CLAIMED PUT NETS OVER ONE-THIRD WAY ACROSS CREEK

A. Ingersoll and W. Clinton Arrested by Deputy Game Warden Thomas—Trial Tuesday

Claiming that two fishermen unlawfully maintained and operated set nets that extended more than one-third the distance across the mouth of lower Ten Mile Creek, Deputy Game Warden J. M. Thomas has sworn out complaints causing the arrest of A. Ingersoll and W. Clinton.

The two men must appear for trial in Justice Pennock's Court at 10 a. m. Tuesday. It is said the men were fishing for salmon.

Clinton came into town today and told Judge Pennock he was willing to plead guilty to the charge. J. M. Thomas and John Tower are named as witnesses in the complaints.

P. M. Hall-Lewis Retires From the Office Because He Will Leave the County Soon

A meeting of the executive committee of the republican county central committee, called by the chairman, P. M. Hall-Lewis, was held today at the office of Judge C. A. Schibredde. The main purpose of the meeting was to act on the resignation of Mr. Hall-Lewis who will move soon to California to reside. He presided and presented his resignation which was accepted, and then the committee elected Walter Sinclair of Coquille as chairman.

W. C. Laird was formerly secretary of the committee and when he was made deputy sheriff he was compelled to resign the place and J. S. Barton of Coquille was named as temporary chairman. Today the appointment was made permanent and Mr. Barton will serve for the rest of the term.

Those attending were Walter Sinclair and J. S. Barton, of Coquille; C. B. Zeek, of Bandon; C. E. Maybee and C. A. Schibredde, of North Bend; August Frizzen, D. L. Buckingham and F. J. Gettins, of Marshfield.

TOWED INTO PORT

(By Associated Press to Coos Bay Times.)

CHRISTIANA, Norway, Nov. 17.—The American bark Andrew Welch was towed into Christiana today by the steamer Rusaand. The bark, which sailed from San Francisco for Halstad, Sweden, was boarded by a British lieutenant and five men from a patrol boat off the Shetland Islands and ordered into Lerwick, but a storm carried the ship toward the Norwegian coast, where the Rusaand took her in tow.

CAPTAIN LOFSTEDT APPEARS BEFORE U. S. INSPECTORS

Explains Details of Santa Clara Wrecking—Edwards and Fuller Will Pass On Case

Captain A. Lofstedt, captain of the wrecked Santa Clara, on Monday appeared before United States inspectors Edwards and Fuller, at Portland and gave testimony relative to the striking of his vessel and her subsequent loss.

From this report it is judged there will be no hearing of the inspectors on Coos Bay. Testimony of the members of the crew and some of the passengers has already been taken and will be forwarded to Captains Edwards and Fuller in Portland.

It is on the findings of these inspectors, it is believed, that Captain Lofstedt's license as a captain depends. Inasmuch as the testimony here favored the skipper, the many friends of the captain are hoping that he will be entirely absolved from all blame.

Blue Prints Ready for Finishing of Second Story of Building Erected Three Years Ago

Completion of the big school building built at Bandon some three years ago is to be made very soon. Ben Ostlund, architect, announced that the blue prints are ready today and bids will be opened for the awarding of the contract the day before Thanksgiving. Mr. Ostlund went over to Bandon this morning.

On the second story of the building are to be four new class rooms. These have never been finished and their finishing now denotes a new demand for room in the Bandon schools.

The dimensions of the second floor are 85 by 68 feet, which will divide into rooms for the grades and also allow for halls and a stairway.

The loss is estimated to be between \$2,000 and \$5,000. Both Mr. and Mrs. Hess were at their ranch and two sons and two daughters were living in the house so that they could attend school.

One girl was alone in the house last night and about 9 o'clock she dropped a lamp which exploded and set fire to the house. Everything was lost.

V. C. Gorst Returns With New Idea on Jitneys

V. C. Gorst returned yesterday from California, where he has spent a month with his family. Mrs. Gorst and one of the children being sick. He also spent considerable time investigating the jitney systems of other cities, as well as the street-car systems. He is figuring on extending the jitney service in Marshfield and North Bend, giving practically a street-car service to all parts of the towns. As it will be soon that the railroad replaces his beach line, they will have a number of autos that can be changed to other service.

