

# Let Everybody Unite In Making a City Beautiful

**CLEAN UP!**

Wou'dn't You Rather Live In a Clean Town Than a Dirty One?

Of Course You Would!

So Would Your Friends Who Come to Visit You.

**CLEAN UP!**

## Mayor's Proclamation.

To the People of Marshfield—

Inasmuch as Wednesday, April Fifth, has been selected as "Clean-up Day" in Marshfield and further, since this is a matter of first importance, therefore I most earnestly request that on this day all places of business be closed, the schools suspend their regular course of work and that just so far as possible, everyone devote this day to improving the appearance and sanitary condition of our city.

At eight o'clock Wednesday morning let all workers report to the committeeman in charge of their respective district, that the work may be properly assigned and that by co-operation the very best results may be obtained.

R. A. COPPLE,  
Mayor.

## Cleaning Up Would Destroy Mosquitoes' Breeding Places

"SWAT THE FLY" has long been a rallying cry among the workers for better sanitation, purer hygiene and cleaner streets, but its position as a slogan is threatened by a new cry of "Slam the mosquito!"

A bulletin issued by the Philadelphia board of health deals with the mosquito question and tells how to make the clean up campaign minimize, if not eliminate, the dangers inseparable from the presence of mosquitoes in numbers. It lays stress on the importance of killing as many as possible of the mosquitoes in the early

spring, because "every mosquito killed now will mean thousands less in the summer."

"By far the best way to deal with mosquitoes," says the bulletin, "is to destroy their breeding places. As soon as the warm weather comes the female mosquitoes, which are the only ones which survive the winter, emerge from their winter quarters in our cellars, vaults and other damp, dark places to seek food and to hunt a place to lay their eggs. The breeding mosquito must find standing water in which to deposit her eggs. If she falls in this she soon dies, without offspring. Therefore no stagnant water, no breeding places for mosquitoes; no breeding places, no mosquitoes."

"People do not realize that any puddle of water, no matter how small nor how foul, is an acceptable breeding place for mosquitoes. Where it is necessary to have water standing in tanks, barrels or other such receptacles, keep them tightly covered with fine wire

screens. Keep cesspool covers perfectly tight and the vents tightly screened. "Where drainage of pools is not possible or covering of receptacles is not practicable all standing water should be covered with a film of kerosene oil, which prevents mosquitoes from breeding in it. One ounce of oil is sufficient to cover fifteen square feet of water. The oil should be renewed once a week during the mosquito breeding season."

The bulletin admonishes all householders and residents to take full advantage of clean up time, so that neighborhoods and individual premises may be made "mosquito proof, fly proof and disease proof."

## Nason's Paint Will Do It!

—A few cans of this famous prepared paint will work a transformation in your home.

## Plant Something

—Your Clean-up work around your home will soon come to naught unless you plant something in the bleak spots.

—That backyard can be made attractive as well as profitable by converting it into a small vegetable garden. We have a full line of the famous D. M. FERRY GARDEN SEEDS, selected especially for this section, and they are guaranteed to give satisfaction.

—In the front yard a few flower beds will set off the place wonderfully, even if you have a nice green lawn. D. M. FERRY FLOWER SEEDS will do it. We have a choice variety.

—Telephone us what you need, and we will have them delivered to you. Better order Tuesday, so that you will be prepared for a quick meal Wednesday.

—We have some stiff brooms especially adapted to rough work.
