### SMOKER ENJOYED DEBATE'S CHOSEN

#### MILICOMA CLUB MEMBERS SMOKE AND TALK BUSINESS

Monthly Dues Are Reduced—Plan to Turn Over to Women One Day or Evening a Week.

Forty members of the Millicoma club last night, literally speaking, toasted their feet on the hearth of the club. The occasion was a smoker at which the plans for the coming year were discussed. Among the recommendations was one that for the time being the monthly dues shall be reduced from \$2.50 to \$1.50 a month.

Also the rate of \$10 stock purchase, an entrance requirement of the club, will be continued, decided the members. Until lately this has been up to \$35.

There are now about 70 active members of the club and this number is to be increased.

An innovation it was suggested and probably will be carried out, that the wives of members, be allowed the use of the club rooms one afternoon or evening a week. It was suggested that the club be turned over for meetings or any other sort of gatherings they may wish.

During the evening there were several musical numbers. A quartet composed of Ackles, Preston, Henning and Landies sang songs and there were solos by A. Landies and Herbert Buserud, who were accompanied on the piano by Mrs. Anthony.

#### CENTRAL POWERS FORCES ON GREEK FRONTIER

(By Associated Press to Coos Bay Times.)

MILAN, Feb. 8.—A dispatch from Athens says French aviators report the continued concentration of the adversary forces on the Greek frontier. German reinforcements are advancing from Uskup to the northwest of Givogev. Fresh German regiments arrived at Monastir and Austrian forces are concentrating around Tehevikovo. The Bulgarian division left Kustendil, going southward.

#### ALEX BRANDT AND MURLIN CHAPELLE VICTORIOUS

Are Selected Out of Four North Bend Debaters Who Won County Championship Last Week

Alex Brandt, of the affirmative, and Murlin Chapelle, of the negative, were last night selected from the high school to represent in SHHR four debaters of the North Bend high school to represent North Bend at the district debating meet to be held in Astoria. The winners of this contest will, in May, meet the debaters of the state at the University of Oregon for the championship of the state.

The two men were selected by 11 judges. Randall Jones and Horace Byler were the other two contestants. Inasmuch as the four young men represent the two debating teams of North Bend and only two could be selected from the district meet, it was necessary that all of them contest for the two places.

Considerable interest was evidenced in the debate by the students of the high school. The new Joy Theatre was secured for the occasion. There was a good attendance and Principal Grubbs said this morning that about \$35 was cleared by the students. The receipts were divided between the school and the theatre manager.

The 11 judges were L. J. Simpson, C. S. Winsor, C. A. Smith, Dr. Ira Bartle, J. G. Horn, Mrs. Norma Chase Hutchins, J. G. Mullen, Melvin Johnson, J. C. Clark, Harry Conroy and P. R. Swearingen.

During the evening there was music by the high school orchestra and a chorus trained and led by Mrs. Coe.

#### CHINESE TROOPS RECAPTURE CITY

(By Associated Press to Coos Bay Times.)

PEKIN, Feb. 8.—The government has announced that its troops recaptured Ping Shan, in Sze Chuen province, and a general attack upon the rebels at Su Fu is imminent.

#### WILL SECURE FISH QUESTION SETTLED

FISHERMEN WOULD START TEN MILE HATCHERY THIS WEEK

Part of Necessary Funds to be Raised by Subscription—To Turn 100,000 Loose in June

One hundred thousand fish to be turned loose by June in the waters of Ten Mile lake are practically assured. A meeting of the Fish and Game committee of the Chamber of Commerce will be held this afternoon to put the final touches on the campaign that will be waged to raise the necessary funds.

Frank Horton, of the committee, this morning stated it will take very close to \$400 to secure the fish and keep them until June when it is expected they will be large enough for turning loose on their own "hook".

Of this sum \$15 for six months has been pledged in Lakeside and another \$10 a month from the local Chamber of Commerce. This is \$150 and the remainder in all probability will be made up by popular subscription among the interested fishermen. It will take approximately \$75 to put up the necessary building and also it will cost \$50 a month to keep a man in charge of the fish.

Already there is a private hatchery on Ten Mile, the owner of which will put in some 50,000 small fish and the other 50,000 will come from the state hatcheries in the north.

Work must be started this week on the building, said Mr. Horton. That the fish may be large enough in June to be turned loose it is absolutely necessary that they be given the proper care right now.

