PURCHASE OF TELEPHONE LINE IS STILL PENDING

Stockholders of Farmers' Company Authorize Directors to Continue With the Negotiations.

The proposed purchase of the Coquille Valley farmers telephone line by the Coos and Curry Telephone Company is still pending. The stockholders of the farmers' line met yesterday and decided by a vote of about two to one, to authorize the directors to go ahead with negotiations and make a sale if satisfactory arrangements can be made.

This leaves the matter up to the directors of the farmers' line and if a satisfactory price can be agreed upon it is likely that the Coos and Curry Company will take over the

other line. The matter however, is still pending.

HEAVY SWELL ROLLING

Adeline Smith Has a Rough Voyage From South

Captain B. W. Olson, of the Adeline Smith, arrived here this morning from San Francisco after a tempestuous voyage in which the vessel had a hard time of it in a heavy westerly swell and gale. He arrived off the bar about seven o'clock last night but found the bar breaking too much to cross in until about 4 a. m. today.

On the trip south the Adeline bucked into a heavy sou'wester that delayed them 15 hours in getting into San Francisco. The Adeline leaves tomorrow about 2 p. m. for Oakland.

CAUGHT IN SAND

C. W. CUMBERS AND P. CIMINO HAVE THRILLING EXPERIENCE

Mail Carriers Rig and Team in Precarious Position—Has To Walk Long Distance

C. W. Cumbers, Coos Bay representative of the Standard Oil Company, has just returned from Ten Mile and on route had a rather harrowing experience. In the absence of other means of regular stage, he arranged to ride with P. Cimino, the mail carrier. In the storm, they got slightly off the regular road and the first thing they knew, the team was floundering in the quicksand. The heavy load made it impossible for the team to make headway and as the horses floundered, they became more deeply enmeshed in the quicksand.

Measts, Cimino and Cumbers had Libby Coal, \$5.00 ton. Phone 72.

Extreme difficulty in unhitching the horses from the rig but after they were loosened, the animals were soon gotten out of the treacherous quicksand.

The heavy storm was still prevailing and as it was dubious when the rig could be hauled out to solid ground, Mr. Cumbers started afoot and had to trudge about five miles through the mud and storm to reach the North Inlet boat landing.
