You Need Printing Matter

REASONS

Why It Can Be Done Here

REASON 1—EQUIPMENT

You possibly may not know that The Times Job Department is as well supplied with down-to-date material and men who KNOW HOW as many other print shops in the much larger cities. Our material is not old and worn out, which is the cause of much of the "sloppy" kind of printing you see. Our printing is clean.

REASON 2—STYLE

In printing as in many other lines of goods, styles change, and the firm or individual that has its printing with "a touch of style" is bound to command attention; we are not behind the times here, but strictly modern.

REASON 3—HURRY-UP

As a rule we can give you the best of service and "hurry-up" jobs are given particular attention. "Printing when you want it."

REASON 4—PRICE

We charge for our printing the least possible price consistent with legitimate profit. Much work we can produce as cheap, if not cheaper than the large city shops where expenses compel higher prices. There is no sacrifice of quality, either. Call on us and we will help you select if you do not know just what you want. Out-of-town print shops can not give you the personal service that is really essential to good work. Our work ranges from visiting cards to posters—in fact, anything in the general printing line. Call on us.

NEWS OF WORLD'S GREATEST WAR DAY BY DAY

RESIGNS HIS OFFICE IN THE PEACE SOCIETY

Rev. W. E. Darby Who Retires, is One of the Few Authorities on International Law

[By Associated Press to Coos Bay Times.]

LONDON, Oct. 28.—The resignation is announced of the Rev. W. Evans Darby, LL. D., of the secretariat of the Peace society. Doctor Darby is 70 years old, was born in Carmarthenshire, Wales, and is one of the few authorities on international law, having published the famous "Magnum Opus International Tribunals," copies of which were presented to all the reigning monarchs of the world. A second edition was prepared for the use of delegates at the last Hague Congress, while a third edition was specially dedicated to the Czar of Russia.

The book also secured for him the honorary degree of LL. D., from Tufts College, U. S. A.

DESERTIONS AND SUICIDES IN JAPAN

Frequency is Causing Some Concern Among the Military Officials of the Empire

[By Associated Press to Coos Bay Times.]

TOKIO, Oct. 28.—The frequency of army desertions, as well as suicide, of some of the deserters, is causing some concern among the military authorities. Statistics show that during last year there were 956 cases of desertion, of which 93 per cent were common soldiers. Tokio leads other cities with 184 cases while there were 112 cases at Osaka. Out of the total, 258 soldiers were brought before the military court and punished, while 698 deserters voluntarily surrendered before the three days' grace had expired.

The increase of suicide among deserters is believed to be due to the reduction of days of grace during the war from six to three days, the deserter sometimes preferring to kill himself than face the shame of court-martial.

Deserters who surrender before the three days expire are restored to the service with a light admonition. If they delay their return they become fugitives and are perpetually punished on their arrest by the military court.

SUPPLY OF COPPER AND BRASS FALLING OFF

It is Reported in Vienna That Such is the Condition in the Austrian Empire

[By Associated Press to Coos Bay Times.]

GENEVA, Oct. 28.—Reports that the supply of copper and brass is falling in Austria are brought from Vienna. Their attention was called to the fact that all the copper and brass fitting in the trains had been removed and replaced by iron or wood, while in many coaches canvas straps replaced leather. Austria, like Germany, has organized copper and brass "days" when the whole population, from school children upwards, contribute.

For several months efforts have been made by the Austrian authorities to obtain these metals from Switzerland, but without success. Contraband trade on a small scale, however, is going on via the lake of Constance. The Swiss papers contain many advertisements for copper and brass, the destination of which is unknown.

MORAL PURITY ASKED FOR THE CORONATION

Japan Women's Association is Trying to Bring About That Condition of Coming Ceremony.

[By Associated Press to Coos Bay Times.]

KYOTO, Japan, Oct. 28.—"Moral purification" of the city of Kyoto as a preparation for the coronation ceremony is the aim of the Japan Christian Women's Reform Association. The organization has issued a manifesto declaring that the sacred accession ceremonies of the autumn should be accompanied by moral cleanliness. Foreign representatives should be shown that Japan is not behind in the great world movement for increased morality. A resolution has been adopted memorializing the city of Kyoto to prevent geishas or dancing girls from attending public meetings during the period of coronation.

Throughout the coming festivals in the ancient capital the workers will erect tents and work systematically for the reform of the people's morals.

MUST TALK ENGLISH OVER THE TELEPHONE

This is New Ruling of English Authorities and is Hard on Belgian Refugees

[By Associated Press to Coos Bay Times.]

LONDON, Oct. 28.—The English language must be used over the telephone, according to the latest order of the authorities. In this, the British government is merely following a rule long enforced in the other belligerent countries. England is still full of Belgian refugees, of whom only the children and youths have learned to speak English, and in the Soho district of London, French is still the language commonly heard on the streets. The new rule is expected to cut down telephone receipts in the foreign colonies, but the increase from four to six cents a call will add immensely to the Postoffice revenues in the long run. The telephone system is government owned.

