## WOULD TRAVEL FAR GREEK MET GREEK

### ARGENTINE BUG BITES MANY LOCAL MEN OF LATE

Fred Barnard Received Offer to Homestead There for Big Meat Packing Company

Spring fever and the wanderlust are simultaneous. The last two weeks have seen many local men stirred with glowing accounts of offerings from Argentine, South America, and there have been whole dozens anxious to leave on the next boat for the south.

Fred Barnard, who was here yesterday from Powers, has received a bona fide offer to go there and is now considering two proposals. A big Chicago meat packing firm has offered him his passage to Buenos Aires and \$60 a month providing he will take up a homestead claim on the pampas for them. This falling to be all inducive, Barnard is offered a position there of \$4 a day, riding the range. He is an old cattle man.

Other stories regarding the Argentine have been more vague, one of them being to the effect that a government contractor from that country is seeking skilled help, willing to pay up to \$7 a day and transportation for men to work on an irrigation project. No one, however, seems to know the name of the contractor or from whom the offer comes.

### LOCAL OVERFLOW

**Return Home.**—C. T. Pariss and wife arrived at North Bend yesterday from Nebraska where they have spent the past year and declare they will never leave the Bay again.

**New House.**—Mrs. H. H. McPherson's house on Central avenue near Tenth street is being torn down and the material will be used in the construction of a new house there.

**Moves Store.**—E. G. Opperman, of the Electric Heating & Supply Company has moved his store from North Front street to Central avenue, occupying part of the room recently vacated by Mrs. Nellie Owen. Bertman's jewelry occupies part of it. Mr. Bertram today purchased the fixtures of the Red Cross Jewelry but the stock has not been sold.

**POSTMASTER HUGH McLAIN** left for Portland this afternoon to look after the bringing of the mail via Eugene when the railroad opens its service here next month.

### DINNER BUCKET FIGURES IN FIGHT CAUSED BY WOMAN

Menlo Camelo Claimed Was Short-changed and Beaten by Woman's Companion

Two Greeks met in a fight last night, corner Commercial and Broadway. They met again this morning in the police court and this time the law was the victor. Frank Kallas pleaded guilty before Judge Butler of hammering Menlo Camelo over the head with a dinner bucket.

Camelo appeared muffled in bandages. They extended about his head latitudinally and longitudinally, with only his eyes, nose and mouth showing. His statement to the court that he had been badly hurt was entirely unnecessary.

A woman was the cause of the fight, both of them testified. Camelo claimed that Mrs. Maude Carpenter had short-changed him in a Greek coffee house on North Front street, where she is employed. He met her walking with Kallas last night and demanded back \$4.85.

**Hit Him With Bucket**  
So the interpreted story goes, Kallas ordered him to shut up and get out. Camelo claims that Kallas added vile epithets which he resented with his fists and Kallas then grabbed his dinner bucket and set about him, swinging it with a vengeance.

Kallas, who has been in the police court many times before, pleaded guilty to fighting. Camelo, who could not speak English, asked for a neutral interpreter and came this afternoon once more before the Judge. The sentence of Kallas in the meantime was announced.

**Makes Startling Statement**  
City Attorney Brand prosecuted the case. Part of the evidence tended to show that Mrs. Carpenter is of immoral character. Sam Kallas, brother of the accused, told Judge Butler that a coffee house could not exist here unless women were employed there. Weeks ago there was trouble arising in another coffee house from this same trouble and Chief Carter issued instructions to the proprietors to employ no female help in their places of business.

**Both Are Fined**  
Camelo this afternoon also pleaded guilty to fighting and was fined \$10, the same amount also assessed against Kallas. Camelo complained because he still is out his \$4.85. Chief Carter said the woman would be brought into court and there be forced to pay over the money.

Dr. Leslie, Osteopath, Marshfield

## CHEESE MEN MEET RURAL CREDITS UP SHOW MADE A HIT

COOS-CURRY CHEESE ASSOCIATION IS ORGANIZED

To Accept No Putrid or Unclean Cream—Inspector to Bring Product up to High Standard

Organization of the Coos-Curry Cheese Association was effected yesterday at Coquille, and a board of directors elected. A main provision of the agreement between the cheese men is that an inspector is to be employed, whose business it will be to see that the product of the factories comes up to a certain definite standard.

L. B. Ziemer, creamery and cheese factory inspector of the State Dairy and Food Commission, has been tendered the position, but as yet has not accepted. He has been for three years with the state commission and his credentials and recommendations allow him to be an extremely well-fitted man for the place. He is here and attended the meeting yesterday.

