THE LITTLE THINGS OF LIFE

IT IS always the merest trifles rather than the big things of life which indicate the manners and tastes of the average person.

It is just as grave a mistake to be too polite as to be abominably rude. The painstakingly polite person is very trying to encounter, for extremes often meet, and he generally succeeds in being actually libeled.

Removing his right glove before shaking hands with a lady; raising his hat when he offers a damsel his seat in a car; carefully plotting his fair companion across a crowded street; walking on the outside of the pavement and refraining from sitting when talking to a lady who happens to be standing, are all instances of those little things which mark the good breeding and thoughtfulness of a man.

TOPICS OF THE TIMES

President Wilson was recently interviewed in the interest of woman suffrage by a dancer named Maude Allen. She must be a ballot dancer.

Mr. R. A. Copple too publicly, lest I offend some who might otherwise patronize me?

Granted that I believe, with Mr. Copple, that we are confronted by a condition—(hard times and empty treasury, combined with a discount of 5 per cent on our city warrants), must I lose my business because I am willing to abandon a theory, two years old, that the city could afford to give our band \$150 a month?

I wish to show my approval of Mr. Copple's course in the matter, and believe that I and those who think as I do can best do that by giving him and the finance committee a vote of approval at the primaries.

It strikes me that it is time to call a halt, when it has come to such a pass that I dare not sign my name to this for publication, lest it "hurt my business."

The band has always had my name on its monthly donation list with what I felt that I could spare toward such a worthy institution, but the city is broke now and taxes are climbing up. Let us retrench, just as we do in our private affairs.
