

The Joy of Perfect Baking

can be YOURS if you BAKE WITH GAS. You know how pleasant it is to see your baking come out just right; how disheartening to see your time and materials go for naught, because of a "too hot" or "too slow" fire. Why take chances? Cook with gas, and enjoy perfect security in baking ALWAYS.

The Result of Cooking with Gas

is absolute certainty in all your cooking operations, roasting, baking, broiling, stewing, etc. IT IS THE SCIENTIFIC WAY. You regulate the oven to a certain heat and go away, knowing the exact moment the baking will be done. No worry or constant attention needed. And the time you formerly spent making a fire and cleaning up after it, is now your own. Stop in today and find out how wonderfully gas will aid you in your housework.

CASE MAY GO UP

Bandon Suit Likely to Go To Supreme Court

That the Bandon Oregon Avenue case will go to the supreme court is indicated by the following from the Bandon Recorder:

While little that is new has developed during the week relative to the situation on the Oregon Avenue pavement, it has become increasingly more apparent that the affair presents the aspects of a pretty muddle.

Contractor Webb is credited with a willingness to sue the city for permission to carry on his contract or the forfeiture of the money the work would have earned. The city can not proceed without buying the land from the church or doing the churches dictation that of rebating the church's assessment. The property owners on Oregon Avenue it is claimed want the street to go the straight grade or else they will not pay assessments for work already done. The cut down the old trail will, it is claimed entail costs for grading and bulk heads that any of the interested property owners can not pay. This is only the outer edge of the thing and the man who attempts to harmonize the conflicting interest will have a job on his hands.

The next move is apt to be an appeal to the supreme court.

MORE ABOUT BOX FACTORY

Regarding the moving of the box factory from Coquille to North Bend the Coquille Sentinel says:

Archie Kruse has made arrangements to build a box factory at North Bend. The machinery will be taken from the mill at Bullards landing on the lower Coquille, and is expected at the Bay on the next trip of the Speedwell. The mill will manufacture laths and box shooks, using waste from the North Bend Mill & Lumber company's mill as much as possible, and spruce timber will be furnished by the mill at reasonable rates.

PEOPLE'S FORUM

The Coos Bay Times will be pleased to publish letters from its readers on all questions of public interest, giving his or her address, and so far as possible limited to 250 words. In publishing these letters the Times does not endorse the views expressed therein; it is simply affording a means for the voicing of different opinions on all questions affecting the public welfare.

WHO WILL GAIN POSSESSION OF THE EARTH

To the Editor: The great war which is now raging in Europe, naturally raises the question of the future mastery of that portion of the world. Should there be a decisive outcome to the struggle, the victorious power would be in a position to dictate terms to Europe; and from the mastery of Europe it would be but a step to the position of world supremacy.

There exists however an impassable barrier in the pathway to this coveted goal of power. The Word of the Almighty has declared that there will never again be upon this earth a successor to imperial Rome. No conqueror will ever arise who will be able to bring all the other nations into subjection.

This is plainly stated in the prophecy of Daniel, chapter two, where, in explaining to the king of Babylon his dream concerning the great image, the prophet Daniel declared: "And whereas thou sawest the feet and toes, part of potter's clay and part of iron, the kingdom shall be divided. . . . And whereas thou sawest iron mixed with miry clay, they shall mingle themselves with the seed of man; but they shall not cleave one to another, even as iron is not mixed with clay."

Since the decline and fall of the iron monarchy of Rome, there have been repeated efforts to weld together into one solid mass the broken fragments of that empire. Clovis, Charlemagne, Charles V., and Napoleon Bonaparte, essayed to become rulers of the world, but none of them could cement the iron and clay of the prophetic image. They were striving against the fiat of heaven. As one writer has forcibly expressed: "The earth reeled under the fierce charges of those world-empire grasping warriors, but the Word of the Lord stood fast, and Europe remained divided."

Nor has the effort to bind the nations together into one by marital

MILL MAY START

Further Rumors Concerning Brookings Being Circulated

Rumors of the Brookings mill starting again are still heard. The following is from the Gold Beach Globe:

It is reported in the south end of the county that the Brookings Co., and the Del Norte Co., are about to consolidate and will start the business at Brookings under new management early in the spring.

The Del Norte Co., sometimes referred to as the Owens people, is a very strong lumber company and has a large holding of timber in northern Del Norte County, Cal., and southern Curry, adjoining that of Brookings. It is hoped that this rumor is well founded and that the early spring will see Brookings start up again full blast.

Notes About the People Told in The Globe.

Mr. and Mrs. M. D. Sherrard, of Bandon are now enjoying a visit with Mrs. Sherrard's brother, T. L. Carey, of Wedderburn.

W. H. Wann, public accountant, of North Bend, is now here checking over the county officers' books. District Attorney Johnson started for the north end of the county on legal business. He will lecture at Port Orford on the new prohibition law.

Miss L. Gyseler, who is holding down a homestead on Pistol River, was a business visitor in town and incidentally took in the Christmas exercises and the Woodman dance.

Dennis Cunniff returned last week from a two months' visit in the northern part of the county. He was employed at the Madden mine which is being newly equipped by Dr. Pheelen and Chas. Lull.