LAW-BREAKERS ARE SCARCER IN GERMANY

[By Associated Press to Coos Bay Times.]

BERLIN, Oct. 28.—The war's effects are distinctly noticeable in Germany's law-breakers, according to the Association for the Betterment of Criminals. Released convicts, so far as they have come under the observation of this organization, have, in a majority of cases, enlisted in the army if physically able to do so, and have "made good" in civil occupations when their health made it impossible for them to serve.

So many of the able-bodied released within the past three months have gone into the army that the association has had more jobs of a civilian nature than it could dispose of, and wages offered have risen accordingly. All but 19 of the 548 men who have applied for work have been given something to do. Paroled prisoners are said to have shown an unusually high percentage of apparent reform since the start of the war.

MORE PEOPLE RIDE WITH LONDON DARK

Bus Receipts Are Much Greater Since All Lights Have Been Ordered Out

[By Associated Press to Coos Bay Times.]

LONDON, Oct. 28.—Darkest London has swelled the bus receipts as a large part of the public would rather pay a penny to cross the street than to risk its neck afoot. When in dark, take a bus, is the way a new saying puts it. At any rate, the number of short fares has increased noticeably since the new darkening order has gone into effect. While bus receipts suffered from a slackening of the theater crowds after the big Zeppelin raid, this loss was made up many fold by the visitors to the ruined buildings.

PREPARATIONS MADE FOR CONSCRIPTION

In the Far East Steps Being Taken to Be Ready if Move Is Made.

[By Associated Press to Coos Bay Times.]

YOKOHAMA, Japan, Oct. 28.—Preparations for a possible British conscription have been extended to the Far East. The British Consul-General at Yokohama has published a notice requesting British subjects to register, in view of the present state of war and the desirability of having as complete a record as possible of all British residents. The Japan Gazette, the organ of the British community, expresses the hope that though the registration is voluntary, all British citizens will willingly fall into line and give the necessary information. Residents are particularly requested to state what they are prepared and qualified to do in case of need.

The People's Guide

"Retail advertising is the people's guide to every day living," says J. H. Appel, advertising director for John Wanamaker.

It is natural for people to turn to the advertising columns of their newspaper as it is to use the telephone. Advertising and telephone both signalize the modern idea of service.

They perform that service so well that they are a habit.

People no longer wonder at them or think about them—they just use them.

TROUBLE OVER JOLT

Harry Miller Hit by Billiard Cue Tackles Wrong Man.

Harry Miller received a crack on the head with a billiard cue one night last week. It has not been learned who dealt the blow, but Miller became so twisted up in things after he was struck that he rushed over to the Baxter corner and tried to "clean out" George Mehl, whom he swore was the one that struck him. He would likely have met with better success if he had tackled someone smaller than George, for Mr. Mehl laid him on his back in spite of all his protests and then calmly sat upon him until an officer arrived. Miller was then made, after considerable talking, to understand his error. We are still wondering who the man really was that struck him.—Coquille Herald.

TROUBLE OVER FENCE

Fred Kampher Arrested for Threatening Orville Knight

Orville Knight, who lives near Myrtle Point, made complaint yesterday before Justice Stanley against Fred Kampher, a neighbor, accusing the latter of threatening to kill him and his family. Constable Dunham went and made the arrest, and when Kampher was brought into court he decided not to controvert the charge. He was placed under bonds of \$250 to keep the peace and was allowed to go on his own recognizance until Saturday to procure bond. The difficulty arose over improperly constructed fences which allowed stock from each side to trespass on the other.—Coquille Herald.

Frohman's Generosity

Mr. Heyman said to Charles Frohman one day:

"Do you know you are not doing right in sending money to all the people who write and tell you they are in hard luck? They may be imposing on you."

"There may be some that are imposing," Frohman answered, "but I know that there are others in want, so I can't afford to make a mistake."—New York World.

Patriotic James

In some school not located—locate it to please yourself—the teacher was hearing the history lesson. Turning to one of the scholars, she asked:

"James, what was Washington's farewell address?"

"The new boy rose with a promptitude that promised well for his answer.

"Heaven, ma'am," he said.—Current Opinion.

GIFTS WITH A PERSONALITY

THOUGHTFUL people begin considering their Christmas gifts and the loved ones they want to remember long in advance.

They plan gifts that have their personality in them.

Perhaps it is a picture, a bit of lace, a piece of embroidery, jewelry, some bead work, an odd bit of furnishings.

They make the gift in whole or in part, themselves. And now is the time to select the needed materials.

Suggestions such as you seek will be found from time to time in the columns of The Coos Bay Times
