

Duke Always Does His Part

World Color Printing Co., St. Louis, Mo.

I took Andy and Wendy and their friends to the ice pond-

-today- Andy cut down a tree-

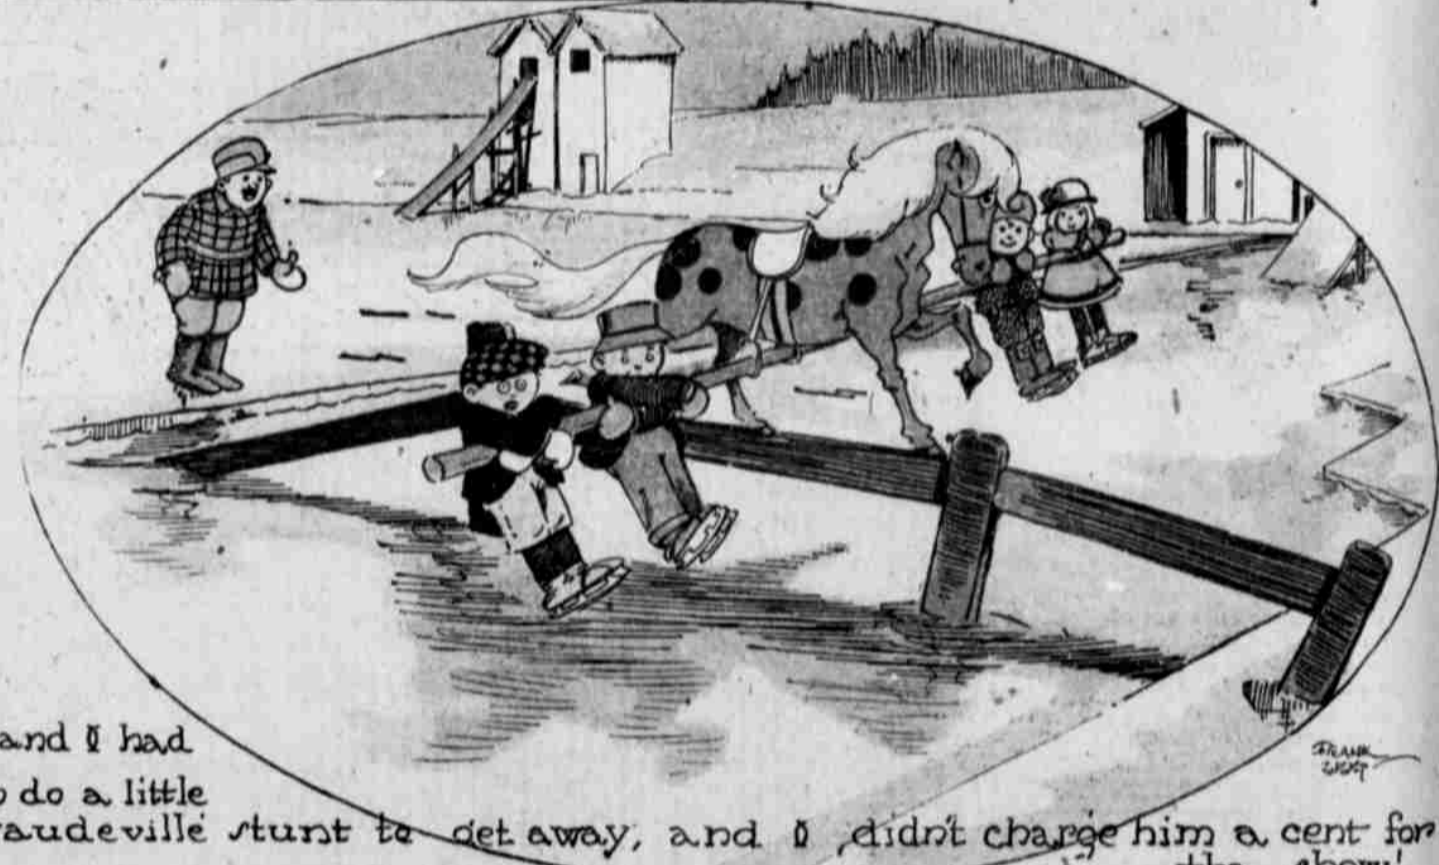

and made a pole to put thru my stirrup-

-then I gave them a ride-

-but the man who owned the ice pond took after us-

- and I had to do a little vaudeville stunt to get away, and I didn't charge him a cent for the show!

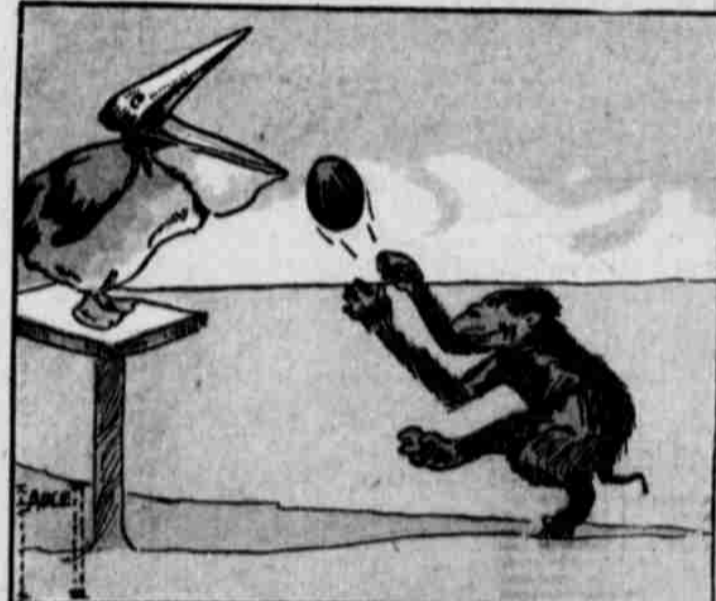

ANNA BELLE Rides In a Motor Sled

Dear Friends:—The other day we had a light snow, though it was deep enough for sledding, and we all were surprised to see Uncle Ezra drive up to the house in a very peculiar looking sleigh. The thing looked something like an automobile and also sounded like one for there was something buzzing inside and a big fan whizzing around at the back of the thing. Uncle Ezra explained that he had taken an old roadster to a mechanic and had a motor sled made of it, by substituting runners for the wheels and the force of the fan pushed it along. He took me for a ride and really it seemed more like flying than anything I know of. We, of course, didn't go fast, but it glided along so easily that you scarcely felt you were moving until you looked at the houses and other objects move by.

I'm so glad all of you are doing so well in SEWING SOCIETY work, but if you happen to be one who hasn't sent for a Certificate of Membership, now is the time to do so. We're so anxious to do all the good we can during the winter months for then is the time the poor girls and boys need our help most. Just address me care this paper, enclose a two-cent stamp for postage, and I'll be only too glad to send you one. Write as often as you can to your loving,

Anna Belle
