but increased its operating expenses more during the year ending June 30, according to its report filed with the state public service commission, and so the net operating revenue is less than last year.

The figures follow: Operating revenue, \$18,699,914.30; operating expenses, \$13,187,946.79; net operating revenue, \$5,511,967.51; increase in operating revenue over 1914, \$598,966.84; increase in operating expenses over 1914, \$722,524.04; decrease in net operating revenue, \$123,557.20. The income, after deducting the sums paid for taxes, interest, etc., was \$4,413,926.21.

The total investment in Oregon is \$9,505,911. The American Telephone & Telegraph company owns 346,564 of the 402,486 shares of stock of the Pacific Telephone & Telegraph company, the report says.

### Control Coos Company

Long Distance company, Pacific States Telephone & Telegraph company, Colusa County Telephone company, Riverside Home Telephone company, Home Telephone & Telegraph company of Pasadena, Bell Telephone company of Nevada, Coos & Curry Telephone company, Home Telephone & Telegraph Company of Spokane, Citizens' Telephone company.

## ALL COAST CONFERENCE INTERESTS MANY HERE

Local Followers of College Sports Hail New Move With Delight—Boon to Athletics

Inklings of an All Coast Intercollegiate Conference have been received here much to the delight of local sport fans, who welcome the advent of times when colleges of the Northwest will again meet the institutions of California on the gridiron.

Already Washington has a game scheduled with the University of California, newly gone back to the old style football. Coach Stewart, of Oregon Agricultural College, prophesies a bit, saying he believes that at a meeting of athletic delegates in Portland this December such a league will be effected.

As the football schedule now stands, Washington plays but one team in the Northwest and that is Whitman. All others have refused to meet Dobie's pets until they will stir out of Seattle to foreign gridirons.

### SUMMONS

In the Circuit Court of the State of Oregon in and for Coos County. Etta G. Brown, plaintiff, versus Charles G. Brown, defendant.

To Charles G. Brown, the above-named defendant: In the name of the State of Oregon, you are required to appear and answer the complaint of the plaintiff herein, on or before the 26th day of October, 1915.

If you fail to appear and answer said complaint as so required, the plaintiff will apply to the Court herein for the relief demanded in her complaint, a succinct statement of which is:

That the bonds of matrimony existing between plaintiff and defendant be dissolved; That plaintiff be allowed to assume her maiden name of "Etta G. Faith";

That plaintiff be given such further relief as to the Court may seem just and equitable.

Service of the summons is made by publication pursuant to an order made by Hon. G. F. Skipworth, Circuit Judge of said Court, directing publication hereof in the Coos Bay Times once each week for the period of six weeks beginning on the 14th day of September, 1915.
