Small Water Pipes

Typically all complaints of poor water pressure are due to small and poorly placed water pipe in the house or building. You know that the flow of water through 3/4-inch pipe is only about 20 per cent more than 1/2-inch pipe and the cost for the larger pipe is only about 20 per cent more. You may be sure the house piping is at fault. Have your plumber use 3/4-inch galvanized standard pipe or larger in your next plumbing work. See that pipe ends and fittings are reamed free from all burrs and shut-off cocks are full roundway. Have a roundway stop cock at some convenient point so that you can shut off the water supply at any time.

THE WAR GOD
No Civilized Warfare—The Coming of the Prince of Peace
Editor Times:
As I read the appalling details of

the awful catastrophe of war that daily confront us in the press, I am reminded of the reply made by a father to his boy who asked, "Father, what is the difference between a civilized man and a barbarian?" The father answered "A barbarian is a man who knocks your brains out with a club at arm's length, while a civilized man blows them out a mile away."
The present situation in Europe demonstrates, if any demonstration is needed, that there is no such thing as civilized warfare. War is butchery. It is wholesale murder. It stands for sorrow, suffering, and death. As well talk of a construct-

ive tornado as civilized warfare. Like some mighty Samson, the War God seems to be at work to pull down the temple of civilization, and turn the clock of progress back into the Dark Ages. Half of the world is convulsed by the earthquake of war. The devastations of fire and sword go on daily. A continent is torn and ruined by this awful Moloch. Through the inventive genius of man new and tremendous dangers face the dismayed inhabitants in the ecstasy of war. In terror they must flee from their homes in the dead of the night, leaving all they have behind, lest some bomb, spreading ruin and death, is dropped upon their defenseless heads from the sky.

famine are the real members of the alliance.
Then comes the burden of grinding taxation to foot the bills caused by the enormous expenditure of funds necessary to defray the expenses of the bloody contest. What the tremendous total will be, no one can ever guess. If the war is much longer continued, it is sure to bring financial disaster, resulting in the obliteration of credit. War means paralyzed industries and a staggering debt. After the glory of victory and the despair of defeat, will come business depression.
And when will war cease? Never while sin is on the earth. The present death struggle will doubtless end sooner or later, when some nation has won a conclusive victory, or all have worn themselves out. But peace will not be permanent or long continued. Not till the Prince of Peace comes, and all the nations are carried away like chaff from the threshing floor, and the everlasting kingdom of God is ushered in, will there be real peace.

WAGON IS WRECKED

RATTLESNAKE JIM, ON ROAD, SUFFERS LOSS OF EQUIPAGE
Machine Runs Over Little Red Wagon—Seeks Revenge by Holding Up Next Auto In Line

Rattlesnake Jim passed out of town two days ago hauling a little red wagon behind him, carrying his worldly possessions and sundry cans of baked beans and tomatoes that had been given him, gratis. He started toward Coquille and on the road near Millington an auto is said to have wrecked his equipage, leaving him stranded in the road.
Whereupon all the blood in his various veins boiled in indignation and he bethought himself of a clever scheme of revenge. The next auto, a stage, was held up. He produced a wobbly and rusty old six shooter.

But out of the car popped Deputy Sheriff Laird so the story goes, and Rattlesnake immediately "backed water," tipped the bullets out of his artillery and after being severely reprimanded, went on his way. He said that he only meant to "scare them."
