 At 4:43 a. m. 50
 Precipitation 00
 Precipitation since Sept. 1, 1915 78.80
 Precipitation same period last year 61.32
 Wind: Northwest, clear.

SUNRISE AND SUNSET

Thursday
 May 4. —Sun rises at 4:49 and sets at 7:04.

Fishing Is Good.—The fishermen are busy now catching halibut and ling, yesterday all of the Coos Bay boats went out over the bar to join in the catch.

Will Be Great Game.—Some exciting baseball is expected next Sunday at North Bend when the Knights of the Grip will meet a picked nine from the fraternal organizations.

Stenographer Comes.—Miss M. McDonald of Portland, has arrived in the city to take a position as stenographer in the office of W. J. Conard secretary of the Coos County Tax Association.

Troubadors Come.—On the morning train from the Coquille Valley came the six Hawaiian Troubadors who open their engagement this evening at the Royal Theatre.

To Hold Examination.—From H. B. Miller, director of the School of Commerce at the state university, comes notice that on May 16 and 17 are to be held examinations for experts in commerce and finance, positions to be open in Washington, D. C. The

salaries range from \$1,400 to \$2,500. In the list of qualifications it states that persons having six years in journalism are eligible.

To Go On Picnic.—A number of the high school students and friends are planning on a picnic Sunday up Coos River. They expect to leave here early in the morning and go through to Goodwill's place to spend the day.

Candidate Here.—A. P. Collier, who is a candidate for the democratic nomination for County Clerk, is visiting in the city in the interests of his campaign. Mr. Collier resides in Coquille but is quite well known on the Bay side of the county.

Visits Coos Bay.—J. H. McDermott, general sales manager on the Pacific coast for the Standard Oil Company, is making a visit to Coos County. In company with the local agent of the company, C. W. Cumbers, he left for Bandon to look over that territory. The trip from here was made by automobile.

All The Same Giant.—Puffing and huffing all through the day went the steam donkey engine next door to The Times office running the pounding pile driver that shoves a 60 foot pile into the ground with the same ease that the small boy plants a croquet wicket in the lawn. The driver will be at work for several days yet, driving the piling for the Going and Harvey building.

Elected President.—Mrs. Claude Nasburg was elected president of the Episcopal Guild at a meeting held this week. She was named to take the place of Mrs. Herbert Lockhart, who had been previously elected but who found it impossible to serve. A cooked food sale held last Saturday is said to have brought in good returns. On Tuesday Mrs. J. W. Bennett, Mrs. Emma Nasburg and Mrs. Claude Nasburg were hostesses.

Lost Money as Witness.—E. Edson, witness for the state in the Otto Edlund bootlegging case, went through this morning for Astoria where he is a fisherman. He has spent the last two weeks here and says that much valuable fishing time has been lost, inasmuch as the season is on in full swing and he has a large boat and fishing gear laying there, awaiting his return.

Keep Your Chickens Home.—Now

comes Chief Jack Carter saying that chickens at large are every bit as bad or worse than loose dogs and he declares that owners of hens and roosters who let the fowls run at large, are to be arrested. One or two property owners in the north end of town have already threatened to make good use of their 22 calibre rifles in abolishing the evil.

Not Sure of Logging.—Jack McDonald said today that there is not a thing yet certain about McDonald and Vaughn logging in the vicinity of Ten Mile lakes. He said that most of the timber is on North Lake and Eel Lake but in any event it would be the first of the year before any logging could be started. Most of the timber lands under contemplation are small holdings, he said. The logs would be brought here via the railroad.

Still in Good Condition.—The steam schooner Noyo, coming here for ties for the Estabrook company, has been anxiously looked for up near Bar View where it was expected the vessel would return and make another try at pulling the schooner Oakland off the beach. It is said that the Oakland, that was lost while on a trip to Bandon, is high and dry on the beach and out of the reach of the high seas and so is still in good condition.

Looking for His Land.—In rumaging about in the bottom of his trunk the other day, Harold Crawford, of the Fix Up store, came across a bond for the deed to some Mexican land that he one time bought from a promoting company. He is now wondering whether Villa took it to the mountains with him when he escaped, for he says that so far he has never been able to find the said land. He is going to send the bond to his uncle who owns some 800 acres of land in Mexico and has a deed to it.

Trouble and Thirteen.—I always have been superstitious and this morning about seven o'clock when J. W. Hildenbrand marched in wearing the mile that won't come off I wasn't fooled. I knew there was something wrong. I got up at six o'clock and hurried to the office. "Hildy" arrived at seven. There you are—Six and seven are thirteen and thirteen always has been my unlucky number—trouble of course. Then when Hildenbrand stated that in Schroeder & Hildenbrand's ad last night the printer made the discount on granite ware thirteen per cent when it should have been thirty-three and one-third per cent., I knew where the trouble came in. One thirteen is bad enough but two thirties—ouch! Anyway I am trying to avert more trouble by making this explanation that the discount on graniteware at Schroeder & Hildenbrand's hardware store this week is 33 1-3 per cent.—one third off on every article of graniteware and that is considerable reduction at the present time when metal prices of all kinds are advancing and the fruit canning season coming on. The adv. appears elsewhere on this page today—read it. If the printer doesn't get it correct this time there will be thirteen more kinds of trouble—and it won't appear again, either.
