He has only a small portion of the ten acres that is bottom land.

**Little Girl and Mother Have a Narrow Escape**

Thrilling experiences of a Curry county family are told in the following from the Port Orford Tribune:

Some two weeks ago a panther jumped at a little girl in the Mule creek country up Rogue river. The cries of the child brought its parents, who were working nearby, and they drove the animal away. A boy was sent to the house for a gun, and in looking for the varmint where it had hidden, it suddenly sprang from the brush at the girl's mother, and only a well directed shot from the rifle in the hands of her husband saved her from its claws, it dropping dead at her feet.

Johnson, who came in from Portland over the Middle Fork route, says the Roseburg end to that route has been put in fine shape and that with the exception of ten miles in the canyon next the county line, the road is all either gravelled or planked. He says that Douglas County has already done fully as much as Coos County in improving the road between Myrtle Point and Roseburg."

For quite a while now there have been no arrests in the county for serious offenses."

### TELLS BEAR STORY

The following somewhat remarkable story is told in the Port Orford Tribune.

Last week M. L. Barrett purchased a well-bred "varmint" dog from John Fromm Jr., in hopes that he can run down a bear that is getting entirely too familiar around his orchard and sheep on his Elk river farm. Mr. Barrett had been missing apples from an orchard some little distance from the house, and was greatly surprised recently when he caught the thieves at work. A tree was surrounded by sheep and in it was a black bear at work shaking out apples. The bear would come to the ground and cuff the sheep away, and eat what apples he could find and then go back to the tree for more. The sheep apparently had no fear whatever of it.

He took up a homestead near where Coquille now is, in 1863, commuted it in 1866 and moved to Empire where he opened a hotel. He left Empire in the '70's for California with his two sons, and died in San Francisco shortly afterwards. Mrs. Bushnell conducted the hotel until late in the '70's when she left for San Francisco to live with one of her sons. Coos Bay people understand that she died quite a while ago, but that the sons are still living. The Bushnells had one daughter, who died at Empire when she was ten years old."

### GOES TO PORTLAND

**Jim Wilson, the Wrestler, Leaves For the North**

Jim Wilson, the wrestler, has left for Portland. The wrestling game was over for the season here and Wilson said that he wanted to get where there was more doing. He tried to get a match at Powers and one at North Bend but the arrangements did not carry so he decided to leave. He says he expected to return to this part of the state again next summer.

Wilson was a wonder to the other wrestlers who were in Coos and Curry counties during the past summer. Although there were some good men in this part of the state there were none who came anywhere near being Wilson's match and they all admitted that he was one of the best men they ever saw. The only way Wilson could get a match was to agree to put down three or four men within an hour.

While here Wilson made many friends. He is a Syrian, nineteen years old. He is a quiet, gentlemanly fellow whose unassuming ways won him friends.

**DOUGLAS COUNTY WILL PRODUCE MANY**

**It Is One of Main Centers for Turkey Raising on Pacific Coast**

(Special to The Times)  
ROSEBURG, Nov. 1.—Douglas county will produce more turkeys this year than any previous season. The prices will as usual be governed by the demand so the producers have no guarantee at the present time as to what they will receive. While the war has made radical changes in the markets of many American produced goods it is not likely that it will make any difference with the Thanksgiving turkeys. The product from Douglas county will be sold largely on the Pacific coast and often large shipments are sent to the Philippines.

### Has Been Good Season

The past summer has been an ideal season for the raising of turkeys and it is believed that an enormous number of birds will be brought into the Douglas county markets.

Oakland is a great place for the marketing of turkeys. The birds are brought there as a distributing center and are shipped out. It is claimed that more turkeys are shipped from Oakland than from any other one city in the United States.

### Great Turkey Center

Douglas county is one of the greatest turkey producing centers on the coast. The birds are actually herded in large numbers over the grain fields.

In parts of the country they feed by running wild in the woods and are brought together at market time much the same as the cattle which run on the free range are handled.

## Coughs and Colds Not to Be Neglected

Anyone will realize the seriousness of neglecting a cold if he observes results of such neglect among his acquaintances. How often have you heard, "He caught cold, didn't do anything for it and it turned into"—then some dreaded disease is named.

Ordinary colds yield to prompt treatment at the beginning. That is why every family should be supplied with a reliable cough medicine—one that will heal raw and inflamed surfaces, loosen the phlegm, allay irritation, ease the hoarseness and stop the tickling sensation in the throat that does not permit one to sleep.

Foley's Honey and Tar Compound is invaluable for relief of coughs, colds, croup, whooping cough, tickling in throat, tightness or soreness, grippe or bronchial coughs. It contains no harmful ingredients. It is healing, soothing, efficient and pleasing.

## Do You Want a Position?

You can get it! You can get a good one!  
You can get as good a one as you can fill!

Don't get the blues because some grouch turned you down; don't be foolish just on account of the frown on some old fool's face. Buck up! Get busy.

Remember that when Wall Street refused to advance another dollar to finance the United States in the days of the war, it was advertising that saved the Union. Jay Cook went to the people! He went in pages! He told his story in the newspapers. He advertised—big and little—by and large—and the people came to the rescue. They got the money out of the old clock, and from under the loose brick in the old hearth and they bought the bonds Wall Street refused to touch. If you can't get the job you're trudging around town trying to find, carry a Want Ad in The Times. Make it sensible; tell your qualifications; tell 'em how hard you're willing to try to please; tell 'em who you are and what you are; where you've been and what you've done. Tell your story in words written as you would in words spoken. Take more space and make it clear and strong and convincing. Learn how to use Want Ads so as to get what you want. If you're a good book-keeper—say so—and prove it—tell the facts—without names—but give the gist of it. A good Want Ad will pull you through. Try it and see. Don't get discouraged. A good, strong want ad never failed yet—repeated two or three times.