**Twelve Factories in It**  
Representatives of 12 factories were present at the meeting in Coquille and signed the articles of agreement.

Prof. W. A. Barr and Dr. Hector Macpherson, both of O. A. C., spent several days, together with J. L. Smith, County Agriculturist, in putting the new project before the cheese men of the two counties. To the majority of them the move was a new one and it took considerable work to get the matter straightened out.

**Elect Own Officers**  
The board of directors consists of C. E. Nicholson, Marshfield; F. T. McMullen, Denmark; A. Christenson, Myrtle Point; J. D. Powell, Arago and Peter Beyer, Coquille. The directors will meet later and elect a president and other officers from among their own number.

The majority of the cheese men stood out for the selling of their own product, but mitted on the matter of inspection. Some of the smaller factories will have their cheese sold through the Oregon Farmers' Co-operative selling organization, recently formed in Portland by farmers and for the benefit of the farmers in getting the best markets and the best prices for their products.

Incorporation of the Coos-Curry Cheese Association will occur shortly. The shares of stock will sell for about \$2 a share.

**Have Written Agreement**  
The following is the agreement signed by the representatives of the 12 cheese factories.

"Each member joining The Coos-Curry Cheese Association shall subscribe to the following agreements: We, the undersigned, duly representatives of our factories, do hereby agree to affiliate with the Coos-Curry Cheese Association for the period of ..... years; we agree to accept no putrid, unclean or bad flavored milk; to co-operate with the association inspector and give him all the assistance in our power in the performance of his duties; to abide by the system of rules governing grades established by the Board of Directors of this association; and to pay toward the expenses of this association one-fourth (1/4) of a cent a pound for all cheese manufactured at our factories, the amount of money provided in this manner to cover the cost of inspection and meet our proportionate share of expense of maintaining a selling agency in case such is effected."

### TAKE PORTER BROS.' BOATS TO PORTLAND

Tug Roscoe and Barge Lawrence Taken for Inspection and May go To Alaska

The Florence West says: A crew of ten men arrived from Portland to take the steamer L. Roscoe and barge Lawrence to Portland. Captain Bob Jones, who navigated the Roscoe for a year, has been in town for a couple of weeks and will be in command of the vessel on the trip.

The boats are owned by the Tide Water Mill Co. H. P. Dutton, manager of the company, stated that the new inspection laws make it necessary to put the steamer on dry dock and take out the tail shaft for examination.

It has been reported here that the boats have been sold, but Mr. Dutton says this is not correct. He says he has a good offer for a charter for them for a trip to Alaska, and said he may let them go up there.

Mr. Dutton said the Lawrence will probably be left at Portland, but he does not want to take the tug away from the Siuslaw.

### SUSLAW BAR DEEPER

The survey which was made for the government recently by Engineer Charleston shows that the channel is good with a controlling depth of twelve feet.—Siuslaw Pilot.

DR. MACPHERSON BELIEVES THE MEASURE WILL PASS.

Means Cheap Money For Farmers For Long Term—Goes Back to Portland to Aid in Fight.

A firm advocate of rural credits is Dr. Hector Macpherson, of the Oregon Agricultural College. He has been here several days aiding in the organization of the cheese men. This morning he hurried back to Portland to get started the strong fight that is to be waged for the passage of the state rural credits system for the farmers.

He attended the session in Salem a few days ago, where a bill was framed. At the next meeting of the legislature, the bill will be introduced, and it is expected there will be quite a bit of opposition developed, said Dr. Macpherson, principally from among the banking interests that at the present time are getting eight and ten per cent for their money, and who see a decided blow to their business through the new measure.

Briefly, the plan is that the state should sell four per cent bonds and loan sums to the farmers at five or six per cent. Commissions would be formed in the various communities to pass on the petitions of the farmers for loans.

Dr. Macpherson said that the system has been a decided success in other places, that it furnishes the farmers with necessary capital at a low rate of interest and on long time loans, a fact that results in the opening of hitherto uncultivated lands in many cases.

The successful organization of the cheese men yesterday was highly encouraging to him. He said the system is one absolutely necessary in all dairying sections of Oregon. At the present time, he stated, many of the creameries are getting very low prices for their butter, mainly because the product comes up to only a very low standard.

Keen competition among the creameries and a restricted amount of cream makes them all anxious for the business, he stated, and the result is that they are many of them willing to take any sort of cream and milk they can get, to the ultimate detriment of the finished product.

