It's easy enough to push the clock ahead, but you can't harry time ony. You can menipulate tobacco, but only time can age it into VELVET.

Vetvet Joe

After the care and expense of selecting the finest Kentucky Burley tobacco, we won't permit it to lose its distinctive fragrance and flavor and good smoking qualities, by artificially rushing the curing.

Every bag, every tin, every humidor of VELVET is filled with tobacco that has been ageing for not less than two yearsreaching its full, hearty maturity.

To this natural ageing, VELVE Towesits smoothness, its extra mildness, the absolute absence of bite. Have you read "Pipe Philos-

Made from the right crude

The Jury of Awards at both San Francisco and San Diego Expositions found an oil made from California asphalt-base crude, highest in Inbricating efficiency. That oil was Zerolene. The fact, too, that such unbiased authorities as a U. S. Naval Engineer, engineers of the Packard and Ford Motor Companies, and others, have also gone on record in favor of oils made from asphalt-base crude—in accord with the decision of the Exposition juries - proves that Zero-lene is made of the right crude, and made right.