#### MANY WATER CLAIMS HAVE BEEN FILED ON

State Engineer Gives List of Water Rights Initiated for Development in Oregon

According to claims filed with State Engineer Lewis for the year 1916, rights have been initiated for the development of 456,410 horsepower. In many instances these claims represent rights to develop power but which have not, as yet, been actually developed. Of the total 219 claims have been filed covering development, or proposed development ranging in size from 1 horsepower to 136,363 horsepower, the latter being the claim of the Portland Railway, Light and Power Company, covering its rights on the Willamette River at Oregon City.

Clackamas County leads in the number of horsepower for which claims are filed, having 349,716 horsepower. The only counties in the state in which no claims for power have been filed are Clatsop, Gilliam and Wheeler. The number of horsepower claimed in each county is as follows:

Coos	10
Curry	29
Douglas	7,927
Lane	892
Jackson	14,498

#### ASKS FOR HELP

Navy Department Looking Into Lost Code Book

(By Associated Press to Coos Bay Times.) WASHINGTON, D. C., Feb. 8.—The navy department has asked the department of justice to help discover how the battle code book was lost from the destroyer Hull of the Pacific fleet.

#### LOGGERS PAY CITY \$1,000 AND CONTINUE OPERATIONS

Will Run Trucks Out Broadway Instead of Front Street on Temporary Planking

McDonald and Condon's proposition, submitted to the city council last evening, was accepted, and logging of the tract in west Marshfield is to be continued. In brief, the logging trucks are to travel out Broadway instead of Front street, special planking will be laid for the vehicles which shall have eight instead of four wheels. Also \$1,000 is to be paid into the city's treasury, as an addition to the \$400 already put there by the logging company, for the purpose of repairing the damages the logging trucks have done to the paving.

Willing to Compromise There was spirit of compromise evident on both sides and it was agreed that the settlement made was easier and cheaper than an adjustment that might be secured by taking the matter through the courts.

"And you understand," said Duncan Ferguson Sr., at the conclusion of the meeting, "that we expect you (meaning McDonald and Condon) to pay for any further damages that may be done to the paving of the city."

"Yes, we understand you want us to keep digging," was the rejoinder of Walter Condon. To Be No More Damage But the matter was of easy solution to Jack McDonald. "There isn't going to be any further damage," he replied. "We intend to protect the streets and we will." He explained that by using the trucks with four wheels on each end the strain would be greatly relieved and there would be considerably less danger of injuring the paving.

At the opening of the meeting that was called especially to consider the logging matter, Mr. McDonald stated the proposition of the company. He said the \$1,000 could not be paid in hard cash at this time, but that they would give their note, endorsed by the Simpson Lumber company. Have 60 Days On Note The final agreement in this respect, and it was unanimous with the council, was that the money could not be used for repairs for several weeks yet, because of the condition of the weather, and that therefore the company should be allowed 60 days in which to make the payment of the \$1,000.

A demand note was at first wanted by the council. Jack McDonald pointed out the Simpson Lumber company had asked him to get as much time as possible in which to make the payment. The granting of the note was the cause of considerable and lengthy discussion on both sides. "To make the note legal," declared City Attorney Brand, "there must be some legal consideration." Someone said the city should pay the company \$1 as a consideration, but the attorney in turn pointed out that in Oregon this procedure has often been held invalid.

Explains The Law "I haven't the slightest idea that the note will not be paid," said Mr. Brand, "but I want you gentlemen to know exactly what the law is on the matter." "We said we'd pay it and we're going to," put in Jack McDonald. The final agreement was that the city should absolve the logging com-

pany for all further liability for street damages already done when the latter paid over the \$1,000. J. T. Brand, attorney for the city, and Tom T. Bennett, attorney for McDonald and Condon, will arrange the note matter.

To Lay Temporary Planking Over the planking on Broadway, temporary planking will be laid lengthwise for the trucks, and any of the timber along the street that may be broken by the loggers will be replaced by them.

The repairing of the broken paving will be started as soon as the weather will permit.

Ed Steele, dripping wet almost to the waist, appeared before the council to suggest that red danger light be placed at the corner of Golden and Fourth streets. The sewers there have been unable to carry off the rain waters that had backed into the street about a foot deep. Steele, aboard a motorcycle, had suddenly run into this pond in the dark.

Using Eight Wheels

City Engineer A. B. Gidley said today that if the logging company uses eight wheels on a vehicle, the same is as though they were using two separate trucks and a total of 10 tons, at the rate of five tons to each four wheels could be allowed. He said this will mean no more strain on the street than would two trailers, each trailer carrying loads of five tons, the limit allowed by the ordinance.

This being the case, by the use of eight wheels, the logging company has accomplished what it was fined for doing with four wheels. City Attorney Brand stated his idea of the matter coincides with that of Mr. Gidley and that the arrangement provides adequately for the protection of the streets.

