VOU have read this series of advertisements and you now know some of the money making features of International motor trucks. You know that money invested in an International truck pays a high rate of interest-that a truck keeps your customers satisfied by giving them prompt, regular service - and that, with a truck, you can extend your business to its widest limit. There is one other important point.

The International motor truck is sold by a Company whose success depends upon the service it gives.

This Company maintains a service station at the address below. We employ expert truck men and carry a full stock of repair parts, from a set of chains to a complete power plant. Both men and repairs are at your command instantly in case of accident. We make it our business to keep our customers satisfied, just as you do. We hope you never have an accident, but if you do, we do not allow it to interfere with your business for one minute longer than is absolutely necessary.
