SUNRISE AND SUNSET
Friday
May 19. — Sun rises at 4:32 and sets at 7:20.
Rev. Foskett Will Speak.—Rev. H. B. Foskett will speak at Englewood and at Eastside next Sunday afternoon. At Englewood the service will occur at 2:15, preceding the Sunday school. At Eastside he will speak at the close of the Sunday school session. A group of singers will accompany him.
Stopped the Stages.—The rain made the roads too muddy for the auto stages to run to Coquille yesterday.
Had First Ride.—When J. D. Magee came to Coos Bay yesterday it was the first time he had ridden over the new railroad to this point.
Get Vacations.—The pupils of the Bunker Hill and Englewood schools had a vacation today as the school houses were being used as voting places.
Story Hour Tomorrow.—The story hour from 10 to 11 tomorrow morning will be in charge of Miss Gwendolde Tower who will tell the children miscellaneous legends.
Have Tin Wedding.—Mr. and Mrs. W. A. Reid received a number of friends at their home on the occasion of their tin wedding. The guests gave the couple a tin shower.
Will Entertain.—The members of the Millicoma Club will give a smoker this evening when returns from the election will be received and a dance will be given next week, probably on Friday night.
Gets New Donkey.—Aboard the gasoline schooner Patsy that was in

the bay today from Portland was a new donkey engine consigned to E. G. Perham. This is to be used in the road work south of the city.
Church of England Service.—The Rev. Robert E. Browning, rector of the Marshfield Episcopal church, will conduct a service according to the rites of the Church of England in North Inlet Chapel Sunday afternoon at 3 o'clock.
Still More Grief.—The Sons of Veterans and the Spanish American War Veterans said today a committee would be appointed to meet with the members of the auto racing association relative to changing the date for the next auto race from Decoration day to some other date.
Empire Road Ready.—The plank road from North Bend to Empire has been completed. John Harkanson had the contract. It has a double roadway with the planks laid endwise. This is the largest stretch of road built in this manner in the county and is something of an experiment.
Off to Sand Hills.—The members of the Young People's Society of the Christian church are holding a leap year party this evening. The girls have invited the boys and have secured the Alice H. which will leave the foot of Market street at 7:30 p. m. for the sand hills. The boys are to bring the lunch.
Water Pipe Burst.—Early this morning the big main on Pine street, near the head of Market street stairs, burst, sending a flood of water into Market street. It came like a waterfall down back of the Flanagan and Bennett bank and into the street and it was some time before R. H. Corey and his men could get it checked.
Change of Hour.—Those who worship at the Marshfield Episcopal church are kindly asked to note a change of the hour for the service until further notice from 11 a. m. to 10:30 a. m. on Sundays. The Sunday school will convene at 9 instead of 9:30 a. m. and the evening service will remain the same at 7:30.
Gets Out Ship Knees.—Jake Matson has a contract for the getting out of ship knees for a California shipbuilding concern. The contract is said to amount to about \$4,600 and he, together with his son Charles Matson, has been working for some time in getting out the timbers over on Coal Bank Inlet. One shipment of knees has already been sent south.
Work All Finished.—All the work in connection with the jetty work at Bandon is completed, said Capt. Polheums yesterday. J. B. Small, powder man, came over from Bandon last evening, leaving this morning for his home at The Dalles. He is said to be one of the best powder men ever down in this section. He had charge of the rock quarry, aiding in getting out some 12,000 tons of it for the jetty.
Are Working East.—Guy Turner, employed on the Umpqua bridge, went back to Reedsport this morning after a short visit here. He said that the steel work for the middle span of the big bridge is up and the riveting is to be done very shortly. He said that practically all of the concreting with the exception of four piers is done and all the piling has been driven. It is estimated it will take about two months to finish the bridge completely.
Docks Are Crowded.—A. P. Davis is here from the Moore Mill on the Coquille. Because of a cluttering of the docks with lumber the plant was forced to shut down until boats arrive and clear away. Davis came here to visit and was immediately put to work measuring lumber at the Coos Bay Milling company, on Isthmus Inlet. The mill started again for a short time yesterday and was expected to work through today.
Was Very Well Liked.—Practically all of Ferndale turned out yesterday afternoon to attend the funeral of John B. Allen, aged 67 years, who died at the Mercy hospital on Monday evening. In the eight years the old gentleman has lived in that community he had made a host of friends who now mourn his going. The services were at the Wilson Undertaking parlors and in charge of the Rev. Robert Browning.
He Still Faces.—The many friends of C. I. Cantine, deputy state highway engineer, are watching the progress of his fight to retain his place in the commission. It seems that he has plenty of friends who are backing him and he may win out over the objection of Chief Lewis. Mr. Cantine was very well liked in Coos county, spending several weeks here making out permanent road routes. He has been sent over to Wheeler county now to look into some road projects.
Dance at Lakeside.—Pierce's hall, Saturday night. Platt's Orchestra.
