# SHIPPING NEWS

## MUCH FREIGHT IN SANTA CLARA HERE

### STEAMSHIPS UNLOAD AND CONGEST BIG WAREHOUSE

Sunday Banner Freight Day—Smith Terminal Dock Has Largest Shipments of Year

Almost every available foot in the big Smith Terminal Dock was filled with freight this morning, stacked high towards the ceiling, as the results of the shipments arriving on the Kilburn and the Santa Clara yesterday. This is the fullest that the dock has been for the past year.

The Santa Clara unloaded more than 600 tons here from Portland and soon after the Kilburn was in from the South, bringing especially a large shipment of hay. There was no room inside at that time and this had to be piled outside on the dock. Also there was still freight remaining from the unloading of the Thomas L. Wand.

Teams this morning two and three abreast backed up to the big doors of the warehouse and began the gigantic task of moving the produce and freight to its various destinations.

One end of the dock is congested with freight bound for Port Orford and the Rogue River, awaiting the Rustler and the Roamer, busy little boats that are kept on the run to keep Curry County from want of outside necessities.

A great deal of the freight arriving consists of fruit, potatoes and flour for the local trade, though much of it will find its way over into the Valley.

### STEAMSHIP ARRIVED IN AFTER 14 HOURS OFF BAR

The steamship Santa Clara arrived in yesterday morning about 11 o'clock after being bar bound outside for approximately 14 hours. She brought in over 600 tons of freight from Portland and this, in addition to the outgoing cargo, kept her here until about seven o'clock last night before leaving for Eureka and San Francisco.

# CHEER UP!

THOMAS G. PLANT & CO., manufacturers of QUEEN QUALITY have sent out the following:

There is more money in the United States by a million dollars (\$900,000,000). Than there was at the year ago, and by January first, 1916, there will be nearly two billion dollars (\$2,000,000,000) more. This increase in the amount of money in circulation is about as follows: Two hundred million dollars (\$200,000,000) usually spent by tourists in Europe, remains in the States, owing to the war. For the same reason American ports were reduced one hundred and fifteen million (\$115,000,000), and our exports increased six hundred million (\$600,000,000), during the first six months of the year 1915, as compared with the first six months of 1914. THE ABOVE FACTS JUSTIFY US ALL IN BEING OPTIMISTIC.
