### FAREWELL PARTY

On Friday afternoon, December 31st, Mrs. R. H. Walter entertained informally for Mrs. Gordon Smith who with her little son, left this week on the Kilburn to be gone for some time in the hopes of benefiting the boy's health. Sewing and cards made up a very pleasant afternoon and were followed later by a dainty luncheon. Mrs. Walter's invited guests were: Mrs. Gordon Smith, Mrs. Norman Johnson, Mrs. Selma Thomas, Mrs. J. C. Merchant, Mrs. M. P. Pendergrass, Mrs. Albert Seelig, Mrs. George Ayre, Mrs. J. W. Mitchell, Misses Clara and Agnes Johnson and Emma Bear.

### NEW YEARS PARTY

On New Years night, Mr. and Mrs. J. W. Gardiner of North Bend entertained at a delightful New Years party the affair also being in honor of their 16th wedding anniversary, and the birthday of Miss Pearl Heath. The fore part of the evening was spent in card playing, and was followed by a sumptuous

luncheon. Then Mr. and Mrs. Gardiner donned their wedding garments of 16 years ago, and were once again a bride and groom, marching into the room to the sweet strains of the wedding march played by Mrs. E. L. Coe. With the parlor lights turned low, the Christmas tree lighted, the guests passed the remaining hours of the evening in dancing. Mrs. Gardiner was assisted by Misses Mabel Klockers and Margaret Reynolds in entertaining the following: Mr. and Mrs. Reuben Lyons, Mr. and Mrs. Neilson of Bandon, Mr. and Mrs. E. L. Coe, Mr. and Mrs. M. E. Everett, Miss Gill, Miss Heath and Mr. Mayhew.

### INFORMAL CHAT

Carey Bundy has been the guest at the S. B. Cutlip home on Daniels Creek for over a week. Mr. Bundy two years ago worked under V. G. Hindmarsh at North Bend and North Slough on the surveying gang. He is now inspector of the Southern Pacific bridge construction work at Acme, Oregon.

Miss Pauline Bahr, who recently resigned her position as art instructor in the North Bend schools, will leave on the Adeline, the 11th, for her home in San Francisco to resume her art studies, preparatory to entering Columbia University next year.

### REPORTED VERY LOW

Syver Backey of North Bend in Critical Condition

Syver Backey, the well known North Bend man who is ill at Mercy hospital, was reported to be very low this afternoon. All visitors are excluded from his room. Today he was conscious but could speak only with great effort. He is suffering from general neuritis and it is feared that his death is only a question of a short time. Mr. Backey is 72 years of age and is quite well to do. He has no relatives here.

### BLACKSMITH HURT

H. Dooley, who has been conducting a blacksmith shop in the Reynolds building on Second street in Bandon, accidentally fell while on duty last Thursday afternoon and sustained a broken leg. His condition is improving rapidly.—Western World.

Times want ads bring results.

## PLANT RUNS TODAY

THIS WEEK AND NEXT ON SIX DAY SHIFT

Extra Day Put In So It Can Be Shut Down for Repairs Without Loss

The C. A. Smith mill is operating today, making a run of six days this week instead of five days. The mill also run next Saturday making six-days next week. Superintendent Murch has a piece of repair work to do and as the mill is supposed to run five days he will put in the extra day this week and next week, thus giving him three days in which to make the repairs he desired. After next week he will shut down the plant for three days to make the repairs he wants to carry out.

### WILL TAKE VACATION

Chris Rasmussen Gets First in Thirty Years

The Bandon Western World says: Chris Rasmussen, one of the local pioneer saloon men put out of business by the prohibition law says he is going to take things easy for a while, this being his first vacation in thirty years.

Mr. Rasmussen leaves the business after conducting saloons in Coos county for the past 27 years. For nine years he was in business at Marshfield and for the past eighteen years he has been located in Bandon. That he has been honest in his vocation is evidenced by the fact that during these 27 years, in which he hasn't missed a single license, he has never been in police court; nor has there been an arrest for trouble in his place.

### HAND INJURED

Man Badly Hurt in Mill at Bandon

Frazier Mecum, an employe of the C. McC. Johnson shingle mill, may lose the use of the fingers of his left hand as the result of an accident at the mill the latter part of last week, says the Bandon World.

Mr. Mecum it appears was working on one of the saws and was preparing to "change saws" at the time. The power was turned off, but the machinery was not slowing down as rapidly as desired and he placed a couple of shingles against the side of the saw and applied pressure with his left hand. The shingle caught in the teeth of the saw, jerking his hand in also. The back of the hand, from a position between the thumb and first finger and parallel to the knuckles, was laid open, tendons and blood vessels being severed.

