THE ETHICAL CULTURE MOVEMENT

THERE is considerable interest in the fortieth anniversary of the Ethical Culture Movement in America, which is to be celebrated in New York next month.

WHAT'S THE GAME?

A LOT of "clever ideas" have been born in New York recently, all of which were supposed to furnish a very plain way by which the country might nominate a candidate from New York.

Colonel Roosevelt pulls a new stunt every day in his attempt to pin a tag on the republican elephant.

MUCH MAIL FOR MARSHFIELD

Evidently Marshfield is in the habit of getting much mail. When Uncle Sam commenced sending the mails over the Willamette Pacific road the first trains were delayed, some of them for nearly two hours on account of the heavy mails.

WITH THE TOAST AND THE TEA

It is a good thing that our prayers are not always answered. If they were mighty few of us would try to hustle for what we need.

The upkeep of a motor car keeps some Coos Bay men down.

Some Coos Bay girls don't seem to know it. But a man would rather see a girl wearing imitation lace that is clean than real lace that is dirty.

Any Coos Bay woman will tell you that she would be as well dressed as other women if she didn't pay her debts and put everything she had on her back.

It is mighty hard for a Coos Bay woman to decide whether she would rather be a perfect thirty-six and be poor or be a fat woman and be wealthy.

If her mirror tells her that she is homely and her gentleman friend tells her that she is beautiful a Coos Bay girl knows that the mirror is a liar.

You may imagine that it must be fine to be rich and do as you please. But Dorsey Kretzer tells me that the fact is that there are mighty few rich men who are not disappointed at least a dozen times a day.

GOOD ROADS NOTES

The Oregon State Highway Commission has offered to set aside considerable state funds for building roads in Coos County if this county bonds itself to build roads. Can Coos afford to turn down the offer of the state to match dollars with us?

In 1910 the assessed valuation of Coos county was \$15,710,000.00. In 1915 it was \$21,190,000.00. What will it be in 1921, the first year that any assessment will have to be made to pay off any of the principal of the bonds? The assessed valuation will have increased and the rate of taxation necessary to pay off the bonds decreased.

The State of California has invested the proceeds of an \$18,000,000.00 bond issue in building trunk roads. In November, they propose to vote \$15,000,000.00 for the same purpose. Is that an argument for bonding Coos county for roads? Answer: yes.

The assessed valuation of the city of Marshfield was greater in 1915 than the valuation of all of Coos county was in 1902. At that rate of increase, it should not be hard to pay off a road bond issue of less than 2 per cent of an assessed valuation which is growing.

One-third of the taxes are paid within the towns of Coos county. The farmer ought to be able to vote for a bond issue to build country roads if the city pays one-third of the cost.

If Coos county bonds for \$362,000.00 to build good roads, the average tax rate for fourteen years at the present assessed valuation would be .1 mills to pay off the bonds and interest.

Saving to the county in road maintenance after the roads are placed on permanent line and grade will pay the cost in 14 years. COOS COUNTY GOOD ROADS ASSOCIATION.

Mr. Grant who is accompanied by his wife will visit South America. His home is in San Diego, California.
