

Easter In Church

Let the Spirit of Devotion Rule You

EVERY church in this community should be filled to overflowing on Easter Sunday. It is one of the great feast days of the year. It is the day of the risen Lord. It marks the end of the season of sackcloth and ashes. It is a time when heaven and earth rejoice.

It should not be necessary to urge any one to GO TO CHURCH on this day. This is just a reminder to the careless or the indifferent. Join in the hosannas.

Easter plainly is a day of joy. Add to the joyousness of the occasion by GOING TO CHURCH.

NEXT Sunday is Easter Sunday and it will be a day of music in the churches, most of which have prepared special music for the occasion. Some will have elaborate programs on which the singers have been working for some time past. There is much fine local talent on Coos Bay and the musical features of the Easter services promise to be highly attractive. There will be no special music in the Christian church. The Swedish Lutheran congregations of Marshfield and North Bend have not prepared any special music as their new pastor, Rev. Herman Lind, is to conduct services on Easter for the first time. Below are given some of the programs as arranged for Sunday:

He Removed the Danger Signal

"I suffered a long time with a very weak back," writes Fred Smith, 325 Main St., Green Bay, Wis. "A few boxes of Foley Kidney Pills completely relieved me of all soreness and pain in the back, and now I am as strong and well as ever."
One cannot help becoming nervous and feeling tired and worn out when the kidneys fail to filter and throw out of the system the poisonous waste matter that causes kidney troubles and bladder ailments.
Backache is one of Nature's danger signals that the kidneys are clogged up and inactive. It is often followed by rheumatism, annoying bladder or urinary disorders, puffy swellings under the eyes, swollen ankles and painful joints.
Foley Kidney Pills get right at the source of trouble. They invigorate the kidneys to healthy action and when the kidneys properly perform their functions the poisonous waste matter is eliminated from the system.