## TROUBLE EXPECTED WIN FIRST GAME ARE ABOUT EVEN STILL AFTER BATTLE

### DEPUTY SHERIFF CALLED TO KENTUCK INLET MEETING

However, Change in Date Postpones School Gathering to Vote on Recall of Director Stephan

Saying that he had been called by letter and long distance message to attend a school director recall meeting at Kentuck Inlet this afternoon, Deputy Sheriff W. C. Laird started across the bay this morning. But a message from Kentuck Inlet later in the day was to the effect that the meeting had been called off.

There came a letter to the Sheriff's office from Mrs. Flora Foreman, teacher of the district, signed as the chairman of a committee of 20 families. This was followed later by a telephone message, asking that a deputy be present at the meeting as trouble was expected.

Today a member of the school board at Cooston declared that the recall meeting to vote on the ousting of A. J. Stephan from the board has been called off because the meeting, legally, should be tomorrow, which is Sunday.

Started Weeks Ago.

The move to recall Mr. Stephan started weeks ago, it is claimed, when several patrons of the district became dissatisfied with an arrangement which it is said, calls for a too great expenditure of money in the district.

Mrs. Flora Foreman, teacher, declared that she would not allow five dollars of her salary to go each month toward the payment of a janitor, nor would she do the janitor work herself. Some of the patrons claimed that her contract specifically covered this point.

Will Issue New Call.

It is understood now that another meeting will have to be called for the purpose of getting a vote on the recall and legal notices published again.

Two members of the board, A. J. Stephan and Andrew Sandine, met last week, it is said, and elected Leonard Sandine clerk of the board in the place of Mrs. Anderson.

### MARSHFIELD TRIUMPHS OVER NORTH BEND, 52 TO 6

Basketballers—Open Season Last Evening On Local Floor—Battle Shows Brilliant Streaks

Marshfield high defeated North Bend five by a score of 52 to 6 in the first basket ball game of the season played last evening in the local gymnasium. The visitors made one basket, the other four points being gains on fouls. The proteges of Coach Niles gained 10 points on the fouls of their opponents.

This is also the first game under the new rules. The boys felt themselves greatly hampered because of the restrictions and this, in part, accounts for the number of fouls. The rules have a tendency to decrease roughness.

Make Good Showing

Local fans are enthusiastic over the showing of the local quintet. Their playing was not brilliant, but here and there were flashes, showing what the boys will be capable of doing with a couple of weeks more of practice. Next Friday evening they will meet the five of the local independent team.

The lineups of the two teams follow:

Marshfield	North Bend
Watters	Byler
Burrows	Hart
Seaman	Holmes
McDonald	Mindy
Chapman	Russell

For Marshfield Burrows was high point winner with 18 points, four baskets and 10 fouls. Wesley Seaman secured 14 points, so did Chapman, and Watters made six.

### WILL HANDLE BEACH SAND AT ROGUE RIVER

J. R. Peters is to Establish a Machine at Rogue River This Year

The handling of the beach sands for gold and platinum is to be started at Gold Beach according to the Globe, which says:

"The long looked for machine that will successfully handle in quantities the sands on the seashore and save all the values therein, has at last been invented and tried out to the entire satisfaction of its operators. J. R. Peters of this place, who has been mentioned at different times as working on a gold-saving machine, together with associates from Astoria, have demonstrated the worth of the "eters machine at Whisky Run, north of Bandon. The machine has done more than was ever claimed for it by Mr. Peters in the quantity handled and the high per cent of values it saved. The machine has demonstrated that it will handle better than 200 tons of sand per day and will save better than 80 per cent of the values therein contained. The simplicity of the machine adds greatly to its value, as it only requires the labor of three men to run it, which lowers the operating expenses to less than ten cents per ton.

It is understood Mr. Peters and associates will establish one of the machines at Rogue River.

### MONEY EASY

F. E. Conway is closing a number of first mortgage loans on improved ranches for long periods of time at 8 per cent in different parts of the county. He has unlimited funds on hand for immediate loaning.

Wheat, \$2.10. Haines.

### RECEIPTS AND EXPENDITURES CHAMBER OF COMMERCE

Treasurer J. H. Flanagan Makes Annual Report—\$4,107.55 Taken in During 1915 Shown

Receipts of the Marshfield Chamber of Commerce exceeded the disbursements by \$8.97 in 1915, according to the annual report of J. H. Flanagan, treasurer, at the meeting of the organization last evening. However, this does not include the salary of the secretary for December, an item of \$75, nor about \$140 due on printing not yet completed, though there is still \$80 outstanding and collectable, said Secretary J. W. Motley.

January 1, 1915 there was a cash balance on hand of \$452. The sum of \$2561 was received on subscriptions during the year, and this, added to other receipts amounted to \$4,107.55.

Among the items in the expenditure column were \$1606.45 for booklets, \$825 for salary of the secretary and office rent of \$360 and the entire sum of expenditures was \$4,098.85.