### WATERFRONT NEWS

About seven this morning the steam schooner Yellowstone left the Swayne & Hoyt dock with lumber for San Francisco.

No word has been received from the Hardy but it is expected that she will arrive in from San Francisco late this afternoon.

On Friday the steamship Kilburn is expected back here from Portland and it is probable that she will get out on that same day for San Diego and way points.

OVER 700 MARSHFIELD PEOPLE SEE "COLLEGE CHUMS" HERE

Plans Made to Produce It in North Bend, Coquille, Myrtle Point and Bandon.

An audience of over 700 filled the Noble theater last night for the first production of "College Chums" the play given under the auspices of the Marshfield Lodge of Elks as a benefit to raise funds for the publication of Ed Meade's book "Doubling Back." The cast scored a decided hit.

As a result of the success here, it is planned to present the play at North Bend, Myrtle Point, Coquille and Bandon.

Edson Robbins Elliott, a nephew of Ed Meade, and F. D. Fletcher were the stars but both had the advantage of previous stage experience. Mr. Elliott had charge of the rehearsals, etc., and is planning to organize a show troupe here for the Coos county circuit.

However, all did well and were roundly applauded. The cast was as follows:

- Kate Blakemoore, looking for happiness ..... Irene Curtis
- Martin Underwood, from the underworld ..... Wade Garton
- George Wall, a happy, happy fisher ..... Harvey Walter
- Gabe Higgins, a rural Charley Patlin ..... F. D. Fletcher
- Ned Brumley, a Chum with some temper ..... Leslie Hale
- Miss Tuttle, Fashion plate, up to date ..... Helen Meade Harvey
- Dora Winston, in love with a chum ..... Ione Southstone
- James Graham, a chum with some heat ..... Edson Elliott
- Patient Bill, a dry fisherman ..... Ed Meade
- Mary Marbles, "Miggles," Bred in Boston ..... Mrs. Clyde Dindinger
- Officer T. H. O'Mascatt, in plain clothes ..... Vince Pratt

**SYNOPSIS**  
Act I.—The Chums' apartments at college—after the football game.  
Act II.—In the Adirondack Mountains. The picnic time—Spring.  
Act III.—Dora's home—Boston—Spring—One year later.

### DEATH AT RIVERTON

Joseph E. Martin, Jr., of Riverton, died at the family home there, aged 32 years, nine months and five days. Mr. Martin was born at Red Bluff, Cal., June 4, 1882, and has never been well.—Coquille Sentinel.

### FOR LEAP YEAR RUSH

Anticipating an improvement in the marriage business County Clerk Watson has just placed an order for a thousand more marriage certificates.—Coquille Sentinel.

Bowery Dance, Simpson Pavilion, has been postponed to next Saturday evening.

**There is a Real Difference**

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

**ROSEBURG PAPER LAUDS JUDGE COKE'S SERVICE**

Praises Marshfield Jurist for Conduct of Court There—Popular With All Classes

The Roseburg News says: "Judge John S. Coke, of Marshfield, this morning signed the court journal and closed his work in Douglas County in connection with the February term of court, which he opened here on February 21.

"Judge Coke is no stranger in Douglas County, as he has presided over the Circuit Court here upon other occasions and his well-known urbanity, industry and ability as a judge have made him very popular with our people. He is one of the three judges of the Second Judicial District of the state, which district embraces six counties, namely, Benton, Lane, Lincoln, Douglas, Coos and Curry. The other two judges are Hon. J. W. Hamilton, of Roseburg, and Hon. G. F. Skipworth, of Eugene. Under the law one judge in the district is required to reside within the territory embraced in Coos and Curry Counties, and Judge Coke's home is at Marshfield, where he was a leader of the bar for some years before going on the bench. He was also at one time Senator from Coos County. He has now been on the bench for about seven years and his record has been of the very best. He has often been called upon to hold court in other portions of the state, including Multnomah, Lane, Benton, Klamath and Jackson Counties. He left this afternoon for Eugene, where he is to hold court in Judge Skipworth's place.

"Judge Coke has recently decided to become a candidate for re-election and his name will appear on the ticket at the coming primaries."

**HARK DUNHAM'S VIEW.**

Hark Dunham says he is sure one of our county officers is preparing to enter the ministry when his present term expires. He bases his opinion on the talks he has heard the officer make to the delinquents who are brought before him.—Coquille Sentinel.