#### IOWA FURTHERING ALBERT B. CUMMINGS

As Candidate for Republican Nomination for President is Being Advocated by the State.

DES MOINES, Ia., Feb. 8.—Iowa is putting forward Albert B. Cummings as candidate for the republican nomination for president. He is referred to as carpenter, lawyer, legislator, governor and United States senator. The Cummings committee of this city in setting forth the candidates qualifications, says: "Mr. Cummings came to prominence as a lawyer by winning, practically single handed and against enormous odds, a notable court victory that broke an oppressive monopoly, reduced the price of barbed wire more than half and saved millions of dollars each year to the American farmers.

"Thus early he was the champion of the rights of the many.

"Mr. Cummings at great personal sacrifice responded to the call of the home folks to help restore to them the power to assert and protect their rights through needed political reforms. Was for seven years governor of Iowa and as such he banished the seductive free pass and the boss-ridden caucus, put the corrupting lobby to rout, and gave to the citizenship of his own state political equality under the primary system and allied reforms.

"Thus he earned the gratitude of all men who love free political institutions."

#### DR. H. E. KELTY BUYS OVERLAND

WELL KNOWN MARSHFIELD DENTIST PURCHASES MODEL 83 FROM I. R. TOWER TODAY—MAKES THIRD OVERLAND CAR FOR HIM

Dr. H. E. Kelty, the prominent Marshfield dentist today received a new Model 83 Overland from Isaac R. Tower, agent for the popular Overland in Southwestern Oregon.

This makes the third Overland car that Dr. Kelty has owned. He says that both of his previous Overland models gave such absolute satisfaction, that he could not conscientiously purchase another make of car. In addition to the absolute reliability and satisfaction that the Overland has always given its owners, the new Model 83 has combined every feature of an up-to-date automobile at a price so low that it must appeal to every man considering the purchase of a car.

The Overland 83 is an exceptionally roomy and comfortable car, electric lighted and self started and is one of the most beautiful cars on the market today.

The remarkable value of the Overland 83 is made possible only on account of the immense production of the Willlys-Overland Co., which is the largest producer in the world of cars measuring over 100-inch wheel base.

Over 1,000 Overlands are being produced in the big factory daily.

Gets More Cars

I. R. Tower, who is determined to give southwestern Oregon people every advantage in the auto market, expects to soon have a new Model 75 Overland here for demonstration purposes. The Model 75 Overland can be delivered in Marshfield for \$715 and it is declared to be the greatest value in this type of car that the 1916 season has brought fourth. On account of the extraordinary demand, it is very difficult to secure delivery on the Model 75, but Mr. Tower anticipated this and placed his order early in the season.

Mr. Tower says that you simply have not to see the Model 75 to appreciate the remarkable value and advantage in the car.

#### FOLLOWING SMALL

Report that Only Twenty-five Men Are With Him

(By Associated Press to Coos Bay Times.)

EL PASO, Texas, Feb. 8.—Villa, with about 25 men, is on the defensive in the Nidos Canyon of the Santa Clara ranch, according to official advice received at military quarters in Juarez.

#### DEMAND NOT FILLABLE

Backbone Is Chartered at High Rate Year Ahead of Time—Boats Bring Fortunes Now.

Indication of the heavy demand now being made for vessels is shown by the fact that the barkentine Georgiana has been chartered by Comya, Mackall & Co. in Portland, for January, 1917, an entire year ahead of time.

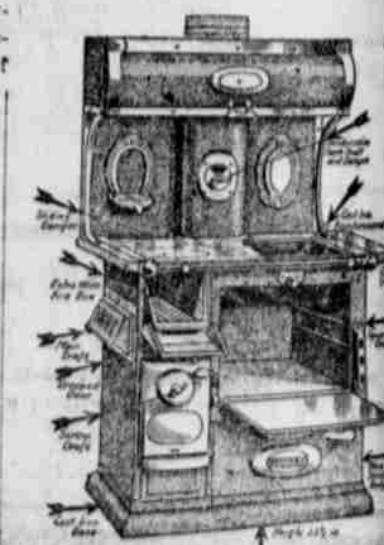

The vessel is now in the Antipodes with a lumber cargo. The rate for 1917 is said to be about \$25 a ton for Australia from some north Pacific port.

Any sort of a vessel that can float is charterable and can easily secure a charter and cargo. In fact, it was stated recently that some of the old hulks that have been lying in the mud of Oakland creek for years have been hauled out, painted and sent to sea. Some of them limped back into port after getting only as far as the Golden Gate. The owners figure a voyage or two will net them enough to buy new boats.

Toxic lenses properly fitted. See Birch.