BRIDGE PLANS APPROVED The Florence West says: "I. B. Cushman received a letter from Congressman Hawley stating that he was informed by the U. S. engineers that the plans for the bridge across the North Fork between Florence and Acme were officially approved on October 30."

The North Fork being a navigable stream it was necessary to obtain the consent of the government engineers before a bridge could be constructed. Application was made several months ago.

Barber Catches GAS POISONING Inhales Breath of Man Affected and Suffers Much the Same Ailment (By Associated Press to Coos Bay Times.)

LONDON, Jan. 4.—The story of a barber who caught gas poisoning from one of the Canadian wounded comes from Nottingham.

The members of the Nottingham Hairdresser's Association give their services to the military hospitals there, with some ten thousand free shaves and haircuts to their credit. One of the barbers, Arthur Hamstock, a few days ago shaved a Canadian who had been badly gassed by the Germans. During the operation, he got considerable of the Canadian's expent breath into his own lungs. On his return home, Hamstock began to complain. Soon he grew ill and developed all the symptoms of a man who had been gassed. At last report, he was still confined to his bed.

alliances been any more successful. The royal families have intermarried very extensively, but the ties thus formed have accomplished nothing toward political union. King George of England is cousin to the German Kaiser, and the Czar of Russia is a relative also. Yet this relationship does nothing to prevent war. In no instance has there been a cleaving together of the kingdoms through the marital "mingling" of which the prophet spoke.

Yet there is to be another and final universal kingdom, foretold by the "stone" of this prophetic dream, which "smote the image upon his feet that were of iron and clay, and brake them to pieces." Dan. 2:34. For of this stone it was said by the prophet, that it "became a great mountain, and filled the whole earth"; and in the explanation of this portion of the dream the prophet said: "In the days of these kings shall the God of Heaven set up a kingdom, which shall never be destroyed, and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms, and it shall stand forever." Dan. 2:35, 44.

We are living today at a time when all the events pointed out by inspired prophecy as marking the approach of that kingdom, are with but one or two exceptions, in the past. Almost the very last sign of its coming was stated by the Saviour in the words: "This gospel of the kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come." Matt. 24:14. That this work has now almost been accomplished, every person knows who is acquainted with the extent of Christian missionary effort at the present time.

Very sincerely yours, E. R. HENDERSON, Elder of the Seventh-day Adventist Church.

HAVE A PIPE FUND

AMERICANS CAN CONTRIBUTE FOR THE SOLDIERS AT FRONT

Name of Person Giving The Money Will Be Inscribed on the Pipes In Proper Language

(By Associated Press to Coos Bay Times.)

NEW YORK, Jan. 4.—Soldiers in the trenches of Europe this winter are to be supplied with pipes from the United States and any American who wants to send such a gift to a Belgian, a French or a Russian fighter may do so by contributing ten cents to the Soldiers' Pipe Fund.

The men at the front want and need a good and durable pipe. The demand for such an article has been very insistent, and Viscount H. Y. de Lendonck, of Wavre Ste Catherine, Belgium, has undertaken to supply it. He has had manufactured in America an excellent pipe for the purpose; strong, light, easy to clean and sanitary, and he has in hand the receipt of contributions and the prompt shipment of the pipes to whatever army of the Allies the giver designates.

For a contribution of \$25 the Soldiers' Pipe Fund will deliver to soldiers in Europe 250 pipes and will have printed across the bowl of each a sentence or motto in the language designated by the contributor, and even put on the bowl the donor's picture, name and address. For instance, if it is desired to send pipes to British soldiers, the inscription will be in English, Belgians and Frenchmen will receive the gifts suitably inscribed in French; Russians in their own, Italians in theirs, and Serbians in Serbian. For 10 ten pipes can be sent over the water with a label in the bowl of each giving the donor's name and address, and suitably inscribed on the bowl. Single contributions of ten cents will send one pipe, inscribed on the bowl with the good wishes of the giver, in the native tongue of the recipient.

The Fund will send an engraved certificate of receipt to anyone contributing one dollar or more.

Viscount de Lendonck, who is Secretary General of the Fund, has opened an office at 505 Fifth Avenue, New York City.

Advertising Is Not a Matter Of Sentiment

The shrewd buyer of space—the man who demands "action on his money" all else being equal—is the man who will make the cash register ring the oftenest.

The value of any medium from an advertising viewpoint depends largely on its circulation and the thoroughness with which it covers its field.

Poor copy in a good medium, however, won't produce results—neither will good copy in a poor medium.

Spasmodic and half-hearted advertising is more apt to be a failure than a success.

The advertising department of The Coos Bay Times is prepared to lay in front of any business man in Marshfield a comprehensive statement of facts and figures—analyze his business—help lay out a definite campaign—render a distinct co-operative service and if the merchant will do his part—guarantee an unqualified success.

Marshfield, Coos County and North Bend can be covered thoroughly in The Coos Bay Times.

These statements can be substantiated with an abundance of proof.

It's Purely and Simply a Matter Of Business

It's No Experiment To Advertise in the Coos Bay Times