### TRANSFER INCLUDES SURVEY IN CALIFORNIA

Willamette-Pacific Deeds Indicate Line Will Extend On Down The Coast

The transfer of the Willamette-Pacific railroad property to the Southern-Pacific also include rights of way in Del Norte county, California, and in southern Oregon as well as the Coos Bay-Eugene line, according to the Weekly Trinity Journal, of Weaverville, Trinity county, Cal. The deeds of transfer were dated July 1, 1915, but have just been filed for record with the county clerk of Trinity county. The fact that the rights of way south of Coos Bay are included would lead to the belief that the intention is to extend the railroad on down the coast to connect at Eureka.

The deeds filed state that the consideration is \$100,000. Owing to the fact that the Southern Pacific was known to have owned the Willamette-Pacific the transfer is important merely in the light of reorganization.

The Trinity county paper says: "The property of the Willamette-Pacific in this county consists of rights of way along the line which has been surveyed north of Trinidad. Rights of way in Del Norte county and in Southern Oregon, as well as the Coos Bay-Eugene line now being built, are covered in the transfer."

### ARRESTS VIOLATORS OF THE GAME LAWS

Deputy Warden Adams in Curry County Has Three Men Fined

Several arrests for violation of the game laws were made in Curry county according to the following from the Gold Beach Globe:

Deputy State Game Warden John Adams, arrested C. H. Walsworth for having deer meat in his possession. N. Walsworth for having mutilated hides in his possession, and M. Mouser for trapping without a license.

The trio was brought in and Friday they were given a hearing before Justice of the Peace Stafford. C. H. Walsworth entered a plea of guilty and was fined \$25.00 which he paid. N. Walsworth entered a plea of guilty and was fined \$50.00 and the fine remitted. M. Mouser plead not guilty and the hearing set for Monday. Technicalities in the papers caused the second postponement until today.

### FIGHT TO BE CARRIED TO SAN FRANCISCO

W. S. Chandler and L. J. Simpson Asked to Interview S. P. Officials About Terminal Rates

L. J. Simpson and W. S. Chandler will be the emissaries of Coos Bay before the officials of the Southern Pacific in San Francisco in an effort to secure terminal rates. That is, they will be as concerned for a resolution was adopted at the meeting last night of these men to put forth their efforts in securing these rates at Coos Bay.

According to the report from back from Portland by L. J. Simpson, any hopes for these rates to come from San Francisco, the officials there, it seems, must be the first move toward giving up here. According to the routine office of the south secures the opinion of the Oregon officials before making any decision in the granting.

It is to get the first move made that these representatives will be asked to call on the San Francisco officials of the Southern Pacific and get them busy.

Should the railroad turn down the matter of rates, the only thing remaining for Coos Bay to do would be to present the facts and figures of exportation from here and the available products of this vicinity before the Interstate Commerce in Washington, an expensive procedure.

But the members of the Port Commission have been considering the matter and they declare that the Southern Pacific is unwilling to grant the rates the fight will be carried through to Washington and they feel confident that they will be able to get terminal rates for Coos Bay.

### COQUILLE RIVER COWS MAKE GOOD SHOWING

Testing Associations in that Quarter Indicate Good Milk Production of the Herds

Further figures regarding the testing associations of the Coos Bay herds have been made public. The Coquille Valley Testing Association of which H. B. Warner is the taster in charge, has a total of 675 cows out of this number 524 were tested in the full year. The average production per cow was 250.8 pounds of butter fat. The average cost of feed was \$33.51 and the average returns \$47.13. The best cow in the association was owned by M. G. Mohl and produced 485 pounds of butter fat. The cost of feed was \$31.05 and the net returns \$16.08.

The cow milked 297 days in the year. The Bandon and Lower Coquille River Association, of which G. E. Johnson is the taster in charge, has 550 cows and of these 380 were tested through the entire year. The average production of the 380 cows was 238.7 pounds of butter fat, the average cost for feed \$24.85 and the net returns \$57.86.

The best records made by any cow in the association, in fact the best record made in the county, was a production of 560 pounds of butter fat. The cow is Pacific Laura owned by J. Van Leuven of Bandon.

### MEN WERE SAFE

The following is from the Gold Beach Globe:

Grave fears were entertained here last week for the safety of Stanley and Ernest Frye, who left Grant Pass in a row boat for Gold Beach. Several days elapsed after they had started before they were heard from but Sunday evening all fears were dispelled when Stanley called his wife to the telephone from Agnes

WE HAVE JUST RECEIVED FROM JOHN LEE CLARKE, ALBUQUERQUE, NEW MEXICO,

## A Delayed Shipment of Guaranteed Genuine NAVAJO INDIAN RUGS

These were intended for the Christmas and Holiday trade, but arriving too late we have placed them in our window at very attractive prices.

This is an exceptional opportunity to secure one of these rare productions in Rugs at exactly the same prices you would pay in Albuquerque.

It will pay you to make a trip to the store, even if you do not wish to buy, as the exhibit alone is well worth seeing. It is one of the largest collections of Genuine Navajo Indian Rugs ever shown in Coos County.
