Expect to Send Big Delegation Here Between September 15 and 30 Says Letter

A letter from Haas Brothers to their local representative, Matt L. May, received today announces that the San Francisco Chamber of Commerce will run a big trade excursion to Coos Bay this fall. The excursion will be run sometime between September 15 and September 30, and the party will probably spend several days on the Bay.

Some time ago Mr. May wrote them urging a San Francisco excursion here at the time of the celebration of the completion of the railroad, but this was found impossible.

Haas Brothers state that a member of their firm will accompany the party to Coos Bay.

## WESTERN OILS BEST

### Tells Why Western Motor Oils Have the Advantage

"Why do motor oils made from asphalt-base crude give best results, especially in the matter of carbon deposits?" asked C. W. Cumbers of the Standard Oil Company, repeating the question put to him by a Times representative yesterday.

"Well, it's a rather technical subject for the ordinary citizen," said Mr. Cumbers, "but as our friends the chemists would say, oil made from asphalt-base crude vaporizes and distills without decomposition."

"In everyday language that means that oil which gets into the explosion chamber does not break up under the intense heat and leave a deposit to gradually bake hard on cylinder walls and valves, and catch and hold carbon derived from the motor fuel. Oil refining from asphalt-base crude maintains its correct lubricating body until its work is completed and then passes off with the exhaust, leaving a clean cylinder.

"It simply amounts to this—nature has given asphalt-base crude a different and more advantageous chemical construction, as far as producing good motor oils is concerned. And when this oil is correctly refined, naturally it gives the motorist better results."

Bandon will soon have another lumber mill in operation near that city. The Western World tells of the new industry as follows:

The new saw mill that is being installed by Geo. W. The finished product will be hauled to Bullards or Randolph and shipped out over the local bar.

## CARDINAL GIBBONS SEES END OF WORLD COMING

BALTIMORE, Md., Mar. 29—It looks as if the Scriptures are being fulfilled and the end of the world is approaching, Cardinal Gibbons says. The prelate made the statement during a general discussion of the war.

"The news coming from Europe is terrible," he declared. "It awes me. It is beyond our realization. We cannot grasp its magnitude or what it means. It is terrible—horrible, indeed."

"Does it not look as if the Scriptures are being fulfilled?" "Nation shall rise against nation and there shall be sorrow throughout the world, which will be a sign that the end is near?" he was asked.

"Yes, it does," he admitted. "Think for a moment what this war means if you can. I cannot. When one life is lost on board ship all the country is started. When the Titanic sank with more than 1000 of its passengers the world was horrified."

"That was a thing that occurred only once. Loss of life in great numbers occurs only once in a while. But now in this greatest war of the world hundreds—nay, thousands—of lives are being sacrificed."

## For Assessor.

I hereby announce myself in hearty sympathy with whoever may be elected by the people for the office of Assessor, whether he be a Republican or a Democrat. Nobody ever seems to have any love for the Assessor, unless it be his wife, and every taxpayer has a kick to register, except perhaps the owners of property in Perham Park. Without exception they feel that their assessment is quite within reason, considering the location of their property. Buy a lot in Perham Park and quit kicking about your taxes. Respectfully, W. A. REID.

## STUDENTS MAY AID

### THIRTY DOLLAR CASH PRIZES FOR GOOD ROADS ESSAYS

Contests Announced Today by Good Roads Association of County—April 21 Last Date

Now that the students of the public schools are in fairly good trim, having written, many of them, essays for a City Beautiful, the Good Roads Association is today announcing a contest among the pupils of the county for essays on the subject of Good Roads. Thirty dollars is to be offered in cash prizes. All essays must be in by April 21 and the successful contestants will be announced on May 8.

At the primary election May 19, the question of issuing bonds for the permanent improvement of Coos County roads will be voted upon. The Good Roads Association desires to have papers submitted in support of the bond issue of \$270,000.

It is suggested that teachers may find it desirable to have preliminary debates in their schools in order to increase the pupils' fund of information on the subject.

## Rules of Contest:

The following are the rules of the contest:

- 1. Subject: "Advantages of Bonding Coos County for Building Roads."
2. Papers must not exceed 1200 words and must be neatly written in ink on one side of the paper to receive consideration.
3. The pupils may use every means possible to gather material and suggestions for their argument but the composition must be their work and endorsed as such by their teacher.
4. This contest is open to all pupils of all grades and the prizes will be awarded in two divisions, one contest for Grammar school pupils and one for High School pupils.
5. A prize of \$5.00 will be given for the best essay in each class and ten prizes of one dollar each will be awarded for the next ten best essays in each class, making a total of 22 prizes to be distributed in the county.
6. To facilitate the work of the judges in the contest, each district will submit one paper for each 20 scholars or fraction of that number enrolled in the district. All papers should be in the hands of the district principal or superintendent by April 21st. These teachers will then select the best papers to the number allowed their district and they must be forwarded to reach County Superintendent R. E. Baker on or before April 29th. The announcement of successful contestants will be made May 8th.

## Are You In Business For Yourself?

A Painter, a Carpenter, a Baker, a Rug Weaver, a Paper Hanger, a Mason, a Cement Worker, a Builder of Concrete Blocks, an Excavator, a Chimney Sweep, a Milk Dealer, a Blacksmith, a Tinner, a Jack-of-all Trades, a Tinkerer, a Cabinet Maker, an Electrician, a Plumber, a Harness Maker, a Drayman, a Taxi Driver, a Horse Dealer, a Dressmaker, a Teacher or a Doctor.

It is to your advantage to keep your name before the public. It is the life of your trade for the public to know that you are "still in business at the same old stand."

Every man or woman with a small business, every man or woman who derives his livelihood from the patronage of the public, every man or woman who uses no other newspaper publicity in the promotion of their business, should have an ad either in the City News column or in the "Business Directory" in the widely read classified ad columns of the Coos Bay Times.

It will be wonderfully surprising to you to learn how inexpensive this class of advertising is, and what remarkable results you get for so small an expenditure.

The people of today do not ask this person and that person who plows gardens, or who does paper hanging or who cleans out eisters. They search through the advertising columns of their daily newspaper, and if you are in there you are the one who will profit. The daily paper is their guide, their directory, their book of reference.

Many will say, "I couldn't stand the expense of advertising," and let it go at that, not appreciating the fact that it would be an investment rather than expense, as necessary to carry on business as tools, or stock or counters. And they will go on having to be satisfied with what business they can derive from their circle of friends and acquaintances, while those who do "see the light" will hardly believe it to be true.
