SUNRISE AND SUNSET

Thursday January 6—Sun rises at 7:53 and sets at 4:41.

Haines in Bad Shape.—According to word from Portland, W. R. Haines, of Marshfield, who has been receiving treatment in a sanitarium there, is in a rather critical condition.

Opens Office.—Lloyd W. Jacobs has opened an office with the L. L. Thomas Music Company on Central avenue, where he will carry a stock of typewriters, typewriter supplies, etc.

File Plat.—D. L. Buckingham who prepared a plat of Summerhome, a new addition at Ten Mile for John F. Hall, L. C. Call and J. O. Langworthy, filed it with the County Clerk yesterday.

Moves To New Locations.—George Anderson, of the Coos Bay Stationery company, today is moving his stock and new fixtures into his new store building on Front street. Miss Florence Aiken will be employed in the store. John Walker is moving his studio to the Williams building on Curtis avenue.

Outlook Good.—J. T. Sullivan, manager of the Hub Store at Bandon, came over today to look after business on the bay. He says that the outlook at Bandon is for an excellent year and they are expecting the mills to start in again there soon.

Foresters Meet.—There was a meeting of the Foresters lodge last evening in the Finnish Hall and, because of pressing business, the installation of officers was deferred until the next meeting. The order has now rounded out 22 years of activity on Coos Bay and have been steadily growing. George Ayre was one of the charter members on Coos Bay.

Back From Trip.—L. F. Price returned last evening from an extended trip to California, Oklahoma,

Kansas and other points. John and Lew Gillespie are now at Kansas City and are well and are planning a trip to the Bay again next summer. Mr. Price leased his ranch at Sumner and so will probably divide his time between here and Sumner.

Had Jumped Board Bill.—E. J. Haynes, who was arrested here early yesterday morning by Chief Carter and taken to Coquille, must answer to the charge of jumping a board bill. George Craig, of Powers, swore out the warrant claiming Haynes owed him \$18. The latter was arrested here on a telephonic message from the Sheriff's office.

Keep On Building.—V. G. Hindmarsh, Engineer of the Willamette Pacific in charge of track laying north of Coos Bay, was in the city today. He said that the men are still working on the trestling north toward the Umpqua. There has been no extension of track laying and the rails are still within about four or five miles of Reedsport. The concrete work on the Umpqua bridge has not yet been started.

Things Are Looking Better.—Fred J. Kelley, of the William Cliff Company, who has just returned from his vacation in San Francisco, said that never before have conditions looked so well as they do now. He said the steamship companies are unable to handle all of the trade to the Hawaiian Islands and the big steamships go out of San Francisco carrying many automobiles.

Delly Moving Rumors.—Reports were rife today of firm moving. One report had it that F. E. Hague, of the Pioneer Hardware, had leased the Montgomery building, which will soon be vacated by the Lando store and would move there, but Mr. Hague said that it was not correct. J. Lee Brown when asked about a report that the Brown Drug Company would move into the Bennett building at Front and Commercial, just vacated by the Claymore bar, said that it was the first he had heard about it.

Much Parcel Post.—There came so much parcel post on the Kilburn day before yesterday that last night only one delivery had been made to the residence districts and the men were busy all of today making the distribution. Many of the parcels were small or and it was said that this is one of the reasons of the delay, but the entire force plunged into their work with a vim, getting it out of the road as quickly as possible.

Start Membership Campaign.—Tomorrow night the Chamber of Commerce at its annual meeting, will take up the matter of a membership campaign. The direct benefits to be derived are shown by the fact that last year, with a campaign, the membership of the Chamber was 250, while this year it dropped down to about 115. However, things are looking up, for Secretary Motley in a few days' canvass of the city, has secured about 85 subscribers for 1916.

Is at Vallejo.—Dick Rogers, formerly one of the drivers for Gorst & King on the line from Marshfield to North Bend, and who recently went to California to be with V. C. Gorst there, writes friends from Vallejo. He states that Mr. Gorst and Dick Richards have a jitney line from Vallejo to South Vallejo. Times seem good, he says, and New Years there was a big celebration on account of the battleship contract which the Vallejo navy yard recently secured. He says it will be a big thing for the town.

Leaves for California.—Sam Pine, formerly night bartender at the Chandler hotel bar, left today on the steamer Adeline Smith for San Francisco. From there he will go to Los Angeles and later to San Diego. He says he wants to get near the Mexican border to watch conditions and as soon as affairs are sufficiently settled in that country he expects to go into Mexico.

LONG IN BUSINESS

EMERSON FERREY OF BLANCO AN OLD HOTEL MAN

Closes Place for Good On Account of Discontinuance of the Bar Under New Law

Emerson Ferrey for 17 years has been connected with the Blanco Hotel yesterday closed its doors for the first time since 1871. The going out of the bar is attributed as the cause. Today the furniture of the oldest section of the hotel, the part that is owned by the Ferrey estate, is being moved to the south section of the building where it will be stored. There is a possibility the south half of the hotel, which contains 20 rooms and is owned by the Flanagan and Bennett bank, will be opened as a rooming house. In 1871 J. L. Ferrey, an uncle of Emerson Ferrey, and Steve Bailey, of Seattle, opened the hotel which was then the largest on the bay. For years it was the leading hotel of the city. Many distinguished persons have been entertained there and the place was known by the traveling public throughout Oregon.
