

TO CHECK WASTE

GOVERNMENT LOOKS INTO LOSS IN LUMBER BUSINESS

Seeks To Find Way to Save in By-products—Interesting Facts on Subject Published

WASHINGTON, D. C., Feb. 16.—Waste in the logging industry in the United States amounts to 15 to 20 per cent of the timber cut, or about a billion and a half cubic feet of wood annually. Sawmill waste also amounts to several billion cubic feet of wood, although not all of it is absolutely waste. A bulletin on the subject of lumber by-products just issued by the Bureau of Foreign and Domestic Commerce, Department of Commerce, makes the claim that only 320 feet of lumber is used for each 1,000 feet that stood in the forest. It was the prodigious waste of American forest resources that led the Bureau of Foreign and Domestic Commerce to plan a thorough study of the methods of utilizing the waste products of the lumber industry, here in the United States and in those European countries that have made the most progress in this line. The plan was to have the American industry profit as much as possible by the hard-earned experience of the older countries.

Unfortunately the war upset the plan completely, and there is no immediate prospect of making the proposed investigation. But as the Bureau had already engaged Prof. H. K. Benson, a well-known authority on the subject, it was decided to go ahead and make a study of the industry in this country.

Some of the Uses

There is in the bulletin a complete review of the wood-distillation industries, the manufacture of tannin extract, the manufacture of the various kinds of wood pulp used in the paper industry, the production of ethyl alcohol from sawdust, the manufacture of producer gas, and a number of other minor products. The extent to which these industries are carried on is outlined, and in cases where an industry is not prospering a discussion of the causes for such a condition is given. Import and export statistics are included when available.

The annual production of wood pulp in the United States is valued at over \$80,000,000. Sulphite-pulp makers are considerably interested in the possible utilization of the sulphite waste liquor for the recovery of sulphur or other profitable utilization. This would result in a lowering of the cost of sulphite pulp. The manufacture of kraft pulp is also becoming well established, and is bringing about the utilization of cheaper wood.

The utilization of wood for the minor processes described in this report is not extensive.

HAVE TEN DELEGATES

SALEM, Or., Feb. 16.—Formal notice that Oregon is entitled to ten delegates to the Democratic convention, which meets at St. Louis, Mo., June 14 next, was received by Secretary of State Olcott. The communication is addressed to the "Democrats of the United States" and is signed by William F. McCombs, chairman of the Democratic National Committee.

After announcing the date and place where the convention will be held, Mr. McCombs explains the basis upon which the number of delegates from each state shall be determined.

RAILROAD READY SOON

ROSEBURG, Ore., Feb. 16.—The Oswego, Dallas & Roseburg railroad, which will extend from Carnes, on the main line of the Southern Pacific, to the quarries of the Portland Cement company, will be ready for operation by May 1, according to an announcement made by officials of the company here. One hundred men are now at work grading the road preparatory to laying the rails. As soon as the line is completed, the lumber will be shipped to Oswego for treatment.

Remove Waste Matter That Causes Sickness

"I cheerfully recommend Foley Cathartic Tablets to any one suffering with constipation or biliousness." George Jenner, 416 Labor St., San Antonio, Texas.

When the bowels are clogged with a mass of poisonous waste, biliousness, sick headache, sour stomach, bloating gases, and general discomfort result. A wholesome and thoroughly cleansing cathartic that will move off the congested mass without griping or nausea is Foley Cathartic Tablets. Take them at bed time, and the next morning you will find a grateful relief, without any discomfort, headache or unpleasant after effects.

They keep the liver healthily active, promote digestion, and shut out headaches and biliousness. Ask your druggist.

ARMY IS DEFEATED

YOUNG RIOT IS STAGED LAST NIGHT AT MCORMAC'S BOOM

Police Are Called But Can Not Go—'Dirty Dozen' Meets Two of Enemy and Retreats

Police were called last evening to quell a young riot out at McCormac's Log Boom where a group of boys, said to have been from Bunker Hill and styling themselves "The Dirty Dozen," had gone to wreak vengeance on a couple of enemies. Inasmuch as the trouble was far out of town the police were unable to respond. The boys fought it out, with the result that the army of two vanquished the visiting brigade, naming a couple of them home with black eyes, so the story goes.

The "Dirty Dozen" marched south in battle array and Mrs. Gramby, who lives at the boom, said that her son, Homer, and also Ray Fuller were summoned to colors and invited out to take their "medicine."

Objection was made to the two boys fighting the dozen. A compromise was made and the two started taking on the visitors one at a time. There was a grand melee and the "Dirty Dozen" turned and fled, with drooping colors.

It is said the boys, who are between 14 and 20 years of age, have had trouble previous to this and decided the best way to do was to fight it out.

JAPANESE SHIPPERS FORM REALTY COMPANY

(By Associated Press to Coos Bay Times.)

PEKIN, Feb. 16.—It has been announced that President Asano of the Toyen Kisen Kaisha, which operates steamers between San Francisco and the Orient, and President Watanabe of the Watanabe bank, in Yokohama, together with several other Japanese business men, have organized a realty company with a capitalization of one million and five hundred thousand yen to deal in land and buildings at Tsing-tau. This step is regarded as an indication that the Japanese have no intention of withdrawing from Tsing-tau in the near future.

