Get Blooded Rams.—The Santa Clara yesterday brought in two fine looking blooded Angora rams for Milton Moore of Co. Beach. They were left here and will be shipped on either the Roamer or the Rustler. The animals come from the farm of J. Levich, near Monmouth.

Few at Beach.—There were only six or seven auto parties at Sunset Bay and the beach Sunday, although it was one of the most beautiful days in that locality that has been enjoyed for a long time. The fact that there had been rain for several days previous probably prevented people from planning beach trips.

Settled in New Home.—Mr. and Mrs. R. F. Williams who returned yesterday from San Francisco say that their daughter Frances is now settled in her home at Bay Point. She was married in San Francisco about two weeks ago to Fred Lamon and the young couple have just come home from their honeymoon to Santa Cruz.

Undergraduates have already subscribed \$500 toward the needed amount and the aid is asked of the alumni and the Regents.

Begin Cannery Today.—The Talant cannery opened up this morning with the crew of 14 Japanese in full operation, to say nothing of the "Iron Chinamen." The cannery has been receiving from a ton and a half to two tons of fish daily for some time.

To Quit Stage Line.—D. L. Foote came down from Allegany and stated that he had about made up his mind to discontinue the Coos Bay-Allegany-Drain auto line for the season. It is pretty wet in the shady parts of the road and he fears that heavy rains are likely to come most any time.

Kill Bear.—Manager Nick Oswald is today serving out fine bear steaks at the Palace Market. The bear was killed by Messrs. Kelly and Bowron at Ten Mile and dressed 100 pounds. It is one of the finest bear carcasses seen here in many a day and those having a penchant for bear meat are laying in a supply.

Gets Totem Pole.—C. I. Reigard today received a genuine totem pole from J. H. Hogan, formerly in the marble business in Coquille and Marshfield, who is now trading with the Alaska Indians. Horsfall, Jr., and Mrs. Herbert Lockhart will be hostesses, the final arrangements will be made for the rummage sale to be held next week on Front Street, and it is hoped that every member of the Guild will be present. MYRTLE POINT FRUIT GROWERS ATTRACT MUCH ATTENTION

Gravenstein's From Coos County at the San Francisco-Exposition Receive Much Praise

SAN FRANCISCO, Oct. 4.—Oregon fresh fruit is causing the thousands of visitors, and Californians in particular, to sit up and take notice. Southern Oregon peaches, eight to the yard, are absolutely beyond the comprehension of Californians, and those who imagined that the Sebastopol country raised the only magnificent Gravenstein apples got a terrific jar when they looked upon the big display sent in by the Coquille Valley Fruit Growers' Association at Myrtle Point.

Hood River Apples
And when it comes to other varieties of apples, Hood River Winter Bananas, a five-box display by Gus Miller, is as beautiful fruit as any human ever looked at. Miller is the Hood River man who won the grand sweepstakes at the Pacific Land Products Show last year.

Even Eastern Oregon has been getting in an excellent showing of peaches, a great quantity of beautifully colored specimens coming from L. G. Willis at Brogan, Malheur Co.

Pears From Jackson
But it has taken Southern Oregon, Jackson County, to clean up everything on pears. There has been a steady flow of pears from that section, all of superb fruit, and it is confidently expected that this fruit is going to land the coveted award for Southern Oregon. The only other pears in this class have come from Mosier, a single shipment of excellent d'Anjou from the East Hood River Company. Southern Oregon also boasts of the first shipment of Newtown apples.

It is generally conceded here that Oregon fruit cannot be excellent for keeping quality.

DEPARTMENT IS TO AID APPLE INDUSTRY

Government Will Study Crop of the Northwest and Have Headquarters at Spokane

WASHINGTON, D. C., Oct. 4.—Complying with the numerous requests from the growers' councils, chambers of Commerce, growers' and shippers' organizations in the States of Washington, Oregon, Idaho, and Montana, the office of Markets and Rural Organization of the United States Department of Agriculture has made plans of establishing temporary headquarters in the Northwest for the study of the distribution of the 1915 boxed apples crop.

The plan as outlined is based upon assurance that the Office of Markets and Rural Organization will receive the cooperation of all those interested in the apple industry, for without this co-operation the efforts of the Office would not produce valuable results.

Spokane Headquarters
It is probable that the field headquarters for this work will be in Spokane, because of the accessibility of that point to the apple territory in the northwestern states.

The work which the office will do is not that of a telegraphic market news service, but rather contemplative collection by mail and the compilation of data and issuance of weekly bulletins concerning the shipments and destination of the northwestern boxed apples.
