St. Paul bids \$75,000 for the Corbett-Mitchell fight.

The new receiver of the O. P. road has called in all passes issued by T. E. Hogg.

Eliminate selfishness from man, and I will answer for the sins of the world.—Tacit Wormwood.

Plato's lost continent, Atlantis, was the theme of a Theosophical lecturer in Portland last Sunday.

Z. Job, J. O. Wilson, William Cress and P. Avery are the bondsmen for the new receiver for the O. P. Company.

There is a movement on foot to secure the location of the proposed soldiers' home somewhere in the vicinity of Roseburg.

Three hundred and thirty-seven prisoners in the Oregon State penitentiary are in idleness, owing to the shutting down of the stove foundry.

Do not imagine that a flail can compete with a thrashing machine in either cost or quantity of work. This is a hint for you in regard to whatever you may undertake, young man.

Lincoln county includes 324 square miles of what was Tillamook county, which will give Lincoln over \$300 more road money than she would get if she did not embrace that territory.

Hoffman's Catholic Directory says: Oregon has 1 archbishop, 54 clergymen, 61 churches, 88 stations, 14 chapels, 1 seminary, 2 colleges, 10 academies, 30 parochial schools, 2 orphan asylums, 115 orphans, 7 charitable institutions, 33,000 Catholic population.

We learn from a conversation with Judge Blue that the financial condition of Lincoln county is fine, notwithstanding some of the adverse reports that outside parties have made concerning it. Lincoln county gets her share of all due and delinquent taxes of former assessments. This will be a snug sum for the new county.

James Cantwell, a prosperous farmer of Bell Haven, Del., or rather, Mrs. Cantwell, who is also a staunch democrat, although no voter, ought to be made postmistress at that place. On March 4th at the very hour when the crowds at Washington shouted loud acclamations in honor of the new president, Mrs. Cantwell in the sorest trial of her life gave birth to quadruplets, all boys. In honor of the new administration they have been named Grover, Walter, John and Daniel. The largest weighs five pounds nine ounces and the smallest four pounds. They are exceedingly bright, well-formed and in perfect health.—Ex.

No man who has the interest of his country at heart should fail to subscribe for his home paper. In encouraging its publication he is assisting in building up about him enterprises, the success of which at the same time enhance the value of his own surroundings. It gives him more news of immediate concern than the big city papers; it talks for him when others belie him; it stands up most manfully for his rights; he always has a companion in his home paper, and those who stand up for another should be well sustained. The interest of both are kindred and equal, and must rise and fall together. Therefore it is to the interest of every one to support the home paper, not grudgingly, but in a liberal spirit, as a pleasure, not as a disagreeable duty, but as an investment which will amply repay all expenditure.

All who own property within the present limits of Lincoln county will pay all taxes due or delinquent to the collector of Lincoln county. Some, particularly non-residents, have formed the idea that taxes heretofore assessed would be payable in Benton, but the conception is erroneous.

The friends of Gov. McKinley, of Ohio, have such feeling for him that they have subscribed the sum of \$95,000 to defray the liabilities incurred by him as surety for Walker & Co., and that in the face of McKinley's frequently asserted objections. The contributions came in sums ranging from \$1 to \$5,000.

The new state game and fish warden, M. D. McGuire, has caused the arrest of several fish dealers of Portland for selling salmon during the close season. The dealers assert that the fish were caught during the open season, and kept in cold storage, but the warden asserts that no difference is made by the law in the matter, the offering them for sale being the offense. A test case will be made.

It is said a lobbyist went to the legislature from Union county with \$3,500 to divide the county or change the county seat, and indignantly refused to render a bill of disbursements to his constituents when he returned. Life is too short to go into such a lot of figures and explanations.—Pendleton Tribune. They do better over here; they don't spend nearly so much money, but they do a whole lot more dividing.