PRAIRIE CITY—The first mail received in the John Day valley since Jan. 31 has been brought through.

Want advertising sells the no-longer-wanted things.

SEEMS LIKE DREAM

LETTER TELLS OF \$100,000 AT 4 PER CENT ON LOCAL LOANS

May Be First Definite Signs of Returning Good Times—Many Say It's Too Good to Be True.

Reports from the east of the good business and prosperity that is supposed to be spreading to the west have been frequent here. In fact they have become so frequent as to draw forth very little comment. But yesterday there was a bit of actual prosperity news that sifted toward Coos Bay. A local business man received a letter from a Spokane concern to the effect that it would like to loan out \$100,000 here at four per cent.

"Can't be so," insisted one man. "Dream," said another. But it is an actual fact.

The letter further elucidated to the effect that money is becoming plentiful in the west and ways and means of making investments are in demand.

An arrival recently from Spokane stated that some of the banks there are finding it difficult to place in loans the ever increasing deposits being received.

The prevailing rates of interest on Coos Bay now range from 8 to 10 per cent with the latter mark generally the stronger. Providing the above mentioned amount of money comes flooding into the local market the chances seem pretty good that rates will rapidly decline.

PLAN FESTIVAL

Roseburg to Hold Strawberry Show During Month of May

ROSEBURG, Or., Feb. 16.—Roseburg will hold its annual Strawberry Carnival this year, according to an agreement reached by the business men. The carnival will be held on Thursday and Friday, following the convention of the Oddfellows and Rebekahs of Oregon here May 16, 17 and 18.

A mass meeting of citizens will be held soon when details for the event will be worked out. The strawberry carnival has become a permanent event in Roseburg and there was much opposition to abandoning it at this time.

LETTERS GET RESULTS

Eugene Banker Gets Replies to Those Sent Out

EUGENE, Or., Feb. 16.—C. D. Rorer, president of the Eugene Chamber of Commerce and president of the Bank of Commerce, has received a reply to every letter written by him to bankers in all parts of the country Letter-Writing week. He invited these bankers to spend their vacations in Oregon. All who answered expressed a desire to visit the Pacific coast.

JOINING MILITIA

PORTLAND, Ore., Feb. 16.—Fifty-nine men, enough to form an entirely new company, have been added to the different organizations of the Oregon National Guard during the past week. That number includes recruits added to organizations throughout the entire state.

- Lecture and social evening in North Bend Methodist church.
- Ladies Art Club with Mrs. A. L. Houseworth.

When You Buy Your Car REMEMBER!

IF YOU HAVE NEVER HAD AN AUTOMOBILE YOU PROBABLY DO NOT REALIZE THAT THERE ARE CONSIDERATIONS SO MUCH MORE IMPORTANT THAN THE FIRST COST AND A LIST OF SPECIFICATIONS THAT THESE TWO THINGS SHOULD BE CONSIDERED LAST.

IF SOMEONE GAVE YOU A BIG \$5,000 CAR FOR \$1.00 UNLESS YOU HAD A LARGE INCOME IT WOULD BE WORTHLESS TO YOU BECAUSE THE EXPENSE OF OPERATION AND UPKEEP WOULD BE SO GREAT YOU COULD NOT AFFORD TO RUN IT.

IF YOU BOUGHT A REALLY GOOD CAR AND COULD NOT BUY SUCH REPAIR PARTS AS YOU NEEDED WITHOUT SENDING EAST FOR THEM AND THEN YOU HAD TO WAIT A MONTH IN THE SUMMER BEFORE BEING ABLE TO RUN YOUR CAR IN THE SEASON YOU HAD MOST USE FOR IT, YOU WOULD REALIZE THAT YOU HAD MADE A MISTAKE.

When you buy your car forget the first cost and get down to basic facts. What you want to know is how much it will cost to run your car every day. Will your service be interrupted because you can get repair parts quickly and cheaply in case of an accident? Profit by the experience of others. Study the example of efficiency before your eyes every day in the Gorst & King auto line. We can assure you that the last consideration in Gorst & King's minds when they purchased the Ford cars was the first cost. They have a garage full of high priced cars that are not operating while the service-giving Fords are carrying nine passengers and traveling 90 miles every day.

Remember that service is not hot air. This year there will be a stock of Ford parts in Marshfield, North Bend, Coquille, Bandon and Gold Beach and if you go on a tour you will find them in practically every town in the country and the price of parts so low that you cannot afford to tinker with a worn part on any part of your car. This is the type of service impossible to find in any other car on account of the yearly changes and the comparatively few cars of any other type in any particular locality. We have in Marshfield today a \$2,000 stock of Ford parts for you to draw on. This is probably easily three times as large a stock of repair parts as that carried in Coos county for all other makes of cars combined.

When you buy a Ford you are not taking a chance. The cost of operation, the satisfaction, the power, the service, are not claims but proved facts which you can find out yourself.

Every Ford owner is a Ford booster and there are a million of them who will give you the facts. If you want the real "dope" talk to any experienced automobile user who has ever tried Fords and see what he says.

Ford Touring Cars, \$525; Roadsters, \$475, delivered in Marshfield
These prices are made possible only by immense production and represent greater value dollar for dollar than any car in the world.
