Vanophone
\$12.50

Come See This Musical Marvel

This is the musical sensation you have seen advertised in the national magazines.

Prices for phonographs of superlative tone have been very high. But the Vanophone now ends all this. It is not fastidious—not luxurious. Its merit lies in its reproduction, that's what you want in a phonograph.

This extra saving you put into records—that's the sensible way to buy a phonograph.

Bell Alloy Gives New Sweetness

The Vanophone is made of Bell Alloy. That's the secret of its preeminent clearness. This is the exclusive feature that has won professional praises.

Then you get unique and novel features of refinement. You get a volume and purity of tone unsurpassed by any other higher priced instrument.

It is this tone quality that has won national popularity for the Vanophone. And now this low price places it within the reach of all music records. Plays 10- and 12-inch records.

You should see the Vanophone and you should hear it. If you call we will gladly play your favorite records on it.

Don't postpone longer this musical enjoyment.
