

Positive Proof

That Discount Sales Are Unfair and of No Benefit to the Customer.

Is it not true that when you go into a store to make a purchase and you are told that the article you desire is reduced in price, you immediately begin to examine it and wonder if it is inferior, defective or out of style? If you are a judge, you will finally come to that conclusion—which in nearly every case is true. No merchant can afford to, or is going to sell his goods without profit. He has either been dishonest by asking too great profit in the first place, he has marked the goods up then down again or there is some defect in the goods offered.

It is easy enough to buy (we will say) suits for \$7.50, mark them to sell for \$12.00, and later on reduce them to \$10.00. It looks attractive, but it is unfair to the customer who bought early and paid the long price. With our system of strictly cash transactions and no reduction sales we mark the suit \$10.00 and the price stays there.

The man who buys the first suit, early in the season, pays no more than the man who bought the last one, later on. Can we not well afford to do this and thus treat all customers alike?

SUNRISE AND SUNSET

Saturday
November 20.—Sun rises at 7:19 and sets at 4:35.

Dance at Eagles Hall.—Dick Rogers is managing a Thanksgiving dance tonight at the Eagles Hall in this city.

Takes Over Tickets.—J. W. Motley of the Chamber of Commerce, went to the Coquille Corn Show this morning, expecting to return on the evening train. He took over with him a handfull of football tickets to be disposed of there.

Gets Another Car.—When Charles Hall, of the Coos and Curry Telephone company, went up to Portland the other day, he had a "hankering" for another car. On the Kilburn yesterday there arrived a five passenger White, toward which he traded in his other car.

Brings Parents Home.—Ollie Smith, night policeman at North Bend, has returned from Portland where he went to see his father who was quite ill. Mr. Smith brought his mother and father back to North Bend to reside, the father having recovered sufficiently to travel.

To Inspect Schools.—Dr. John Straub of the faculty of the University of Oregon and who has been connected with that institution for 37 years, is coming to Coos Bay to make an official inspection of all the high schools. He will come with the football team which is to be here Thanksgiving.

Are Elks This Morning.—At a specially called meeting of the Elks lodge last evening Frank T. King and Edwin P. Griffith, of Acme, were initiated into the order. Both men are surveyors on the Southern Pacific. They intend to leave very shortly for their vacation at the Panama-Pacific Exposition.

Go After Ducks.—Armed with sundry types of shot guns and plenty of provisions Ray Kaufman and Tom James left yesterday for the headquarters of the Glasgow Gun Club on Haynes Inlet. From the continuous bombardment reported in that vicinity today it is believed there is a terrible slaughter going on.

Is Refused Commission.—Captain Randall Rogers who came down from Portland and went aboard the steamship Breakwater on its trip to San Francisco as second officer, has been refused a pilot's commission for the Columbia on the grounds that there are already plenty of pilots there. He is now in San Francisco and it is possible he will return with the Breakwater.

Has Novel Machine.—Jay Doyle on the last boat, received a new machine, one that he is just setting up in his shop on Central avenue, for the purpose of dry-cleaning all sorts of white goods and gloves. Mr. Doyle a while ago went south to learn the use of some of the latest equipment for this sort of business.

Shook Trial in December.—Word has been received here by Ben Fisher that the trial of William Shook, of Marshfield, in the federal court in Portland on a white slavery charge will occur December 1. It was first set for some time after New Years. There will be five subpoenas issued in Marshfield, two in Eureka and either one or two in Gold Beach.

Pirates Sell Loot.—Slowly the loot of the pirates, taken from the Santa Clara and finally transported to Marshfield, is being sold. There have gone canned goods, hardware, tires and enough variety of wares to start an emporium at reduced prices. During the past week they have canvassed through the business districts and have turned quite a bit of plunder into cash.

Fire Hoodoo Leaves.—Marshfield can certainly say that it has no fire hoo doo. According to the records of the local fire department there has been no call in town since the Gregg residence burned on September 13. When they say this though, they "knock wood," for tomorrow may bring the unlooked for fire. The department, however, responded at the time of the North Bend fire, early in October.

Chief is "Billed."—Chief Jack Carter says somebody took undue advantage of him yesterday when they slipped into the station and put his name on the register along with John Doe and his tribe. Furthermore, these unseen judges, assessed a fine of \$5 against the Chief, who says if he catches the person who did it the joke's going to be the other way round and he will furnish a free room in the Hotel de Carter by way of a prize.

Parrot Has New Home.—A green parrot, with a black bill and a sharp tongue was added to the fire department today. The boys declared it had been brought there for a course in elocution, the belief being its education had been sadly neglected with such scattering phrases only as

"Want a Cracker" and "Here Polly." The green one sat on its perch, yelled lustily in a high pitched voice and declared, that is in parrot language, that it "didn't give a continental what happened."

Is Much Better Now.—Captain C. E. Edwards, of Abegony, was in the city today coming here for medical treatment. About five weeks ago, while working in his sawmill out at Loon Lake he was the victim of a freak accident. He was standing close to the planer belt when the thing ripped in half for its entire length, the outer half hitting Captain Edwards in the back and leg, making a very painful wound on his limb. This laid him up for some time and he started back to work but was forced to lay off again. He says that he has only a little more work at Loon Lake, where The roads are so bad, freighting is almost impossible.