The latest railroad news obtainable is more encouraging to the Bay country than any for years. It is to the effect that \$50,000 has been put up with Blair & Co. of New York to pay back wages of employes, which total now amounts to something over \$100,000. The sale of the road has been continued for ninety days, during which time, the prospective bidders, presumably the Blair faction, will send experts to look the road over and inspect it thoroughly; also to make an inspection of the proposed route over the mountains and see the feasibility of extending the line. The sale is now set for the 14th day of June, and there is but little doubt but that time will mark the end of the long, tedious and expensive litigation of the O. P. road, and also an era of construction to an eastern terminus. Those who know Judge Fullerton feel very certain that something very definite was shown him to induce him to grant a further continuance of the sale.

Under the new game laws grouse, quail, pheasant, China pheasant, silver, golden, copper, green or Japanese, bob-white, jack-snipe or prairie chicken can only be killed from October 15th to November 15th, and it is against the law to transport them any other time. Trout can only be sold in September and October. It makes it a misdemeanor to hunt or kill deer between December 1st and August 1st of the year following, or on any day between one hour after sunset and one half hour before sunrise. The killing of a spotted fawn at any season is a misdemeanor. The law provides that every person who shall between the 15th day of November and the first day of August of the following year kill or take, except for breeding purposes, or shall offer for sale any grouse, pheasant, Mongolian pheasant, quail, or partridge shall be guilty of a misdemeanor. The penalty for the violation of this act is fixed at a fine not less than \$50, nor more than \$300 or confinement in the county jail for three months, or by both such fine and imprisonment.

A CHILD WAS LOST.

EDITOR LEADER: On Sunday March 12th, a new comer by the name of Mr. Slogan, residing near the head of Simpson Creek, started out in the morning, with his little girl, about twelve years of age, to hunt some cattle. Finding the cattle they started for home, (their way being through the brush,) which was some distance from the house. The little girl started ahead out of sight of her father, and by some mistake lost her way and was going in the opposite direction from her home. The girl wandered on until she came to a creek, known as Mill Creek. Seeing she was lost, she followed down the stream.

Between the hours of four and five p. m. she came to a house on the Reservation, at the foot of Louie hill, being occupied by Billy Metcalf and family. After relating her story, she was taken in and well cared for, being nearly exhausted with the cold and from tramping through the brush.

Early next morning the Indian (Billy Metcalf) saddled two horses and making the girl as comfortable as possible, started for her home around the road. It took them until noon to get there. Passing F. M. Stanton's ranch the little girl told her story, and Edwin Stanton saddled a horse and started across the hills, by Campbell's and McDougall's, to tell the girl's parents of her whereabouts. The father and mother nearly prostrated with grief, were searching the woods. They called upon their neighbors for help to find the child, but could not obtain any. As soon as they learned of their child's safety and whereabouts, they were so overwhelmed with joy they could not say or do enough to be thankful. They returned home with enlightened hearts, to find their child and the Indian awaiting their arrival.

NOTICE.

The teachers of the new county of Lincoln, are informed that there will be no Institute held in this county until late in the year. This has been decided upon after conferring with the State Superintendent. The reason for this delay is, we have no fund that we can command to meet the expenses. Superintendent Bryan had already prior to division arranged for a county Institute, which would include the teaching force of Benton, and the teachers of Lincoln are invited, though not obliged, to attend the one to be held in Corvallis the latter part of this month. The county Superintendent would urge the attendance of all teachers when this can possibly be done.

CHAS. BOOTH,
Superintendent.

AN EXPLANATION.

EDITOR LEADER:—Hon. S. W. Condon, district attorney, asked me to officially investigate the reported poisoning case of Mrs. Masonfield in Yaquina precinct; but, after conversing with County Judge D. P. Blue and others, I have concluded that such examination is not warranted by the circumstances that surrounded the death. I write this note to exonerate Mr. Condon from any blame of carelessness that might be imputed to him.

Very truly,
W. E. YATES,
Dep. Dist. Atty.
