SHIMIAN—Born to Rev. and Mrs. L. S. Shimian, of Coquille, at Mercy hospital, Feb. 17, a 12 3-4 pound daughter. This is their first child. Mr. Shimian was formerly pastor of the Presbyterian church at North Bend.

No Arrests Made—Since January first no arrests have been made by the police in North Bend.

Will Not Close—Washington's birthday will not be observed as a holiday in the Marshfield schools. On that day exercises will be held but the schools will not be closed.

Boys to Meet—At 7:30 this evening in the Guild Hall there is to be a meeting of all boys between the ages of 10 and 16 years who are interested in the creating of a playground center. The meeting will be in charge of the members of the Progress Club.

Up Go the Drugs Again—D. I. McGee, of the firm of Langley and Michaels, writes to Frank Cohan from Eureka to tell of a further jump in drug prices because of the war that is cutting off the source of supply. Citric acid is up and mercury is soaring and becoming so scarce that it is now hardly obtainable on the market. Also he says that there is to be a jump in the price of all sorts of bottles.

Back at Work—According to word from Eugene, J. W. Buis, foreman of the Western Union telegraph crew, has returned to Gardiner where the men are again at their construction work.

Recovers Hat—While out on an

automobile ride the other day a gust of wind blew off J. S. Boyd's fine new Stetson hat. By the time the auto returned the hat was gone. It was found by C. I. Reigard who brought it to The Times office. And a found advertisement in The Times quickly found the owner. Times want to get results because everyone on Coos Bay reads The Times.

Finds Big Pay Roll—Ed Tracey writes from Victoria, B. C., to Billy Cox here telling of conditions there. He says that, at present there are many soldiers being trained in the city and the payroll spent amounts to about \$90,000 a month. There are soldiers everywhere. Conditions there are rather quiet now but they are expected to pick up considerably this spring. Tracey formerly drove a truck here for McDonald & Condon and is now driving a truck in Victoria.

Appointed Registrar—Justice C. L. Pennock is in receipt of an order from the county clerk making him an official registrar for the precincts of 14, 24, 25 and 27, including Pony Slough, Newport, Bunker Hill and Coos River. J. T. Brand is official registrar for the other precincts of this vicinity. April 18 is the latest date for registration under the new permanent voter law.

Goes to Training School—William Smith, 16 year old son of Mr. and Mrs. S. L. Smith, of Bunker Hill, was today given a hearing before Judge Watson and committed to the state training school at Salem as soon as the institution will be able to receive him. The school is now full. Both the father and mother of the boy broke down when they testified on the stand. Both of them thought it best that he be sent away. The said they could do little with him and that in Salem he could be taught a trade.

Cannery Meeting Tomorrow—There was considerable interest being shown today in the cannery meeting that is called for tomorrow morning at 10:30 at the Chamber of Commerce. Many of the farmers were informed of the meeting via the telephone today and promised to attend. On the stage this evening J. O. Holt, of Eugene, and Dr. McPherson, of O. A. C., are expected to arrive. They will speak tomorrow, giving advice as to the best means of going about the establishment of a cannery.

Money Is Paid—Wages to the amount of \$225 held by the Coos and Curry County Exhibit committee from J. A. Ward under a garnishment by his creditors has been paid to Mr. Ward on the action of J. P. Brenn, trustee. Mr. Ward went into bankruptcy a short time ago. Judge Sehlbrede, of the bankruptcy court, has also issued an order in favor of J. A. Ward for \$75 claimed as exemptions.

fences were torn away, a shed and barn or two were damaged besides other things, and the first burst of optimism came from a farmer who today declared that the flood had brought down enough sediment to fill in between the banks and the bulkheading on his place. The piling had been driven a few feet from the edge of the bank and now this is filled in, giving him more land on his farm, an exchange, for many of the farmers upstream lost little corners of their acreage.

Boys Inspect Bank—Superintendent Tiedgen of the local schools yesterday afternoon took a group of 30 or 40 boys of the grades to the Scandinavian-American bank. There they were shown the way a bank works, at least the parts they could understand, and R. Bugge, cashier, explained to them exactly how money is taken in by the bankers, how it is used and the way it gets into other channels of circulation. The boys were very interested. In this way they are given a practical insight into the business along with their work in the classroom. Other classes of the high school visited the First National Bank and the Flanagan & Bennett Bank. Two classes were this afternoon visiting the two banks.
