

That Camel blend turns the trick!

Get the new flavor and new satisfaction the blending of choice Turkish and choice Domestic tobaccos provides in Camel Cigarettes. You'll prefer that blend to either kind smoked straight! Prove this to yourself by comparing Camels with any cigarette at any price!

Smoke Camels to your heart's content because they are freed from tongue-bite and throat-parch; because they leave no unpleasant cigarette after-taste. Quality is so apparent in each puff, smokers do not look for or expect premiums or coupons.

That new mellow-mildness, that new "body" puts an entirely new idea of cigarette satisfaction into your mind!

The stamp placed over and seals the package, which keeps out air, thereby preserving the quality of the blend. By inserting the fingers as illustrated, the stamp is broken without tearing the tin foil, which folds back into its place.

Camel Cigarettes

Camels are sold everywhere in scientifically sealed packages, 20 for 10c; or ten packages (200 cigarettes) in a glassine-paper-covered carton for \$1.00. We strongly recommend this carton for the home or office supply or when you travel.

Trouble Over Claims Against Seaborg Cannery

It appears that there is some difficulty about the payment of claims against the Seaborg Cannery on Rogue river according to the following from the Gold Beach Globe:

"Patience has ceased to be a virtue with the many people in this vicinity that held I. O. U. paper of the Seaborg Canning Co. More than a dozen people who worked had, for what is due them from that concern, sued and attached.

"There are three individual suits filed and one wherein eleven claims are joined. This is only a repetition of what has happened in this locality on several former occasions during the reign of E. B. Barns and other similar 'flashes in the pan.' The only thing strange about this case is that it is a wonder that the crash didn't come months ago, as there are men here that work for the company from the start that has not been paid only a few dollars at a time and very few times at that. It is to be hoped, however, that the matter can be adjusted in such a way that all the men will receive every cent that is due them.

SIUSLAW SUFFERS

Storm Did Damage There and Mails Delayed

FLORENCE, Ore., Feb. 16.—After a delay of five days the first mail has been brought through to the anxious citizens of Florence who had been cut off from the world by high water.

The Siuslaw river has fallen almost to its normal stage after the worst flood in 25 years. At Mapleton the water rose to a depth of 12 inches in one of the general stores, and the river left a deposit of mud on the floors of several of the residences. Three buildings were carried downstream, and logs came from all the tributaries of the Siuslaw, forming an immense jam above the new Southern Pacific bridge at Cushman.

FINDS NEW OUTLET

Lake Near Port Orford Is Effected By Storm.

The strange actions of a lake during the storm is told in the following from the Port Orford Tribune:

Garrison lake, about a mile north of town, broke out during the heavy storm Sunday. Heavy rains had raised it to unusual heights and the immense volume of water swept a channel through the sands that would have made a creditable outlet for a good sized river. Monday, sea lions could be seen in the surf feeding on the small fish that had been carried to sea. The old outlet of the lake around the bluff has been completely blocked for the past year or two, so the lake cannot rid itself of its overflow until it rises sufficiently to break through the soft sand between it and the ocean, which channel, after the lake has emptied itself is filled again by the action of the surf.

CATTLE LOSSES BIG.

Reports That Many Have Died Near Myrtle Point.

The report comes from Myrtle Point that a great many cattle have suffered death from the recent cold weather on the Dement range, several miles south of Myrtle Point. Five men were sent out to the range one day last week, armed with axes and knives. The axes were used to chop down the brush and make trails for the stock to get to shelter, and the knives were used for the purpose of skinning the animals which had perished from the cold.

They were uncertain whether she was really insane or only perverse. She is making a great deal of trouble there. —Coquille Sentinel.

The house was formerly occupied in summer by Bishop Scadding of the Episcopal church but has been used by local parties since the death of the bishop.