STORM ON COAST

SKIPPERS ADVISED TO STAY INSIDE FOR BIG BLOW

Winds at Velocity of 72 Miles Hour Off Columbia Bar—Kilburn Bar Bound

Storm signals all up and down the coast, especially along the Oregon and Washington coasts, were flying today and have been since yesterday. The steamship Kilburn was unable to get out of the Columbia. The steam schooner Hardy crossed out over the Coos Bay bar this morning but in doing so she shipped two or three heavy seas that staggered her progress.

Very Heavy Wind Word from Portland was to the effect that on Monday there the wind blew from the southwest at the rate of 72 miles an hour. Skippers were warned to stay inside by District Forecaster E. A. Heals who said, "This will be one of the most severe storms so far this season and vessels bound seaward are advised to remain in port today." This was on Monday.

Blowing Hard Here At the Cape Arago lighthouse this morning Captain Dunsen said the wind was blowing heavily from the southwest. It is not known here whether or not the Kilburn will be able to arrive in here tomorrow.

SAILOR LIKE CHAPLIN

Man on the Bear Looks Like the Comedian

Passengers aboard the Big Three liner Bear, out of Portland, are constantly amazed to see Charlie Chaplin walking about the decks, casting off lines and scrambling into the rigging, carrying with him his inevitable cane.

The figure is William Strelbart, a sailor. Though a Scandinavian he is able, to make himself up like the \$100,000 comedian and his antics about ship would fill a book. He is always in demand at amateur theatricals aboard and one time the passengers chipped in and bought him a silver loving cup for his entertainment. He is the pride of the crew and the officers on the Bear.

CANDIDATE EVERTSEN'S PLATFORM

Editor Times:—I have read Mr. Carl W. Evertsen's platform, as published in The Times of the 15th.

Mr. Evertsen sells as good bread as I ever bought, but his platform has too many "airholes" in it, (like some bakers' bread.)

Paragraphs No. 1 and No. 5 of same look like this to me:

SONG ECONOMY With variations Words By Carl W. Evertsen Music By Coos Bay Band Music will not induce briquette factories to locate here. Music will not induce capital to start any enterprises.

A low tax rate, an economical administration of city affairs will do these things.

How about it, you housewives whose household allowance has been pinched right down?

How about it, you office girls whose wages and workdays have been shortened?

How about it, you mill workers with your ten per cent cut?

How about it, you city employes, with your shaved warrants?

How about it, you landlords with the rents cut down? The city is running behind more and more. Soon the real estate agents will be advertising suburban homes as a means of getting away from city taxes.

Mr. R. A. Copple has shown his willingness to cut and pare. He pulled Cottage Grove out of a hole like ours. Help him; help him, by voting for such Councilmen as will agree to support his policy.

L. R. MERRICK HERE

SECRETARY BUSINESS MEN'S STATE ASSOCIATION VISITS

Says He Looks for Great Development in his Locality When Road is Done

TELEGRAM SENT FROM PORTLAND

L. R. Merrick, care Coos Coos County Business Men's Association, Marshfield, Ore. Regret we did not get notice of your trip in time for letter to convey to the business men of Bandon, and Coos County in general, our most sincere purpose to join them in all development of market extension work. Portland's new chamber of commerce realizes beyond any possible doubt, that Oregon's prosperity as a whole is the only object worthy of an effort by any community, and that only by advancing the state's entire interests can any town or section of the state attain any way near its fair state of success. C. C. COLT, President of Portland Chamber of Commerce.

The above is a telegram which was received by L. R. Merrick, secretary of the state business men's association. Mr. Merrick came here to meet the business men and attended the gathering at Bandon last night. He is endeavoring to interest Coos county business men to the extent that the local organization become affiliated with the state society. He says that great benefits can thus be derived.

Much Impressed Mr. Merrick was greatly impressed with Coos county. He says that when the railroad is finished he expects to see great development here. He bases this opinion on the fact that in his travels about the state he has many inquiries about this part of the state and thinks there are many persons who contemplate coming into this section when the road is finished.

MANY FLOCK TO SEE THEMSELVES IN MOVIES

Coos Pictures Are Shown at Noble Theater and Make Decided Hit Will Go To Bandon

Through nearly 3,000 feet of film last evening hundreds of people saw the best part of Coos county brought before them and often they found themselves thrown onto the screen, caught in some crowd or taking part in some event of interest that had been pictured.

Especially clear was the picture of the tug and the steam schooner Bandon crossing out over the Bandon bar loaded to the gunders with ties.

The pictures were clever and very interesting. They go from here to Bandon to be shown.
